To the Silver Fox Farmers of Prince Edward Island

This is to inform you that we have been appointed CONSIGNMENT AGENTS for the

HUDSON'S BAY COMPANY
 OF LONDON, ENGLAND.

The oldest and wealthiest Fur Company in the World, and are prepared to market your Pelts on either of two plans, namely:

Direct to the HUDSON'S BAY COMPANY, Beaver House, Great Trinity Lane, London, E.C. 4, England, yourself; or to us and we will ship your Pelts for you. In either case your consignments will receive the best possible attention. Fine Silver Fox Pelts usually bring a better average at HUDSON'S BAY COMPANY'S SALES than elsewhere.

We ourselves, operating a large Ranch strictly on a pelt basis since 1930, have made a rather good showing, and all our Pelts have been sold at the HUDSON'S BAY COMPANY'S SALES. We now offer you, our Fellow Rancher, the same privileges we have enjoyed.

PELT PURCHASING

Since 1926 we have been buying Silver Fox Pelts outright for the HUDSON'S BAY COMPANY, and have handled over a MILLION DOLLARS WORTH of this Prince Edward Island product, paying good prices; and our dealings with our clients have been uniformly satisfactory. We will continue that branch of our business.

You will find us at the
McLURE BUILDING,
 110-112 Kent Street,
 where we have excellent facilities for serving you. Call, write or telephone us at our expense. We will treat you right.

MARRIAGE IS A CAREER IN ITSELF SAYS AN ACTRESS

HOLLYWOOD, Dec. 3—A woman never has to face the problem of choosing between marriage and a career because marriage is a career in itself says a prominent film star. Marriage takes as much time, energy, application and downright talent as any other form of endeavor, the actress believes. And so she herself has remained unmarried. For five years the star has been engaged to her business manager. Wherever her professional engagements take her, he must go. Whatever her professional worries may be he must share them.

"Our interests are interwoven," she says. "And we have a great many things in common. Yet I feel that a woman who is married and at the same time attempts to follow a profession must be unfair either to her husband or to her work. There are other reasons why I hold to this principle."

At the risk of clashing with the numerous Hollywood actresses who have children, this lady says she doesn't see how a film player can give a child a square deal in time and attention and affection.

Find Great Comfort in Thumb

(A.P. By Guardian's Special Wire) STEVENSON, Wash., Dec. 3—By eating a dozen times a day and crying only once every 24 hours, Jacqueline Jackson has increased her weight 6 2-3 percent in two weeks but she isn't worried about her figure as yet. She weighs only 16 ounces, counting the grain. Jacqueline's chief interest in life besides the medicine dropper which serves as her milk bottle, is her tiny thumb, which she sucks with great enthusiasm. Her entire hand is no larger than the end of an ordinary adult thumb and she is only 11 1-2 inches long. It was Nov. 24 when the premature 6 1-2 months infant was born to M., and Mrs. Fred Jackson of Cascade Locks, Ore. Jacqueline is their fourth child. The baby sleeps most of the time. She cries about once a day, but it's a good healthy cry. The baby takes four drams of liquid nourishment every two hours with a medicine dropper rubber for a nipple. Canadian cattle hides exported to Japan are wet and salted, similar to those from the United States, while the pelt exports from China consist chiefly of sun-dried cow-hides, weighing from six to forty weeks but she isn't worried about pounds.
