THE OYSTER INDUSTRY IN PRINCE EDWARD ISLAND

(Continued from page eleven.)

sand which will not likely be leased until the more suitable bottom has been taken.

The plans of Richmond Bay were advertised in October 17, and on November 20th the end of the time allowed for receiving applications it was found that about 250 persons had applied for ground.

When the applications overlapped adjustments were made the plots taken were marked off on the charts and a second advertisement made in which applicants were restricted to persons in the province but this time not to 5 acres. This resulted in some 30 more applications being made but usually for larger tracts of ground.

During the winter 1912-13 advantage was taken of the ice accurately to determine the corners of the leased grounds as far as possible and corner stones with sunken buoys were put down beneath the ice.

In the summer of 1913 surveys were made of St. Peters Bay, Pownal Bay, Orwell Bay, New London Bay, Cascumpec Bay, Bentinck Cove, Barbara Weit River, Indian River, Oyster Cove, Shipyard River and Tryon River.

By the end of 1913 there were leased 5,000 acres, the greater part of which is in Richmond Bay.

During the summer of 1913 a beginning was made in the cultivating of their grounds by eight different companies. About 2,500 barrels of seed oysters were imported from United States.

These oysters varies in size from year olds ½ an inch in diameter to 4 years olds, 4 ins. in diameter. By the end of the year it was found that the smaller sizes had made an exrellent growth while the larger ones did not thrive nearly so well.

As the ground leased consisted of sand or mud bottom the condition for growth were doubtless not as good as it would be on the natural beds. With a view to getting a set of spat, shells were put out by different companies in July and August and in order that they might obtain these shells, three beds in the reserved ground that had been depleted were staked out for that purpose. Just how successful they have been in getting a set of spat is, as yet, unknown.

In the open season of 1913 the public fishery was actively prosecuted and while the beds in the Bay yielded only a few hundred barrels those of Grand River were found to be quite productive.

Owing to a period of mild weather occurring during the shipping season buying for export greatly diminished and the price declined. Advantage was taken of this by the planters to purchase a quantity of oysters from the fishermen who could otherwise have had to suspend fishing operations and altogether the fishermen of Grand River had a fairly successful season.

At the present application for ground are being received from a number of fishermen and the opportunities of obtaining steady employment are becoming apparent to all. The building of boats, the procuring of cultch the importation of seed, the preparing and planting of the bottoms are opening avenues of employment for fishermen and others which will soon overcome all opposition. The seed oysters planted last year have shown marvellous growth and the spirit of optimism among the planters is permeating the whole community. The Federal Government is preparing to sweep the public beds of star-fish The services of a biogolist are engaged to study the methods of propagation and the feeding of the oyster and to instruct the fishermen and planters in the best methods of preservation and extension of the industry. Capital is being freely offered for the development and the returns are confidently expected to be of the most gratifying character, to the invester, while an ever increasing revenue is being assured to the Province

The Army of Constipation

Is Growing Smaller Every Day.

CARTER'S LITTLE LIVER PILLS are responsible—they not only give relief—they permanently cure Constipation. Millions use them for Biliousness, Indigestion, Sick Headache, Sallow Skin.

CANNING GRAPES WITHOUT SUGAR.

I have canned grapes without sugar for three years, and never lost a can, and this year there is surely more of an incentive than ever for doing it. As we do not like the seeds in the grapes, I separate the pulp and skins, oil the pulp and put through a colander, then add to the skins and boil about five minutes before putting in the cans, which have been thoroughly sterilized. I always use a self-sealing jar which has a brass cap with the rubber attached, and is put on by simply pressing down on can.—Corr. Rural New Yorker.

CHILI SAUCE.

Peel and chop one fine onion, and six large tomatoes, add one green sweet Spanish pepper and one small hot chili pepper, chopped; then season with one cupful of vinegar, one tablespoonful salt, two tablespoonfuls brown sugar, one tablespoonful each of ground ginger, cinnamon, cloves and black pepper, and half a nutmeg. Boil slowly until very thoroughly cooked, then bottle and seal when cold.

GERMAN RACE HORSES PRIZES OF WAR

LONDON, October 20.—Next to the German ships ships seized by the Government since the outbreak of the war, probobly the most valuable prizes of the war are the racing sables in England, formely belonging to Germans and Austrians, but now the property of the Board of Agriculture and Fisheries. Shortly after the war broke out a London paper published a list of horses owned by Germans and Austrians and racing under their colors on English tracks. Acting on this hint and profiting by an old act which allows private informers to claim a share of the sale proceeds, a number a number of citizens brought actions and horses valued at half a million dollars were seized.

Bix—I suppose your wife always gets the last word.

Dix—Yes, and ninety-five per cent. of all the words that precede it.

An Old, Family Cough Remedy, Home-Made

Easily Prepared—Costs Very Little, but is Prompt, Sure and Effective

By making this old-time cough syrup at home you not only save about $2, as compared with the ready-made kind, but you will also have a much more prompt and positive remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly—and is excellent, too, for bronchitis, bronchial asthma, hoarseness and spasmodic croup.

Get from any drug store 2½ ounces of Pinex (50 cents worth), pour it into a 16-ounce bottle and fill the bottle with plain granulated sugar syrup. Full directions with Pinex. Keeps perfectly and tastes good.

You can feel this take hold of a cough or cold in a way that means business. It quickly loosens the dry, hoarse or painful cough, and also heals the inflamed membranes. It also has a remarkable effect in overcoming the persistent loose cough by stopping the formation of phlegm in the throat and bronchial tubes.

The effect of pine on the membranes is known by almost every one. Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with guaiacol and other natural healing pine elements.

There are many worthless imitations of this famous mixture. To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and do not accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Toronto, Ont.
