

# Zam-Buk

The old Roman charioteers and heroes wounded by wild beasts in the ruined Colosseum at Rome, anointed their wounds with secret balms made from the roots and herbs of the field. Instinct tells us to rub a place that hurts, and in Zam-Buk, the great herbal balm, is found the ideal substance with which to rub. Zam-Buk differs from ordinary salves, ointments, etc., in the important fact that it contains no trace of any mineral substance, and is also free from animal oil or fat. It is composed of the finest herbal essences and juices, and is so refined that the most delicate skin can absorb it with beneficial effect. It is at one and the same time healing, soothing and antiseptic. It does more, does better, and does it in less time than any other known balm.

### Eczema, Scalp Sores and Eruptions Cured.

Mrs. Henry Harvey, of Capraqui, Ont., says: "I am glad to state that Zam-Buk in my case has done all it was recommended to do. I had some sores on the scalp, which at times caused me such acute pain that I could not bear to touch the hair. This continued for nearly two years, and defied all remedies. I tried Zam-Buk and was so completely cured, after a fair trial, I am glad to report the sores are quite cured. I can strongly recommend Zam-Buk for scalp eruptions."

Mr. J. Hall, of Cooksville, Ont., says: "I consider Zam-Buk splendid value. I have used it on Burns, Pimples, Cuts and sores, and have found it to contain more healing qualities than any preparation used before, and can recommend it."

Mrs. N. H. Carter, of Inverary, Ont., writes: "I think Zam-Buk is a splendid healer. I had a bad spot of Eczema on one of my fingers that bothered me terribly. I obtained a supply of Zam-Buk and, to my delight, it healed the Eczema very speedily. I shall keep a supply of Zam-Buk handy, as I think it such an excellent remedy. I would not be without it in the house."

### What Zam-Buk Cures

Cuts, bruises, burns, scalds, eczema, pimples, running sores, sore feet, poisoned wounds, festering sores, piles, bad legs, dislocated ankles, abscesses, boils, ringworm, sore backs, scrofula, itch, sore breasts, barber's rash, and all kind of eruptions and sores of the skin from all druggists and stores. See perfores from Zam-Buk Co., Colborne Street, Toronto, upon receipt of 3 boxes for \$1.50.

### Free Sample Box.

Send this coupon with your full name and address and one cent stamp (to pay return postage) to the Zam-Buk Co., Colborne Street, Toronto, and a free sample box of Zam-Buk will be mailed you. The Charlottetown Guardian Oct 7th, 1907.

## KING'S COUNTY GUARDIAN

Offices in Montague, Capt. W. A. Johnstone Manager; and in Souris, Percy G. Seaman, Manager.

The D. G. S. Patrol is in Souris.

W. O. Wood of Boston is in Souris on a visit to friends.

Miss Rena McLean, of Souris, has left for Newport, R. I., to resume her duties as nurse.

Col. S. F. Moore, was in Montague on Wednesday inspecting the armoury and Rifle Club.

All are pleased to see how J. L. Walsh slowly but surely brings Souris from darkness to light.

John Keith, of Millbrook, Maine, arrived here on Friday to spend a vacation at his old home near Montague.

It is pleasing to hear of the recovery of Joseph McLean of the P. E. I. Ry., who has been ill for the last five weeks of typhoid fever.

The dredge, Montague, is doing good work at Souris at present. She is working in shore with good results. When completed Souris Harbor will have accommodations for liners.

W. A. JOHNSTONE, Montague, will be glad to receive news and advertising for "The King's County Guardian," as well as new and renewal subscriptions for the "Morning Daily" and the "Rural Daily." Telephone Connection.

A GASOLINE engine has been placed in position in Stewart and McLeans gas line boat, Souris, and when everything in connection therewith is in order it is expected that transatlantic records of speed will be completely shattered.

A new switch board has been installed in the telephone office, Souris, by Ed Whitlock of Charlottetown. Everything is now up-to-date and the connections to East Point are in working order. Everything seems satisfactory to the subscribers.

Two divers arrived in Souris last week and inspected the cement work already done on the new railway wharf at that place and found everything satisfactory. The cement is taking a firm hold and the work is being pushed as rapidly as possible by Mr. Boggs who is superintending the job.

OWING to the unfavorable conditions of the weather the fishermen of Souris are not having the usual luck. Quite a number of American sealers are in Souris and report mackerel plentiful, but boisterous weather. The mackerel craft which are taking, report fish plentiful and bait fairly good; but the elements contrary to fishing regulations and therefore they have to seek refuge in Souris.

OWING to the enormous amount of time and expense necessary in bookkeeping and making out small accounts as well as mailing and collecting same, The Guardian has decided that in future all ordinary amounts under one dollar will be accepted on a cash in advance basis and ten per cent discount given, except to those who have a regular advertising account who will still have the privilege of monthly credit.

THE citizens of Souris are highly indignant at the way they have been used in regard to the Souris Post Office public building which was completed about two years ago and still is of no convenience to the general public. It is high time that they rose up in rebellion against the inconvenience which has been imposed upon them. The question is asked, "What was it created for?" was it for a private dwelling for a select few or as a convenience for the public in general.

THE Wallace Circle of Murray Harbor South held its first regular meeting at the home of Mrs. Walter Hazzard, and judging by the interest manifested by each member, promises to be a decided success. The membership is increasing and now there are twenty young ladies enlisted in this noble work. The meetings will be held weekly. The ladies are preparing for a bazaar which they intend holding in connection with a concert as soon as possible. Proceeds in aid of the Wallace Orphanage, Luther L. O. L. No. 1290, has given a liberal sum of money towards the work.

A CORRESPONDENT at Peter's Road writes: "Owing to frequent rains, harvest is later than usual, but the crop is a bountiful one, and the farmer's thankful. Quite a number of gangs of boys are at work in the fields. This is a progressive move. The new wharf under construction at Green River, under the efficient supervision of William Butler, is a substantial and commodious structure, reflecting credit on contractor and workmen. It will be sufficiently completed for the fall shipping. John VanDerstine reports that his little boy Edgar—who was some time ago kicked by a horse, is now quite recovered. As a part of the exercises of Children's Day service in Peter's Road Church Rev. Mr. Gray delivered an admirable address on Sabbath School Work to the Cambridge and Peter's Road Sunday School on the 29th ult. The children's contribution in aid of missions was creditable."

W. WRIGHT is in town in the interest of his firm.

MISS ANNIE CULLEN, of Souris, has accepted a position as nurse in Falmouth Hospital, and has entered upon her duties.

DR. P. McLEAREN, of Montague, accompanied by his nephew, Wm. McLaren, left on Friday for treatment in one of the leading hospitals of Massachusetts.

P. G. SEAMAN, Souris, will be glad to receive news and advertising for "The King's County Guardian," as well as new and renewal subscriptions for the "Morning Daily" and the "Rural Daily." Telephone connection.

MATTHEW AND McLEANS and Steras Brus brick water tank at Souris is nearly completed. It has been placed by the above firms at their own expense, in case of fire. Messrs. Gurney and McCune of Charlottetown have the contract for its completion.

## OVERFLOW QUEEN'S COUNTY

The S. S. Northumberland arrived Saturday night at 8.45.

Lec. McDonald, Lynn, Mass., visiting in his old home at Hunter River.

Miss Elsie Lowe, who has been visiting in Monton returned to this City Saturday night.

John A. Webster of St. John arrived in this City Saturday night from a business trip to New York.

Miss Constance Burrows, who has been visiting her home in Summerside has returned to this city.

After a trying day on the race track, a nice refreshing evening is assured those attending Arena's Rink.

W. A. WINDFEL, Manager of the Telephone Company returned from Summerside to this City Saturday evening.

Telephone subscribers will in future please ask for 131 when they want either the News or Editorial departments of The Guardian.

At the Arena Rink Exhibition week one can witness the great collection entertaining attractions ever produced under one roof.

Among those attending the exhibition in Summerside Saturday from this city were: Wm. Moran, Prof. Shaw, Prof. Ross, Ross Bethune, Ryerson Riel.

Guardian readers can have all their job printing done quickly and neatly at this office. Orders left at the subscription counter will have prompt attention.

Bayfield street is not properly drained and in consequence fills with ponds of water during every rainstorm. Very soon the water will work through into the cellars and give householders endless trouble.

The many friends of John M. Duncan will be pleased to hear he now fills a lucrative position as teacher in Lytton, B. C. He has obtained a first class B. C. Certificate for life. He did not have to submit to any examination and received the certificate wholly on his ability as a teacher.

If you're passing along Sunnyside you can smell in the air—the aroma of the weeds won by contestants on the Square. Olgars awarded those who hit the ball and thomas cats, and cigars awarded strong men who are living through their hats of how they made the ball ring when they brought the hammer down. Oh, there's no mistake about it, Exhibitor's struck the town.

One cannot attend such a show as was made at Paton & Co's millinery opening Friday and Saturday night, without being lost in admiration of the artist's skill which has been so ably exerted in producing the beautiful things now so lavishly used in the preparation of head-gear for the adornment of the ladies. Flowers of a rare beauty, feathers of bewildering variety in color and form and kind, delicate materials of a quality that made a tempting array to place before the female eye comprised the display which was spread in such profusion. This applies particularly to the millinery room where the creations of the firm's milliner are the admiration of all who call. The hats with drooping brims, now so fashionable are to be seen in all the popular styles and in many variations offering a wide range of choice and adapted for all style of heads and every type of face. Not only is the display of goods confined to the millinery department but the whole of the large establishment has been used to afford means to display the magnificent goods secured for the demands of these fall months. On Saturday night the store was crowded with an admiring crowd.

## Stanfield's Underwear

(Chapter 1)

A Talk by the Maker to the Wearer.

### The Wool

Stanfield's Underwear is made of the best wool that grows on the best wool-bearing sheep in the world—the long, silky-fibred Nova Scotia wool.

The founder of the Stanfield mills did more than anyone else to develop the wool industry throughout the Maritime Provinces. For half a century, the farmers of New Brunswick, Nova Scotia and Prince Edward Island have saved their best wool for the Stanfields—first for C. E. Stanfield—and now for his sons, John and Frank, the President and Treasurer of Stanfields Limited.

The wear of a garment depends on the quality of wool from which it is made. Underwear may be PURE WOOL, and ALL WOOL—and still shrink, ravel and wear out in a single season. Because the underwear is not made of good wool in the first place.

There are seven grades of wool in the fleece when clipped from Nova Scotia sheep. Only the first three grades of this best wool are used in making Stanfield's Unshrinkable Underwear for men and women.

There are no weak spots in the fibre to break in the garments.

There can be no unravelling, because every stitch is locked.

Garments can't shrink, because of our perfected process of treating the wool BEFORE garments are woven, thus insuring absolutely Unshrinkable Underwear.

Stanfield's Underwear is right from start to finish. It is planned right, made right and wears right.

In all sizes from 22 to 70 inch chest measure. In three winter weights—RED label for light weight—BLUE label for medium weight—BLACK label for heavy weight.

Your dealer probably has all sizes and weights in stock. If not, he can easily get whatever you wish.
