The fishermen at the various points along the coast-line are making full preparations for a busy season. The herring which were very plentiful up to a week ago are getting scarce. In the vicinity of Souris the scarcity of herring has been much felt as it will mean a scarcity of bait for the lobster season.

Carmangay
the Star Town of Southern Alberta

Why not take the initiative in a good stroke of business by finding out why in only three short years Carmangay has changed from a stretch of prairie into a live town with no less than 53 places of business, a public school, several banks, municipally owned waterworks and electric light plants, mammoth elevators, etc.

Why is it that Carmangay heads the list of shipments of wheat in all Alberta. No less than a million bushels were shipped in 1911—and from the 1912 crop the tremendous increase of half a million bushels! And all this with only a fifth part of the surrounding fertile lands under cultivation!

The forests that grew a million years ago around where the prairie town of Carmangay now thrives to-day, added to Carmangay's rich resources. How?

It certainly is an interesting souvenir booklet we want to send you. It will show you how to make the stroke that creates real dollars. Why not send a postal to-day.

As briefly announced yesterday the death took place in Charlottetown early Wednesday morning of Mr. William S. Next to infancy, the years between ten or twelve and eighteen are the most critical in life, especially for the boys and girls who grow too fast. Rapid growth and the physical changes that are taking place render them particularly liable to weakness and disorders of the digestive system, kidneys or lungs that very frequently, when allowed to run on, condemn them to a lifetime of suffering. It is most important that at this period of life those organs which carry off the body's waste and impurities—the bowels, the kidneys and the skin—should be kept active and vigorous. Nothing will do this more effectively than that good old-fashioned remedy, **Dr. Morse's Indian Root Pills**. It acts directly on each of these organs, enabling them to do their work properly, and thus keeps the whole system pure and healthy. **Dr. Morse's Indian Root Pills** are still made from precisely the same formula as when our grandparents used them, for nothing better has ever been devised. Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 25c. a box.

Madam-It's Got to be Blended or You Can't Use it for Pastry as Well as for Bread

All this talk about western wheat flours being "pastry" flours, is just plain talk. Anyone, who knows anything about wheat, knows that western wheat flour cannot, will not and does not, make as good pastry as "BEAVER" FLOUR.

Any flour, which is said to be western wheat flour, and makes extra good pies and cake, will be found to be blended like "Beaver" Flour—whether it is sold as such or not.

A blended flour like "BEAVER" FLOUR is the only one that is equally good for bread and pastry. You will understand WHY.

Manitoba wheat has what the bakers call strength. It makes a big loaf of bread; but the bread is spongy or full of holes and lacks flavor.

Ontario wheat, blended with spring wheat, makes the ideal bread and pastry flour. By combining the two in just the right proportions, we have "Beaver" Flour—a flour that makes the real home-made bread and delicious light pastry.

In cities such as Toronto, where bakers have tried a blended flour, it was found that although a smaller appearing loaf was the result, the people refused the Manitoba flour bread in favor of it—and there is now no other flour used.

"BEAVER" FLOUR
is sold for what it is—a scientifically blended flour—the original blended flour—pure, honest, reliable.
Don't bother with two kinds of flour—don't put up with heavy pastry, or flavorless bread.
