

When a president of the Irish Free State visited America last week for the first time in history, he was greeted by modern Ireland's first foreign envoy, President William T. Cosgrave...

HEART WAS SO WEAK Had to Stay in Bed

Mrs. F. Wilson, Lethbridge, Alta., writes: "My heart was very weak, and I had to stay in bed for five weeks with it. My aunt advised me to take MILBURN'S HEART NERVE PILLS...

as she had taken them with good results after a very bad operation. I took them and some time after a doctor came to examine me for life insurance and he said there was nothing wrong with my heart."

Milburn's Heart and Nerve Pills are 50c a box at all druggists and dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

RAYS FROM THE KING'S TOMB YIELDS MILKY WAY ITS FINAL SECRETS TO HOWARD CARTER

(By British United Press) LONDON, Feb. 10.—Rays from the milky way with more than thirty times the penetrating power of X-ray and which have baffled scientists for more than 20 years since they were first suspected, are described by Professor Wilken and Dr. Cameron. These two investigators have searched the universe in an attempt to determine the source of these rays, which are called Cosmic Rays. They describe their latest experiments in California and on the heights of the Andes mountains in South America. They have tested the light from the stars without result. They have found no effect from the sun, and they have gathered nothing from their trials of interstellar space. The inference made is that the rays come to the earth from the edge of the universe, far beyond the ring formed by the Milky Way, and had their origin 1,000,000,000 light years ago. The rays are believed to be electrical in origin, but to produce rays with the same penetrative power would require an electromotive force of 41,000,000 volts. While a fairly thick coating of lead is impenetrable to X-rays, the cosmic rays can be detected behind a lead screen up to 167 feet thick, and to a depth of 190 feet of water.

Perfection of Goldsmith's Art. These miniature coffins show the perfection of the goldsmith's art. The stone upright, perfect copy of the great gold coffin which contained the King's body, but they are even more elaborate in design, gilded and surmounted by rows of brilliantly inlaid solar cabras, con-dan an goddess or genius to whom it cealed in the canopic chest of semi-transparent alabaster. This chest, with a dado of gold, rested on a tors.

Canadians Hurt By Fordney Tariff

MANY FIRMS WITHDRAW PURCHASING DEPTS. IN U. S. SAYS TORONTO MERCHANT. NEW YORK, Feb. 10.—"Canada the best customer the United States has receives the worst treatment under the tariff laws of this country," said C. L. Burton, General Manager of a Toronto department store, who addressed the National Retail Dry Goods Association convention here today. Provisions of the Fordney Tariff Act are a serious trade barrier between the two countries. "Since that tariff law has been in force," said Mr. Burton, "many Canadian companies have discontinued their purchasing departments in New York. We feel that the tariff policy of the United States is antagonistic to Canada and for that reason we buy as little as possible in the United States. Even at that we are the best customer that country has."

Impersonation Of Royalty Forbidden

LONDON, Feb. 10.—Lord Chamberlain, the Earl of Cromer, who is responsible for the correctness of all theatrical productions in Great Britain, announced tonight that a review in a scene in which the character is impersonating the Prince of Wales, which is against the law. The Earl said a comedian of grotesque dress and deportment is impersonating the heir to the British throne in a scene in which the character is impersonating the Prince of Wales, which is against the law.

Beautiful Isle of the Sea

I shall sing you a song of an island fair. Of a beautiful gem in the sea; Where the balmy breath of summer's air—Scented with flowers sweet and rare That bloom on the dewy lea. The song is about that fairy isle, Loved by the gentle sea; And where feathered minstrels sing the while Where the stars, above look down and smile—On a people blessed and free. Never a paradise more noble and grand. O' little isle of the sea! Never a more enchanted fairy land, Wrought by the great Creator's hand, And so beautiful to see. There, when the storm of life goes by, There let my death-bed be; There let my humble ashes be—In that beautiful isle, neath the starry sky; And the deep blue sea. F. H. M.

Are You Run-Down?

All That is Needed is a Tonic to Build up the Blood. There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness, broken sleep and a generally run-down feeling so long that they have given up hope of again enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would wonder. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerly ailing person who has found new health through the use of this medicine. The experience of Mrs. Thomas Ahearn, St. Malo, Que., bears out these statements. She says: "I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. Frequently I would faint and my legs would swell badly. It was almost impossible to do any household work. It seemed as if my blood turned to water. In this weak and despondent condition I began taking Dr. Williams' Pink Pills. A few boxes proved that they were helping me, but I continued taking the pills until I had used a dozen boxes, by which time I found myself a completely restored woman, able to do my work without fatigue, a better appetite and a sense of cheerfulness, where before I had been despondent. For all this, thanks to the health-giving qualities of Dr. Williams' Pink Pills."

Man's Vision Spans The Ocean

HAIRTSDALE, N. Y., Feb. 10.—A man and a woman sat before an electric eye in a London laboratory and a group of people in a darkened cellar in this village outside New York watched them turn their heads and move from side to side. The images were crude, imperfect, broken, but they were images none the less. Man's vision had spanned the ocean, trans-Atlantic television was a demonstrated reality, and one more great dream of science was on the way to eventual complete realization. Monte Carlo is "doing itself proud" in the matter of dyed ermine, and a new and lovely shade of pinkish-beige is the favorite tint, though one woman is wearing a Russian blouse made of dark sapphire blue ermine, which had a belt of blue enamel and silver-square plaques held together by thin silver chains.

Tut-Ankh-Amen's Resting-Place Gives Up Pharaoh's Last Remains.

LONDON, Feb. 10.—The tomb of silver-handled sledge, covered with the Pharaoh Tut-Ankh-Amen has yielded its last secrets to its discoverer, Howard Carter, who today announced the result of his investigations in the innermost recess of the tomb at Luxor. This recess held four canopic jars, containing the viscera of Tut-Ankh-Amen. Usually these jars, which are associated with four gods, Hepi, Duamutef, Quebeh and Senuf, who in turn were under the protection of four goddesses, Isis, Nephthys, Neith and Selket, were placed at the foot of a mummy. But in Tut-Ankh-Amen's tomb they were in a recess opposite the foot of the King's sarcophagus and they were covered by a canopy.

Monument Six Feet High. The monument built to protect the canopic jars is more than six feet high, perfect copy of the space five by four feet. The canopy is supported by four posts on the sledge. The whole construction is gilded and surmounted by rows of brilliantly inlaid solar cabras, con-dan an goddess or genius to whom it cealed in the canopic chest of semi-transparent alabaster. This chest, with a dado of gold, rested on a tors.

MONTHLY MEETING OF THE WOMEN'S INSTITUTES

MORELL EAST. At the first regular meeting of the fifteen members met in the school house. Roll call was answered by "Tidbits". The programme consisted of readings and songs. After the business part of the meeting, lunch was served by Mrs. William Rongaban, Mrs. Horner, Mrs. McDermit and Mrs. Tablin. Plans were made to hold a Pic Social on February 10th at the school. A concert is to be given by the school children. The meeting was brought to a close with a dance which was greatly enjoyed by the younger generation.

BIRCH HILL. A large number of members met at the home of Mrs. Arthur MacLean. A paper entitled "Cranberries, the year-round food," was read by Miss Annie Desmond, also, "How do you tackle your work," by Miss Florence MacLean. \$2.50 was paid to Mrs. H. T. MacKendrick for cleaning the school.

PEAKES. The members responded to Roll call with New Year resolutions. A discussion on increasing the funds was read. This Institute is in favour of the proposed institute paper. Two new directors were appointed to take the place of the two who left the district. A pleasant evening was spent in music and song.

ALMA. Ten members and three visitors met at the home of Mrs. John E. Mountain, when Roll Call was answered by riddles. At the next meeting Roll Call is to be answered with a recipe. Mrs. Clarke gave a reading on the Institute Ode. New seats and desks are needed for the school. A Committee was appointed to visit the school and see how many seats were required, the seats are to be purchased at once. Mrs. Allan Clark, Mrs. Nell Barbour and Mrs. Wallace Donald are the Committee appointed.

PRIEST POND held their meeting at the home of Mrs. D. J. Campbell. The reports of the different committees were heard. It was decided to hold a Raffle in the school for the purpose of raising funds to pay for the labor on the school.

STIRLING. At the January meeting.

Notice to Farmers

It is our intention, providing that we are assured of work enough to make it a success financially, to put in our Mills at Wood Islands, Seed Wheat Cleaning Outfits, that will remove all chaff, barley, and weed stems, as well as cockle, wild buckwheat, mouse peas, and other small seeds from the wheat. The outfit to consist of Milling Separator, Grader, and Carter Disc Separator, a combination that cannot be beat for cleaning wheat for seed. It will not injure the wheat, for there is no scouring action. We will take wheat by train from any part of P. E. I., but will not pay freight. We will, however, pay truckage from and to the station. The charge per bushel for cleaning will be 20c and one bushel out ten. All screenings will be returned. Farmers who are interested in having good clean seed, please drop us a card stating the amount you would send for cleaning. This is necessary so that we may know whether it would pay us to install the Plant, or not. No order will be considered too small, or any wheat too dirty to make seed with this machine, providing there is no Wild Vetch in it. It will not remove the Vetch Seed, or at least not all of them.

McMillan Bros., Wood Islands, P. E. I.

GREAT FEAT OF SURGERY

(By British United Press) SYDNEY, Australia, Feb. 10.—A successful operation by means of which a boy blinded and paralysed on one side of his body as the result of his accident has recovered both his sight and the use of his body, is reported from Sydney, Australia.

The operation, it is stated, has just taken place at St. Vincent's Hospital and is claimed to be unique in the annals of surgery. The boy who was just thirteen had been hunting with two companions. His horse stumbled and threw him and the boys head struck a stump of a tree with great force. When his mother arrived on the scene she found her son apparently lifeless, it being scarcely possible to feel the heart beat. He was taken to Conna Hospital and lay there for three weeks, blind and with one side of the body paralysed. All hope of his ever recovering his sight being abandoned. The boy was then moved to St. Vincent's Hospital, where the left side of the brain was completely lifted. For three weeks he remained in a state of delirium with a tube in his head draining away the clot. The boy's eyesight has been regained and the use of his paralysed side has returned. He is now making an uneventful recovery.

Bandit Trio Slug Island Garage Clerk

Three men drove into the Buick garage, 2221 Roosevelt Road, Kenosha, Wis., at 3.45 o'clock on Jan. 23rd held up Ernest Woodside the night man, beat him into unconsciousness, looked him in the eye, took the keys from his pocket, and escaped in their own car and took with them another automobile in storage at the garage. (Mr. Woodside is a son of Mr. George Woodside, Manager, P. E. I. Woodside was arrested by police two hours later and booked on suspicion while user books were being investigated. All four denied any connection with the holdup. This afternoon Woodside was to be taken to the city jail to try to identify the four men in jail as his assailants. Police received the first call on the holdup about 4.15 o'clock this morning a half hour after a look packer. Woodside was struggling to free the fire station where the police were called.

Tells Story of Holdup

When the police arrived at the garage they found Woodside badly beaten. He was extremely excited, and gave the story of the hold-up as best he could. According to this story Woodside said he was sitting at the counter in the office of the garage reading a newspaper at 3.45 o'clock when he heard a car tooting in front of the garage door. He pressed the button that automatically opens the garage doors and a big Auburn sedan drove in. Woodside left the office for the rear of the garage, turning on the lights. When he reached the car he saw what was wanted the driver of the car pulled out a gun and ordered him to throw up his hands and to get back into the rear of the garage. Woodside obeyed. He looked at the gun the man held in his hand, and it appeared as though it were only a toy pistol, he said.

Socks With Wrench

Woodside started to argue with the man and pulled a wrench out of his pocket and struck him on the head with it. The other two men then jumped on him and beat him about the head and face with blunt instruments until he was knocked into insensibility. They carried him to the basement of the garage and locked and bolted the door. The men then went upstairs and cleaned a rack of the new trousers just received a few days ago, picked out a Buick touring car belonging to Lawrence Kiser, of 649 Twenty-second avenue, which was in storage in the garage, and left. The men took the back seat cushion out of the sedan and left it in the garage to make more room for the tires. According to Kiser, the proprietor of the garage, the tires were valued at \$24 each, bringing the total loss for tires alone to \$204.

Give Confidence To Young Mothers

By Always Keeping Baby's Own Tablets in the Home. A simple and safe remedy for the common ills of babyhood and childhood should be kept in every home where there is either a baby or a young child. Often it is necessary to give the little ones something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth. Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies.

Baby's Own Tablets are a mild but thorough laxative that act without gripping and they are absolutely guaranteed free from opiates or other harmful drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. Many a man clothes his wife gorgeously by skinning his patrons.

Seymour Hicks and his company of English players are now making a Canadian tour. The illustration shows Mr. Hicks, his wife and their daughter, Betty, leaving Euston station on the first lap of their journey to the Dominion.

Escapes from Cellar

Woodside came out of his cage about a half hour later and struggled for the door. He found that he could not leave here without removing the nuts and bolts in the door. He found a venting pipe that led upstairs through the roof. He rushed over to a candy store at the corner and attempted to wake the proprietor. When he found no response he ran another block to the fire station where the night men on duty called a police station. The description of the two cars and the three holdup men was flashed to all the patrolmen in the city and to neighboring cities. About an hour later Patrolman George O'Hara and Lyle Bolton, operating the driver squad, stopped four men riding in an Auburn sedan at the corner of 50th street and 23rd avenue. They were questioned and then allowed to proceed. The two patrolmen notified headquarters.

Pick up Same Four Later

At 1.30 o'clock Patrolmen Tom Guirreman, Delos Reynolds, E. Radatz and John Egan arrested the same four men in a downtown cafe. They were Carlo Angelo, 24th avenue; Frank Cosentino and his brother Mike Cosentino, 5525 23rd avenue, and Louis Glezer, 642 1/2 22nd avenue. All four presented an alibi for their movements during the evening but they were being held until Woodside, the nightman at the garage, could see them. This morning Woodside was still dazed by his harrowing experiences of the night before and he was told to go home and rest. He is under the care of a physician. In the meantime the police investigated the car which the four men had. They found two loaded revolvers in the back seat and a large quantity of bullets. An automobile key which could not be satisfactory explained was also found in the car.

Identify Owner of Key

This key was identified as the key belonging to a Studebaker roadster belonging to Tony Covelli, of 5500 22nd avenue. Covelli reported that his car was stolen at 12.05 o'clock Sunday morning in front of the Hollywood cafe on 22nd avenue. Police notified the police departments at Racing, Waukegan, Zion, Milwaukee, and Morton Grove, but to the best of the police's knowledge the four men could not account for the presence of the key in their car. Last night was Woodside's first night as a night attendant at the Buick garage. A new plan was inaugurated by the proprietor whereby one of the day men would work Sunday nights to allow the regular night man, Harvey Buss, to have his night off at that time.

NEW HAVEN-DUNEDIN HOCKEY NOTES

Our newly organized hockey team, the "Smelt Kings" are right out for business. Joe Miller is the capable coach and captain, while Lee Berrigan is managing the duties of the team. Lack of practice is a serious handicap to the players, but they hope to have a few workouts at Cornwall rink before engaging in any games. At present the open-rink is being used for practice. Among those who turned out for a workout lately are: V. Moore, G. Moore, J. Miller, L. Berrigan, J. Goss, J. Beaton, R. Darrach, I. Darrach and others. According to the brand of hockey registered in practice, the writer would be inclined to regard the future of the team rather optimistic.

The captain appears to be in the same frame of mind, for here's his challenge which has a tongue-twisting tendency in it: "The skating sextette that strives to subdue the swift and slippery 'Smelt Kings' is surely scheduled to slide some." Here's a little warning to the future adversaries of the Smelt Kings. In the winter, 'Smelts' don't bite, but to get them good and right,

Place a gallic broad and long before a "net" with meshes strong. So watch your "nets" every minute. Or there'll be some rubber in it. For the "Smelt Kings" know the way. How to get goals every day.

\$10800.00 GIVEN FREE.

The above amount has been given away by us in CASH PRIZES. \$500.00 more will be given away as follows: 1st prize \$100. 5th prize \$40. 2nd " 75. 6th " 30. 3rd " 50. 7th " 25. 4th " 30. 8th " 20.
