VAST TRAINING SCHEME SET UP FOR JET PILOTS

Britain To Spend \$400 Million In Canada For Foods

Island Produce Still Moving To Newfoundland

Nfld. Longshoremen Refuse To Load Coastal Steamers

ST. JOHN'S, Nfld., Oct. 21.—(Reuters)—Newfoundland's 10-day-old rail strike has cut off food and other essential supplies from all parts of the island, and only small freighters are moving. It was reported here tonight that the Longshoremen's Union has refused to handle freight for the coastal steamers serving ports on the island.

Potato Movements To U. S. Normal

WASHINGTON, Oct. 21.—(AP)—G. R. Paterson, agricultural counselor of the Canadian Embassy, said today that Canadian shipment of potatoes to the United States is no more than normal. Paterson issued a statement because he said reports have circulated that Canadian potatoes are flooding the United States market. Actually, Paterson said, the bulk of Canadian potatoes reaching the United States are certified seed potatoes.

Coming Events

- Hope River bazaar and chicken supper, Oct. 26 and 27.
- Dance, Cole's Workshop, New London, tonight, door prize.
- Dance in Summerfield Hall, Friday, October 22nd. Good music.
- Dance, Flat River Hall, Oct. 22nd. Eldon Legion.
- Masquerade dance, Winsloe Station Hall, Tuesday, Oct. 26th. Eastern Rhythm Boys Orchestra.
- Dance in Blooming Point School, Friday night, October 22nd. Luncheon served.
- Now in stock, Fishmeal, Oil-cake, Bran and Shorts. Dillon & Spillet.
- Reserve October 29th for Masquerade Dance in St. Peter's Legion Hall. Good prizes and good music.
- Pantry Sale by North Milton W. I. at Rogers Hardware Saturday, 2:30 P. M.
- Reserve Wednesday, November 17th for Tryon Baptist Bazaar and Supper.
- Come to Emerald Hall, Friday night, October 22nd, for Bingo and Dance and other amusements. Good music and lunch.
- Unloading car of bananas, shorts and oil cake; also buying good use bags, paying top price. Beaton and McRae Shure Gain Feed Service, Winsloe, Phone 2214-3.
- Masquerade Dance, Vernon River Hall, Wednesday, October 27th. Millview Orchestra. Auspices C. W. L.
- Big Double Bill this week end at MacDonald Bros., Theatre, Laugh with Laurel and Hardy in "Chumps at Oxford" and thrill with Allan Todd in "Captain Boutwell". Two grand features.
- Superior quality barley meal, bagged wheat, bagged oats in straight or assorted carloads, also all grains in bulk. Telegraph or write for delivered prices. The Atlas Grain Company, Montreal, Que.
- Pictures at Morell every Tuesday, Friday and Saturday. Show 8:30 P. M. Coming Friday and Saturday, Peggy Cummins, Victor Mature, Ethel Barrymore, in "Moss Rose". This is a 20th Century Fox Picture. Don't miss it. It's good.

Plans For Year Ending Next June Revealed

By SYDNEY CAMPBELL
Reuters Financial Editor
LONDON, Oct. 21.—(Reuters)—During the year which ends next June, Britain will spend more than \$400,000,000 of her Marshall Plan funds to buy Canadian grain, meat, bacon, cheese, minerals and timber, it was announced tonight. Her aim will be to boost exports.

OTTAWA, Oct. 21.—(CP)—Plans of the United Kingdom to spend more than \$400,000,000 of her Marshall Plan funds for Canadian goods in the year ending next June were greeted cheerfully in Government quarters here tonight. "Actually, it's no more than she spent for Canadian goods last year," a source said, "but the Government is nevertheless satisfied."

Imports from the western hemisphere to 2½ times the pre-war level. Over all export volume is expected to be 137 per cent of pre-war. Imports from the western hemisphere dollar area will be held to \$1,642,000,000 compared with \$2,389,000,000 in 1947. Britain plans to export 19,000,000 tons of coal in the same 12 months about twice as much as in the preceding year. Textile exports will be expanded considerably. There will be no significant improvement in Britain's consumption of food and consumer goods. Tobacco consumption will be cut by five per cent.

These and other British plans for the year ending next June were revealed as the program the Government submitted to the recent Paris meeting of the Organization for European Economic Co-operation.

The program explains how Britain proposes, with the agreed amount of American aid under the European Recovery Program, ultimately to close her dollar gap completely.

Money Will Go Here is how Britain proposes to spend her E.R.P. dollars: Canadian bread grains, \$360,000,000.

Body Of Missing Hunters Not Found
By (The Canadian Press)
CAMPBELLTON, N.B., Oct. 21.—The bodies of two young Campbellton men believed to have been drowned after they left on a hunting trip last Friday remained unlocated tonight despite continued search. Their overturned canoe, with its outboard motor torn away, was found the next day at Battery Point, on the Quebec side of the Restigouche River. It is believed that the craft carrying Russell Cantin and William Flotte struck a rock.

ST. LAURENTS LUCKY
OTTAWA, Oct. 21.—(CP)—The St. Laurents must be lucky, that's all. They have found an apartment in the Capital. The Prime Minister-designate and his wife soon will move into a larger suite in the centre town Roxborough Apartments where they have been living.

U.S. Prepares To Add More Planes To Air Lift
WASHINGTON, Oct. 21.—(AP)—President Truman today authorized Gen. Lucius Clay, United States commander in Germany, to add up to 66 additional C-54 transport planes for service connected with the Berlin air lift. The transports will be provided by the Air Force as they are called for by Gen. Clay to keep blockaded Berlin supplied, a White House official said. The official said he understood that more than 200 of the large transports already are in the air-lift service, either in directly provisioning the Russian-blockaded city or in supporting assignments. Clay visited the White House this morning. Later in the day he attended a session of the National Security Council. The Council is made up of the secretaries of state, defence, army, navy and air, and other Government leaders. Earlier, Clay told reporters he had "no evidence" of troop activities in Eastern Germany that indicate Russian preparation for war. He also said: "The Russians have a 'Communist-indoctrinated police force' of 200,000 to 300,000 men in the eastern zone of Germany. Similar Allied forces are 'very small.'"

French Police Fly Reinforcements As Riots Spread

Nfld. Freight Piles Up At North Sydney

(By Robert C. Wilson)
PARIS, Oct. 21.—(AP)—Some French Cabinet Ministers were reported to be urging Premier Henri Queuille to declare martial law in the riot-torn coal fields where more than 170 police and soldiers were injured today in battles with strikers. Reports tonight said the Ministers felt the Premier should not only declare a state of siege in the coal fields but send more troops there and call up reserves. Police reinforcements were flown into Grand-Combe in Southern France where 6,000 miners, their wives and friends hurled scrap iron, sticks and stone and routed a smaller number of soldiers and militarized police today. A total of 150 soldiers and police were injured, 20 of them severely. (Reuters News Agency reported a security guard died from injuries during a skirmish at the Cambefort mine at St. Etienne, in South-Central France. Strikers had fought unsuccessfully to stop troops from taking over the mine.) In Bethune, Northern France, a mob of 5,000 strikers surrounded a prison and forced authorities to release seven arrested strikers and kidnaped the sub-prefect. Police using tear gas and an infantry battalion rescued him. Twenty policemen and 15 strikers were hurt. The sub-prefect was unhurt although he refused strikers' demands that he carry a red flag.

An official spokesman declined to give details about the number of police sent by air. The pro-Communist newspaper "Ce Soir" said that 500 had been sent to St. Etienne in 26 planes. While refusing to divulge how many police had been flown south, Interior Ministry officials, credited with saving some mines from flooding. In the troubled St. Etienne area, where there are 8,000 police and soldiers and 25,000 strikers, the police are holding 14 pits and protecting them from damage. As all this violence flared, the Communists ordered a vote among railroad workers for a 24-hour national strike. The halting will take about a week.

Ottawa Moves To Control Imports Of U. S. Steel
OTTAWA, Oct. 21.—(CP)—The Government moved today to control imports of American-made structural iron and steel by requiring that importers obtain a permit for all shipments coming across the line beginning next Monday.

The restriction stems from Canada's undertaking to reduce her imports of iron and steel from the United States and other countries. The announcement was made by acting Prime Minister Howe. Steel from other countries will not be affected.

Mr. Howe said arrangements are under way to issue permits for this year of specific tonnage of steel "where a manufacturer or importer has a standard pattern of importations."

Permits also will be issued for specific or spot shipments from the U. S. on an individual basis. Under the new restriction, import permits issued under the Emergency-Exchange Conservation Act will be honored.

Structural steel or iron in transit by Oct. 15 will not be affected by the order. Informed sources said the import restrictions are being invoked because Canada's consumption of structural material appears to be higher than its use of other categories of steel.

"If it looks as though other types are going to increase," said this source, "we can put them under control at a moment's notice."

Today's development follows an announcement by Mr. Howe Monday that Canada has agreed to make an 18-per-cent voluntary reduction in her imports of iron and steel from the U. S. This means that the Dominion will limit its imports to 200,000 tons during the last three months of this year.

To Expand Industry
At the same time, he said the Government is studying plans to expand Canada's steel industry.

Jewish Forces Continue Advance

TEL AVIV, Oct. 21.—(AP)—Jewish forces swept into BeerSheva, cradle of the modern Arab world, and occupied the town after a seven-hour battle today, a spokesman announced. While Israel awaited notice that Egypt will guarantee to quit fighting, the Egyptians' five-month-old invasion of Palestine appeared in danger of crumbling into isolated pockets of resistance against a determined Jewish offensive.

Police reinforcements were flown into Grand-Combe in Southern France where 6,000 miners, their wives and friends hurled scrap iron, sticks and stone and routed a smaller number of soldiers and militarized police today. A total of 150 soldiers and police were injured, 20 of them severely. (Reuters News Agency reported a security guard died from injuries during a skirmish at the Cambefort mine at St. Etienne, in South-Central France. Strikers had fought unsuccessfully to stop troops from taking over the mine.)

Farmers Living Index Advances

OTTAWA, Oct. 21.—(CP)—The farmers cost-of-living index advanced six points between April and August this year. The Bureau of Statistics reported today that increases in equipment and material prices, farm wage rates and farm family living costs boosted its composite index of commodities and services used by farmers to 189.2 for August, compared with 185.6 in August 1947. Excluding living costs, the composite index rose 6.1 points between April and August.

PARIS, Oct. 21.—(AP)—Russia's Andrei Vishinsky tonight was reported to have advanced some objections to the new plan of the six "neutral" Security Council members for settling the Berlin crisis. Informed quarters said, however, Vishinsky still is awaiting formal instructions from Moscow as to his final attitude on the compromise formula submitted to the four big powers last night. The Soviet Deputy Foreign Minister conferred for about an hour in the Soviet Embassy with Argentine delegate Juan Bramuglia, who is presiding over the Security Council's Berlin discussions.

CHILD KILLED
WOODSTOCK, N. B., Oct. 21.—(CP)—The first fatality caused by an automobile here in more than three years occurred today when three-year-old Clarence Kimball walked in front of a car driven by H. C. Hillman, Debec, N.B. The child had been following his father across a street. No inquest will be held.

OTTAWA, Oct. 21.—(CP)—Trade Minister Howe tonight sparked rumors bouncing around the country that automobile tire rationing is being considered by the Government. "There's no truth to that," he said in an interview. "Canada has plenty of rubber and plenty of automobile tires. We're not making plans for rationing."

OTTAWA, Oct. 21.—(CP)—The Central Vermont-Canadian National-Grand Trunk system has added 16 diesel locomotives since Jan. 1 and the Canadian Pacific now has enough diesel power on order to eliminate use of steam locomotives between Wells River, Vt., and Montreal, it was announced today.

PRESTWICK, Scotland, Oct. 21.—(CP)—Police said tonight a \$400,000 shipment of diamonds had been recovered from the wreckage of a Netherlands airliner which crashed in an early-morning fog killing 39 of the 40 persons aboard. The diamonds were in a tin can. Their ownership could not be traced immediately because of destruction of the burned plane's cargo records.

The New York-bound K.L.M. plane tore through a high-voltage power line while attempting a landing and crashed into a cow pasture. The four-engine plane, an American-made Lockheed Constellation, overshoot the runway on its radar-guided approach to Prestwick's big international airport shortly after midnight.

BEYROUT, Lebanon, Oct. 21.—(AP)—The countries ringing the eastern shores of the Mediterranean are preparing for the rainy season which precedes winter here. The Arab world has never faced an autumn or winter with such heavy rain. The general feeling of depression is caused by 400,000 Arab refugees wandering through Palestine, Lebanon, Trans-Jordan, Syria and Iraq. Sixty days after the countries of the world undertook to help them, the plight of the refugees is, if anything, worse than before.

Gifts arriving here from 17 donor countries have reached only a small percentage of the homeless, those who happen to be living within easy distance from the unloading wharves. Hundreds of thousands of others have seen no sign of the much-advertised aid. The promised transportation has not arrived to take away tons of dried milk, fish and other goods unloaded on Beyrouth's docks three weeks ago. If it is still here by the seashore it is colder in Amman, capital of

Toronto Police Probe Boy's Story Of Abuse
TORONTO, Oct. 21.—(CP)—Police said tonight they were satisfied that a 14-year-old boy who told them a harrowing story of beatings and starvation actually is Gordon Kelly. That was Deane name the emaciated boy gave last night when he begged for food. He said he had been kept locked in a closet by his uncle for a year and fed only bread and water.

The identification ended speculation the boy might be Richard Marlowe, who disappeared five years ago from his home in suburban Etobicoke. Tonight police were making a house-to-house search, trying to substantiate the lad's story. Police said some of the bruises on his back looked more like the result of pushing through bushes or under fences than the scars of beatings. He had told them he had been beaten nearly every day. T. H. Davis, to whose home the boy came for food, earlier said he was "willing to bet \$1,000" the boy was Richard Marlowe. Mr. and Mrs. Davis were pre-

Western Union Has Plans To Expand Set-up

(By The Associated Press)
LONDON, Oct. 21.—Authoritative sources said today Air Chief Marshal Sir James Robb has set up a vast training scheme to produce pilots for jet air fleets of the Western European Union. Sir James is air chief of the five Western Union powers—Britain, France, Belgium, Holland and Luxembourg. The informants said an undisclosed number of French pilots are undergoing intensive "conversion courses" in jet operations at several points in Britain. Netherlands and Belgian jet pilots, trained by British instructors, have established training squadrons in their own countries. The informants said the plan will "definitely" expand to keep pace with the steady flow of jet aircraft from British factories. The planes have been going to the Western European Union countries' air forces for some time. Bentwater, Suffolk, is the centre of the jet-training network. Air Marshal Sir William Elliott, chief of the R.A.F. Fighter Command, is in charge of the British phase of the program. Special long runways to accommodate the extremely high landing speeds of Vampire and Meteor jet planes have been made available at Belgium and Netherlands centres. An expansion of training facilities is well advanced. France will establish similar centres.

PARIS, Oct. 21.—(AP)—Russia's Andrei Vishinsky tonight was reported to have advanced some objections to the new plan of the six "neutral" Security Council members for settling the Berlin crisis. Informed quarters said, however, Vishinsky still is awaiting formal instructions from Moscow as to his final attitude on the compromise formula submitted to the four big powers last night.
