Britain's high society circles are intrigued by the financial aspects of faded romance between wealthy Mrs. Ruth Mary Clarisse Cunningham-Reid, and her husband, Capt. Alexander Cunningham-Reid. After suing for divorce and asking for an accounting of that part of her fortune entrusted to her husband, Mrs. Cunningham-Reid suddenly changed her mind, guaranteed him $25,000 a year annually for life. But she is still asking for the divorce. Sister of Lady Louis Mountbatten, Mrs. Cunningham-Reid married her father's one-time secretary against family opposition. They are pictured together in a recent photograph.

Care of Farm Woodlot Brings Good Results

Grazing by live stock and burning probably create more damage to the farm woodlot than any other agencies, and therefore, foresters recommend fencing off the woodlot from cattle and taking particular care to see that fire does not burn over the woods. By following certain simple rules farmers can get good results out of the care of the woodlot. These rules are: 1. Keep the live stock out of the woods; 2. confine annual cutting to a definite area of the lot; 3. exists; 6 cut inferior trees for wood; 4. favour the thriftiest best-formed crop trees; 5 remove some of the larger crop trees where crowding exists; 6 cut inferior trees for wood; and 7. protect the woods against fire.

The reason why live stock should be kept out of the woodlot is that their presence tends to have the litter trampled under the trees and packs the soil so that the water run-off and consequent erosion of soil are encouraged. Further the admission of live stock to the woodlot prevents the proper growth of the new crop of trees which comes up under normal conditions to replace the trees that are harvested. The actual growth of the standing trees also is reduced through the abnormal conditions thus set up. By keeping live stock out of the woodlot, normal conditions prevail and with proper thinning of the stands by culling the inferior trees, the timber crop will be improved.

It is estimated that farm woodlots, especially hardwoods, will produce at least 50 per cent more lumber if the lots are protected from fire and heavy pasturing avoided, the increase in production being realized by the greater number of standing trees and by the less defect in the lumber that is grown. Another essential in the production of full lumber crops is the employment of methods of cutting trees which favour continuous growth. Although farm woodlots do not require the same attention as orchards, at the same time, to obtain profitable returns, some attention must be given to the condition of growth.

Following good woodlot practices of cutting will not result in a change overnight but the property can be expected to develop gradually to the point of yielding highest returns. One advantage lumber has over some other farm crops is that it does not have to be sold immediately in order to keep it from spoiling or deteriorating. If the market for fuel, fence posts, and lumber, or pulp, is low, the trees can be allowed to grow and increase in value.

FASHION FLASHES

Again the coat dress pops up Easy to don, easy to wear it is a "natural" for both misses and women. This season they are important again in button-down-the-front treatments, in slide fastened fronts but those that look newest swing over to one side, in a revival of the old wrapover line. With lightweight woollens so important in spring collections, the coat-dress qualifies as one of the straight silhouette fashions.

FASHION FLASHES

Low-cut evening gowns topped by blouses for dinner wear, the latter copied from men's waistcoats in Van Dyck paintings are featured in a London collection. The same designer is showing three-piece sports suits consisting of jacket and skirt with alternative slacks, all men's worsted suitings.

Stocks Push Upward On N.Y. Market

(By Frederick Gardener, Associated Press Financial Writer)

NEW YORK, March, 13—(AP)—After a week of general droopiness, the stock market ended Saturday on a gentle recovery note.

War tension, as a result of the latest Austro-German developments which touched off a late slide in the list yesterday, appeared to have lessened considerably although buying forces were still timid, feeling "anything" could happen in the present European set-up.

The turnover amounted to 229,850 shares compared with last Saturday's volume of 222,000. Transfers for the week were about 1,000,000 shares ahead of the preceding week.

Canadian stocks were inactive and generally down, with McIntyre the only one to gain even fractionally. Distillers Seagrams, Dome, Brazilian, Canadian Industrial Alcohol and Ford were down slightly.

The Associated Press average of 60 stocks was up .1 of a point at 42.3, although showing a net decline from a week ago of 2.2 points, the most sizable setback for any similar period since the last part of January.

Gains running up to a point or so today were held by U. S. steel at 51 Bethlehem 54 5-8, General Motors 33 12, Chrysler 50 1-2 and Westinghouse 90.

GRAIN

WINNIPEG, March 13—(CP)—Despite European political difficulties and possibility of a rush for bread-stuffs Winnipeg wheat brokers appeared content Saturday to take profits out of recent price bulges.

Gains of almost two cents were lost with closing values 1-8-1-2 cent lower, May future 1.20, July 1.11 1-8-3-8 and Oct 92 5-8 cents.

Only a moderate demand was reported.

Failure of Chicago to follow Liverpool advances of 1 1-2-1 5-8d caused nervousness at Winnipeg. Buying ceased scattered selling followed.

Only a moderate demand was reported in cash wheats; sales were mostly at unchanged spreads. Coarse grains moved ahead with wheat early but closed irregular, oats 3-8-1-4 lower, barley 1-4 higher to unchanged; flax 3-8 higher to unchanged and rye 1-2-7-8 higher.

CHICAGO, March 13 —(AP)—The wheat pit hummed with traders' talk about the European political situation Saturday but it had no lasting bullish effect on prices.

Wheat quotations rose as much as 1 1-8 cent at the opening to a high of 89 5-8 for May delivery. Later, however, the advance was wiped out by scattered profit taking and commission house selling, inspired partly by a reaction at Winnipeg.

Wheat closed 1-4 lower to 1-4 higher compared with yesterday's finish, May 88 5-8-3-4. July 84 5-8-3-4. Sept 85-85 1-8; corn was 1-8 off to 1-4 up. May 59-59 1-8, July 60 7-8, Sept 62; oats 3-8 up, May 30 1-8; rye gained 3-4 to 1, May 69 3-4; lard unchanged to 7 higher.

Share Prices Recover Some Lost Ground

MONTREAL, March 13—(CP)—Share prices recovered some lost ground in the short Saturday session of the Montreal Stock Exchange. The troubled European situation failed to depress the market.

Metals moved up. Rails were quiet and steady. Canadian Pacific clung to the new alltime low of 6 established yesterday, but National Steel Car gained 1-2. Canadian Car common was unchanged, but the preferred slipped half a point. Papers were steady and unchanged. In the general list there were small gains for Dominion Steel and coal "B" Imperial oil and National Breweries.

Total sales: Industrials 8,700; Mines 74,500; bonds $1,250.

TORONTO, March 13 —(CP)—The cheaper gold issues recovered a portion of their Friday losses in the final session of the week as confidence revived a little. Base metals also improved slightly. Western oils finished on the down side.

About a half dozen of the medium-price were especially vigorous on the rebound. MacLeod-Cockshutt led with a rise of 35 cents to 3.35 on a turnover of 70,000 shares. Hard Rock advanced 24 to 1.94 and other issues up 10 to 20 cents on heavy volume were Oro Plata, O'Brien, Uchi, Pamour and Read-Authier.

The base metal market dragged but showed a firming tendency in the final stage. Ventures closed 25 higher and Waite-Amulet and Sherritt posted small gains. Falconbridge dropped 15 cents. Eldorado recovered 15 cents of its Friday loss and other silvers were quiet and steady.

Western oils lagged with losses showing. Royalite was off 1-4, Calgary-Edmonton 7, Okalta 3, and Model 6, Anglo-Canadian and Brown Corporation closed with moderate gains.
