JAPANESE FLIERS RAIN DEATH ON CANTON

Japanese Still Claim Possession Of Disputed Zone

Crazed Mother Slays Children

(C.P. By Guardian's Special Wire)
FREDERICTON, Aug. 8.—Two children of Mr. and Mrs. Otto Niles, at Long's Creek near here, were fatally injured today by their suddenly crazed mother, Royce Canadian Mounted Police said this afternoon after the children died in hospital here.
The other Niles child, a young boy named Donald, also was rushed to hospital with serious injuries but he was expected to live.
The mother, suffering wounds police said were self-inflicted, was under guard in the same hospital. Officials added that Mrs. Niles had been in ill health for a considerable time. She became demented in the lonely country house while her husband was working in his hayfield, officials reported after investigating the tragedy.
Niles was the first to learn of the occurrence. He immediately summoned a doctor from Prince William, and police also were notified.
Lena was slashed with a knife, and the infant died of a skull fracture, doctors said.
Authorities would give no further details pending an inquest, to be held at the school house at Long's Creek tonight.

Council Decides On Sherwood Site For Civic Airport

Further Action Deferred Awaiting Report Of Council Committee After Interview With Federal Authorities.

The Sherwood airport site, on which the city has had an option since the purchase of the land by the city last night, final action on this project would be withheld until a committee of this council interviews the Minister of Transport at Ottawa and the result of the interview is submitted to this council, it was decided.
Mr. E. C. Purvey, Eastern Airways Engineer, Moncton, will be asked to make a survey of the site as required by the Department. The resolution was moved by Coun. R. C. Chandler and seconded by Coun. F. C. Dougan.
No mention was made last night as to the ownership of the property in question or the purchase price but it is understood unofficially Messrs. MacRae and Cullen are owners of the greater portion of the site and the purchase price is said to be \$26,000 to \$30,000.
It is anticipated by the Council that the Provincial Government will bear half the cost of the site, and the Federal Government will contribute approximately \$150,000 for development, including hard surface runways, over a period of five years. \$25,000 are available for development during the present fiscal year, in question of the purchase price.
Dr. J. S. Jenkins, owner of Upton Airport again addressed the council in connection with the proposed airport. He had spoken at a meeting of the council on the present one had been satisfactory for eight years and would continue to be so for probably another eight years. If the money, as had been said in part to provide equipment it could be used to better advantage in other projects, notably watermain covering. Dr. Jenkins declared. He had spoken along the same line at the emergency meeting of the council last week.
Mr. Wakeman said that he had been dealt fairly well by the council in the course of their remarks that they would have been pleased if the Upton site had been selected. As it was there was assurance the Department of Transport would spend money for the development of a site placed fourth on the list by the inspector sent by the survey.
Coun. B. Holman was assured by Mayor Foster that final action would not be taken until the report of the Ottawa committee had been placed before the full council.
Other business at last night's session included presentation of routine reports.

NAZIS TURN TO NEW BRUNSWICK FOR PULPWOOD

Agents Active In Eastern Canada For Much Needed Raw-material.

(Written For The Canadian Press by Thomas Wrayling)
PORT MENIER, Anticosti Island Que., Aug. 8.—Germany's search for pulpwood for her new industries has been redirected from Anticosti Island to New Brunswick.
I flew over to Bathurst today and found the only two ships in the harbor were loading pulpwood for Germany. All along the Miramichi German agents were buying up pulpwood for overseas shipment. There is no ban on the exports from New Brunswick.
Many German engineers and foresters are reported to have visited eastern Canada in the last six months, but with the outcry against their Anticosti Island deal they left the island at once and have been active elsewhere.
Keith Munro, business manager for the Quinly, said today it was not known when the five little girls would be up and about. Speaking for Dr. Dafeo, the country doctor who brought them into the world, and to their parents, despite improvement in their condition, the sickness first was noticed Friday morning in Emille.
The Quinly family, business manager for the Quinly, said today it was not known when the five little girls would be up and about. Speaking for Dr. Dafeo, the country doctor who brought them into the world, and to their parents, despite improvement in their condition, the sickness first was noticed Friday morning in Emille.
The Quinly family, business manager for the Quinly, said today it was not known when the five little girls would be up and about. Speaking for Dr. Dafeo, the country doctor who brought them into the world, and to their parents, despite improvement in their condition, the sickness first was noticed Friday morning in Emille.

Quintuplets Still Confined To Bed With Tonsillitis

CALLANDER, Ont., Aug. 8.—(C.P.)—Tonsillitis confined the world-famous Dionne Quintuplets to bed tonight, causing anxiety to Dr. Allan Roy Dafeo, the country doctor who brought them into the world, and to their parents, despite improvement in their condition. The sickness first was noticed Friday morning in Emille.
The Quinly family, business manager for the Quinly, said today it was not known when the five little girls would be up and about. Speaking for Dr. Dafeo, the country doctor who brought them into the world, and to their parents, despite improvement in their condition, the sickness first was noticed Friday morning in Emille.

CATHEDRAL IS TARGET FOR AIR RAIDERS

Bombs Explode In Grounds Killing Men, Women And Children.

(By The Associated Press)
CANTON, China, Aug. 8.—(Tuesday)—Japanese warplanes raided Canton for the second successive day, this morning killing an estimated 200 persons.
Greatest toll was taken by three large bombs which exploded in the heavily populated waterfront area, 400 yards from Shamen, the foreign settlement.
The bombs fell in the heart of the zone where thousands of persons have been accustomed to refuge during previous bombings, the latest of which killed 39 and injured 50 yesterday.
The concussion from the explosives violently rattled doors and windows in Shamen.
Roaring over the city at 9 a.m. the raiders unleashed their cargoes while rescue workers were completing an all-night task of extricating victims of yesterday's attack.
At least 30 persons were killed and 50 injured in the group.
Tightly packed into the grounds, the Cantoneses believed they had found safe haven beside the cathedral, plainly marked by a large French flag flying over the roof.
Lain and dismembered bodies littered the area in front of the cathedral after the raid. Several were injured inside the building, which was badly wrecked.
Nine planes took part in the attack on Canton, the first in two weeks. Government buildings were wrecked, and authorities officially estimated city-wide casualties at 121 dead and missing and 180 wounded.
On one tour of inspection 71 were counted.

Peace Negotiations To End Border Warfare Pushed In Both Tokyo And Moscow.

(By J. D. WHITE
Associated Press Foreign Staff)
YUKI, Korea, (Near the Siberian border) Aug. 8.—The Japanese Army tonight reported new activity on the right flank of Soviet forces at Changkufeng in apparent preparation for another attack in the disputed zone between Japanese Korea and Russian Siberia.
These preparations were reported after day-long bombardments which were audible here, a few miles south of the Tumen River, the Korean border.
Japanese asserted the Russian left flank, southeast of Changkufeng, was driven back last night, although army headquarters earlier conceded that Soviet forces to the north had driven a wedge to the Tumen River, isolating Japanese troops stationed on the mile long, four mile wide, 400 foot high hill overlooking the Tumen River and Khassan Lake.
(Japanese denied a Sunday announcement in Moscow that all Japanese troops had been driven from the area in dispute.)
List Casualties
TOKYO, Aug. 8.—The Japanese army tonight listed 200 dead and wounded as its losses in Siberian border fighting since July 29, and estimated Soviet Russia had lost 1,500 men battling for the heights of Changkufeng.
Soviet troops were reported by a Japanese army communique to be retreating north of the disputed heights, dominating a thin strip of territory along the Manchoukuo-Siberia frontier, after an unsuccessful assault on Japanese lines near the summit.
Denying a Moscow announcement that Changkufeng had been recaptured and Japanese driven from all Siberian soil, the Tokyo foreign office declared the Russians had been repulsed in a "heavy engagement."
Bitter Fighting
Bitter hand-to-hand fighting resulted when Soviet troops, covered by an intensive artillery barrage, advanced on the four-mile long heights.
A Japanese army communique declared 100 Soviet tanks had been damaged or disabled since the outbreak of frontier fighting and that six Red airplanes had been downed. The Changkufeng sector was said to be quieter today.
Another communique related statements allegedly made by two Soviet fighters who surrendered to the Japanese. It quoted them as saying Red army morale was very low.
They reported a Russian tank corps commander who planned to surrender his entire unit was put to death and a "purge" which hitherto had affected only officers, now extended to the lowest ranks.
The Foreign Office released a partial text of conversations in Moscow between Foreign Commissioner Maxim Litvinov and the Japanese Ambassador, Mamoru Shigemitsu, disclosing the diplomats agreed fighting should cease immediately but disagreed on the manner of stopping it.
It was expected here Shigemitsu would continue peace talks in the Russian capital.
It was considered in Tokyo that the crisis was past, even though fighting continued, and that it was unlikely to be aggravated into a major war. The public was relaxing and newspapers no longer gave Siberian border news first prominence.
FIRST BAPTISM
NEW GLASGOW, N. S.—It was an interesting day for William A. Cameron when he attended the reunion service at Sutherland River Presbyterian Church on his 83rd birthday. A search of the records showed he had been the first child to be baptized in the old church.

COMING EVENTS

- **Come to the dance at East Wiltshire School Wednesday, August 10th, good music and refreshments served by the Women's Institute. L-234-8-9-21.
- **Come to the open air dance near Clermont School Wednesday evening, August 10th, ice cream and refreshments, excellent floor and music, everybody welcome. L-242-8-9-21.
- **The cream festival, bingo and dance in St. Patrick's School, Aug. 11th, if not fine Friday. L-239-8-9-11-21.
- **The Western Union Young Peoples picnic at Darnley Aug. 11. Come at 2 p. m. and enjoy sports, group games, a swim, supper and the campfire service. L-240-8-9-21.

PLEAD CLOSER EMPIRE UNITY

(By The Canadian Press)
Three Australian statesmen pleaded yesterday for closer cooperation between members of the British Commonwealth of Nations.
At Toronto, Sir Earle Page, deputy prime minister, urged a trade agreement between the United States and the whole of the British Empire, embracing the English-speaking world.
In London, R. G. Menzies, attorney general, said modern relations between Great Britain and the Dominions "require constant contact, real determination to understand each other's viewpoint, and frank and full exchange of ideas at the relevant time."
In Melbourne, W. M. Hughes, minister for external affairs, advocated abolition of the Dominions Office with direct access to the Prime Minister there for the foreign policy views of the Dominions.

Reach Settlement In Seamen's Dispute

(C. P. by Guardian's Special Wire)
MONTREAL, Aug. 8.—Threat of the Canadian Seamen's Union to tie up Great Lakes and St. Lawrence River vessels of Canada today faded today with the signing of a written agreement adjusting the dispute between the workers and the company.
The agreement, effective until April 1, 1940, was signed late today by managing-director T. R. Enderby of Canada Steamship Lines and President J. A. (Pat) Skivan of the seamen's union. Settlement came after several days of negotiation and both sides expressed "satisfaction" at the outcome of the conferences.

Wife Of Motor Magnate Dies

GREAT NECK, N. Y., Aug. 8.—Mrs. Walter P. Chrysler, wife of the automobile manufacturer, died at her home tonight after a cerebral hemorrhage.
All members of the family were at the bedside when death occurred at 8 p. m. APT.
Mrs. Chrysler was stricken earlier in the day and was placed in an iron lung. She had been treated several months for high blood pressure, her son, Walter, Jr. said.
She complained after dinner Sunday night of feeling ill and retired early.
Besides her husband and son, Walter, Jr. survivors are two daughters, Mrs. Thelma Foy and Mrs. Bernice Garbisch, and a son, Jack.
Quebec Paper Mill Damaged By Blaze
QUEBEC, Aug. 8.—(CP)—Damage estimated between \$50,000 and \$75,000 was caused tonight by a fire which broke out at the Anglo-Canadian pulp and paper mill on the north side of the city.
Part of a covered conveyor system was destroyed before firemen extinguished the blaze which broke out shortly before seven o'clock and continued for an hour.
The fire is said to have been caused when a roll of newspaper toppled over on an electric motor. Sparks from the motor ignited the paper and flames were transmitted to other rolls.
The mill prop was not damaged.

GRAIN PRICES HIT NEW LOW

(By Franklin Mullin)
CHICAGO, Aug. 8.—Grain prices plunged again today to low levels that have not been reached here in the last five years.
Wheat fell more than two cents on the board to 62 1/2 c. with the exception of the year 1934, 1932 and 1933, that was the lowest wheat had been in 30 years.
Corn tumbled about three cents to 50 cents, lowest since April, 1934, quiet around 22 cents, and rye, around 41, were at new lows since 1933.
The drastic slump of grain values in central America the past three weeks has coincided with announcement of definite proposals by government of two of the world's leading grain-producing nations for stabilization of values. The United States announced in the middle of July a broad plan involving loans and acreage curtailment to strengthen the wheat market. Late last week the Canadian Government fixed a price it will guarantee farmers.
Since the middle of July, however, Chicago wheat and corn have dropped to cents a bushel, while oats are off four cents and rye 2 cents to 20 cents. Wheat prices, which today fell almost nine cents below the guaranteed figures, had dropped almost three cents since Thursday.
Most traders said the fundamental reason for the lower prices is, of course, the much larger supply, not only to North America, but also throughout the world. Business conditions in the year also are responsible.
Teachers Meet In Winnipeg Today
(By The Canadian Press)
WINNIPEG, Aug. 8.—Delegates from eight provinces are in Winnipeg tonight awaiting official opening of the five-day conference of the Canadian Teachers' Association tomorrow.
Vice-president M. E. LaZerte, director of the School of Education at University of Alberta, said a busy week of meetings and receptions lies ahead of representatives of every province except Nova Scotia.
Was Member Of Masonic Lodge Here
MONTREAL, Aug. 8.—(CP)—Canon William Sanders, 80, of St. Edward's Church and Canon of Christ Church Cathedral, died today. He had been a priest of the Church of England in Canada for 51 years.
He was a prominent Mason and a member of several lodges including Alexandria Lodge No. 5 of the Grand Lodge of Prince Edward Island.

URGES END TO TERRORISM

Commissioner Appeals For Peace In Palestine.
JERUSALEM, Aug. 8.—(AP)—appeal to Jews and Arabs to end the "mutinous campaign of murder and sabotage" sweeping the Holy Land was broadcast tonight by Sir Harold Alford Mac Michael, high commissioner of Trans-Jordan and commander-in-chief of Palestine.
"I make this appeal for patience and appeasement as a step towards the peace for which we all pray," Sir Harold said.
He did not mention the secret two-day visit to Palestine which Malcolm MacDonald, British colonial secretary, concluded yesterday. After Mr. MacDonald's departure officials here said his visit had no political motive and that Great Britain still adheres to her partition policy, to which both Arabs and Jews are hostile.
More than 200 persons have been killed and 500 injured since the racial emigration of Jews on July 5. An Arab was killed and eight persons wounded today by a bomb explosion in Tiberias.

Russo - Japanese Developments Are Watched Closely

(A. P. by Guardian's Special Wire)
MOSCOW, Aug. 8.—Foreign military observers here watched developments since Foreign Commissioner Maxim Litvinov's revelation of a new border clash 250 miles north of Changkufeng where principal Soviet-Japanese fighting has occurred since July 29.
Litvinov said the new incident took place on the Manchoukuo-Siberia frontier at Sushen.
If this should prove to be an isolated incident, it will be regarded as a good sign, but if it is followed by others in the same general region it may indicate a serious widening of the conflict likely to compel the Soviets to launch large-scale military operations to prevent any threat to Vladivostok, Russia's chief Asiatic port.
The Soviet Government already has indicated clearly that while it is determined not to begin anything likely to widen the conflict, it will answer promptly with armed force any tendency on the other side to spread hostilities over a wide area.
This was stated most plainly by Litvinov himself in his conversations with Marou Shigemitsu, the Japanese Ambassador.
It was also determined in similar cases in the future to re-

Australian Statesmen Urge Greater Cooperation.

(By The Canadian Press)
Three Australian statesmen pleaded yesterday for closer cooperation between members of the British Commonwealth of Nations.
At Toronto, Sir Earle Page, deputy prime minister, urged a trade agreement between the United States and the whole of the British Empire, embracing the English-speaking world.
In London, R. G. Menzies, attorney general, said modern relations between Great Britain and the Dominions "require constant contact, real determination to understand each other's viewpoint, and frank and full exchange of ideas at the relevant time."
In Melbourne, W. M. Hughes, minister for external affairs, advocated abolition of the Dominions Office with direct access to the Prime Minister there for the foreign policy views of the Dominions.

Paris Fashions For Winter Display Two Diverse Trends

PARIS, Aug. 8.—Old-fashioned necks and down coat fronts. Broadtail fur coats were accented with jeweled embroideries or latices with quilting stitches.
The collections indicated a big fur year.
Black fox and white ermine made gown-length evening gowns, skin fisher and blue fox were fashioned into loose short day coats.
New style pipings for afternoon wear were formed of astrakhan, beaver and sealskin.
Narrow evening dresses were noted in crepe, velvets and chiffon with panier hilt draped or black fullness in bust draperies.
A Persian influence was noted in metal brocades and embroidered silks, also in wide-skirted evening coats. New evening coats also following Chinese mandarin coat lines.

Insurgent Hopes Of Victory This Year Given Setback

(By The Associated Press)
HENDAYE, France, Aug. 8.—Despite Insurgent gains in the Ebro River Valley today General Franco's chance of decisive military victory before the end of this year appeared to be practically zero because of the Government's stubborn stand before Gandesa.
Government sources said the main purpose in its Ebro offensive—to wreck Franco's battle plans—had been accomplished.
Insurgent dispatches said 4,000 Government militiamen had been killed and 4,000 captured wiping out the Government's entire northern flank of the Ebro front 150 miles southwest of Barcelona.
But such attacks, similar to that which cleaned out the Ebro River's hook north of Payon, have gained little if any ground against Gov-
