WINNING SIRE

Winners are welcome. The families which produce them are popular. Their representatives command the top figures at the auctions or at private sales.

In the seventies there were many families of light harness horses. Each had admirers. They were referred to as the Hambletonian, Mambriño, Morgan, Clay, Blue Bull, Hiogo and the Champion.

Of the twenty winners credited to San Francisco none have won at the rate of speed which goes with a champion.

One hundred and fifty sons of Hambletonian sired 230 speed. Of that number George Wilkes, Electioneer, Happy Medium and Dictator are the only ones which are now represented on the turf.

Electioneer, whose got at one time held all of the world's records, "carried on" through May King and Conductor, neither of which could trot in 2.20, and both of which were discarded before the end of their careers.

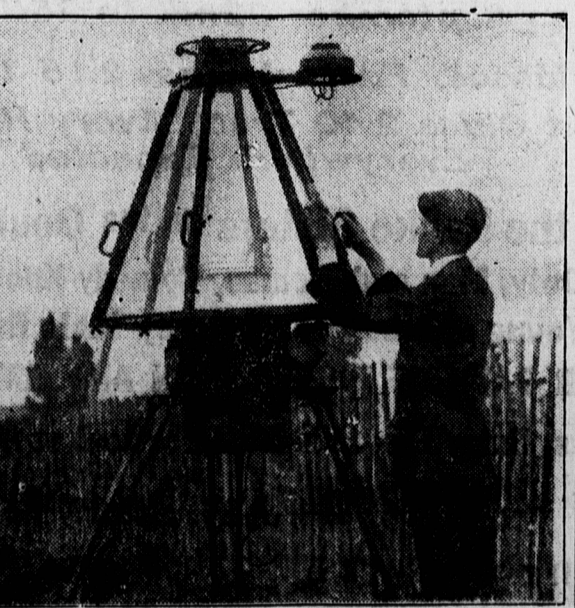

The Happy Medium Line was continued through Pilot Medium to Peter the Great, a sire of racing speed that has never had an equal in any breed.

One hundred and two sons of George Wilkes sired racing speed. Many of them were very popular. The leaders were Red Wilkes, Adrian Wilkes, Guy Wilkes, Alcantara, Ambassador, Baron Wilkes, Bourbon Wilkes, Gambetta Wilkes, Jay Bird, Simmonson, Wilkes Boy, Young Jim and Alcayone.

Alcayone died when he was ten years old. His line was continued through McKinney to San Francisco and Belwin, two of the present day leaders in the racing world.

Up to the close of last week Peter the Great was credited with thirty-two winners.

His most prominent representatives include Peter Buskirk, The Great Volo, Peter Fellows, Ethelinda, Hollywood March and the two year old Polly Peachtree, which was second to Peter Maltby in 2.07 1/4 at Milwaukee. MILLIONAIRE HAS LARGE BODYGUARD

ASBURY PARK, N. J., Sept. 10.—The mystery today grew deeper in the strange story of Max Phillips, millionaire collar manufacturer who said somebody was "for him."

Detectives did one and perhaps a dozen arrests would solve the mystery which started with the alleged attempt of a "Russian countess" to entice Phillips into a yachting venture for "dark purposes", and has moved along with all the perils and humor of a movie thriller.

When the "higher-ups" are arrested, Phillips said he would make known the exact nature of the intrigue of which he supposed to be the intended victim.

Meanwhile there were mysterious goings and comings at the Red Bank mansion of Phillips. Detectives crouched in the bushes around the Phillips estate and a cavalcade of sleuths followed and watched the millionaire as he came and went from his home or play-ground.

Charm. Crawford has won nine races while Peter Belwin and John Belwin have been getting their share of the money on the western tracks.

Of the twenty winners credited to San Francisco none have won at the rate of speed which goes with a champion.
