GOVERNMENT TELEGRAPHS.

Government ownership of railways is a proposition which seems to find increasing favor both in Canada and the United States.

But with the telegraph lines the case is different. The telegraph system is so closely related to the postal system that logically both should be under one control.

By the mistakes of the past both in regard to railways and telegraphs the companies have had the fat while the Government has taken the lean.

CHILD BURNED TO DEATH. LEWISTON, Me., July 26.—This afternoon Mary Dubois, aged 5 years, residing on Lincoln street, set fire to her clothing while playing with matches, and was burned to death before assistance reached her.

STRUCK BY LIGHTNING. LOWELL, Mass., July 26.—An unknown man, apparently about thirty years old, was struck by lightning and drowned from a canoe on the Concord river near North Billerica, this afternoon.

CORNS BETWEEN THE TOES. Or the soles of the feet can be cured by a few applications of Putnam's Corn Excipient, which has been successfully used for 30 years.

I was Cured of a severe cold by MINARD'S LINIMENT. Oxford, N. S. R. F. HEWSON.

I was Cured of a terrible sprain by MINARD'S LINIMENT. FRED COULSON. Yarmouth, N. S. Y. A. A. C.

I was cured of Black Erythrasia by MINARD'S LINIMENT. Inglesville, J. W. RUGGLES.

Gauvin, Gentzel & Co. Studio.

North West on, the Canada Pacific and the Western Union. All these are paying handsome dividends. They transmit 171 messages per mile of line, or 57 messages per mile of wire yearly.

Thus we have the companies operating the lines through the heart of Canada, connecting all its cities and towns and making money out of these valuable franchises.

Government ownership of all the telegraph lines would give the Government the fat with the lean; it would give one management, uniform service and reasonable rates throughout the Dominion.
