NAVIGATION IN GEORGETOWN HARBOR AND CARDIGAN BAY

The Canada Gazette publishes the following information, respecting aids to navigation in Georgetown Harbor, Cardigan Bay, Prince Edward Island forwarded by Capt. F. L. Campbell, R. N. H. M. S. "Indefatigable," is the result of an examination made by Lieut. Charles W. C. Strickland, R. N., on the 2nd, 3rd and 4th August, 1901:—

I. POSITIONS OF BUOYS.

The buoys maintained in Georgetown harbour and its approaches were found to be located as follows:—

- Panmure head black spar buoy, with Panmure Head lighthouse bearing S. 64° W., 3/4 cables.
- Cardigan shoal red can buoy, in 30 feet, with Panmure head lighthouse bearing, S. 4° W., 12 cables.
- Cardigan shoal red cask buoy, in 31 feet, with Panmure head lighthouse bearing S. 19° E. 1 1/2 cables.
- Panmure shoal black spar buoy, in 48 feet, with Panmure head lighthouse bearing S. 26° E. 1 1/2 cables.
- Grave point shoal black spar buoy, in 17 feet, with St. Andrews point lighthouse bearing N. 38° W. 7 cables.
- Knoll shoal red can buoy, in 18 feet, with St. Andrews point lighthouse bearing N. 82° W., 5 cables. Thrumcap spit red can buoy, in 25 feet, with St. Andrews point lighthouse bearing S. 44° W., 4 cables.
- Goudin point red spar buoy, in 20 feet with St. Andrews point lighthouse bearing S. 10° E., 8 1/2 cables.
- Aitkins point shoal black cask buoy, in 19 feet, with St. Andrews point lighthouse bearing S. 29° E., 1 1/2 cables.

Knoll shoal red can buoy in its present position, in 18 feet, must be given a clear berth, as it does not mark the extremity of the shoal, 14 feet having been found about a boat's length outside it in the fairway.

II. POSITION OF WESTAWAY'S FARM LIGHTHOUSE.

The inner range lighthouse in Georgetown harbour, on Westaway's farm is located on the 25 foot knoll N. 57° W., 3 1/2 cables from the front range lighthouse on St. Andrews point, and not 5 cables distant, as shown on Admiralty chart No. 2029, and described in Canadian lists of light and fog signals, 1901, No. 318.

The two range lights in one, bearing N. 57° W., (N. 82° W., true) lead in in best water between Cardigan shoal and Panmure shoal.

III. RAILWAY WHARF EXTENDED.

The railway wharf in the town has been extended to a point N. 30° E., 8 1/2 cables from St. Andrews point lighthouse, or to a length of about 300 feet. There is 20 feet water off the outer end, and from 23 to 10 feet on the western side, dredged out. It could hardly accommodate a vessel over 200 feet unless drawing less than 10 feet forward.

IV. LEADING MARK INDISTINCT.

The leading mark to the inner anchorage viz.: Brudenell islet just open off Doctor point, is so indistinct as to be quite useless.

This notice affects Admiralty charts Nos. 2029, 2034, 1651 and 2666; St. Lawrence pilot, vol. II, 1895, pages 167 to 174; and Canadian list of lights and fog signals, 1901, Nos. 417 and 418.

HE IS DEAD AGAIN.

Headache, Biliousness and Liver Complaint.

Troublesome and Obstinate Ailments Which Yield Promptly to the Searching and Thorough Action of Dr. Chase's Kidney-Liver Pills.

In nearly every family there is more or less suffering from liver disorders, biliousness and headaches, and no home should be without a cure for such derangements. Dr. Chase's Kidney-Liver Pills are wonderfully prompt and effective for all such disorders as well as for dyspepsia and constipation. They discovered, as is testified to by thousands of people.

Mrs. Faulkner, 8 Gildersleeve place, Toronto, says:—"After doctoring without success for biliousness, liver complaint and sick headache for over three years I am glad to testify to my appreciation of Dr. Chase's Kidney-Liver Pills. At first they seemed a little strong, but being both searching and thorough in their action, amply repay any inconvenience by after results. I am feeling better in every way, and my headaches have entirely disappeared." Dr. Chase's Kidney-Liver Pills are certainly the best I have ever used, and I freely recommend them.
