It seems especially fitting that the improvements in connection with the First Methodist Church in this city viz., the installation of the new organ and erection of the Sabbath School building and Parsonage should have been undertaken during the year 1910. It is just 100 years ago this month since the first parcel of ground was deeded to the Methodist Church in Charlottetown. Although Methodism had been introduced by its missionaries some years before, yet it was by this purchase of land that the first step was taken towards its present establishment. Since that time, true to its genius, Methodism has gone steadily forward extending its borders and contributing its share to the upbuilding of the Kingdom of Christ. The very successful Organ Recital, already held, has seemed as one feature of this centennial and other interesting features have been devised. The services on the Sabbath will be of a specially interesting character. Rev. Howard Sprague, D. D., President of the Conference, will preach at both morning and evening services. In the enforced absence of the Pastor, Rev. Dr. Hearty will assist at these services. The splendid new Pipe Organ will be used for the first time in connection with Sabbath services.

It is now a foregone conclusion that any gentleman with an American air and a chronic ailment will receive the citizenship of Charlottetown all due courtesy. Wealthy Americans are classed as demigods now in the eye of hundreds of aspirants for floating thousands. The arms of many a youth are aching for an opportunity to try their strength on a pair of oars, in the propulsion and persuasion of a man of money. Yesterday Frank McDonald, whose good fortune was reported in the Guardian of that day, was kept busy acknowledging congratulations in his usual modest manner. All sorts of queries were put to him and as an information bureau on the acquisition of fortunes Mr. McDonald seems to be fully qualified. His extraordinary good luck was the one theme of discussion around the city yesterday, the many unusual features of the case being rehearsed and recounted time after time. Money enlarged on the story by telling of the wealth of the late Dr. Fleming, who it is alleged, was worth \$2,000,000. Of the residence The Guardian learns that it is situated on Columbus Ave. as before stated, and is in a section of the city which, at one time, was the most aristocratic residential section in the city. The building is of the style of architecture prevalent a quarter of a century ago and is a most desirable acquisition. The late Doctor had used it as an office and residence.

James Callaghan sells the best \$20 College Overcoat in the city, made with reversible collars. This coat is good value at \$24.00, but as an advertisement he will sell a limited number at the above price. It will never pay you to buy ready-made clothing in Charlottetown, where you can buy made to order clothing so cheap. There is no other city in the Provinces where you can buy made to order clothing at anywhere near the price that they can be bought for in Charlottetown. In New York city the centre of fashion, they consider a made to order garment is worth twice the price of a ready made one, in fact there is no comparison between them. ttdsrtf.

A GOOD POSITION Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions may be had from \$70 to \$90 per month, with good chance to advancement. The National Telegraph Institute operates six official institutions in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., Philadelphia, Pa., Memphis, Tenn., Davenport, Ia., Columbia, S. C. or Portland, Ore. 9-214261r61.
