A Ticklish Proposition
 Our Coal is bound to tickle the whole family either directly or indirectly.
 Father is tickled by the nice even heat that fills the den.
 Mother py the quick, lasting heat that enables her to keep a good stock of goodies for the kiddies who are always tickled to get home to a pleasant fire and mother's BEST.

 ..*Mr. John Turner, Souris, is spending a few days at his home in Bridgetown.—*
 ..*Mr. A. B. Paquet, intrd officer of the D. G. S. Minto, arrived home from Halifax on a few days leave. Mr. Paquet was one of the officers who was in the ship on the voyage to Port Nelson and Churchill and has many stories of that little known country.—*

Minard's Liniment Co., Limited.
 Gentlemen.—Last Winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of inflammation.
 Yours,
W. A. HUTCHESON.

THREATENED WITH PRISON IF HE WENT BACK TO GERMANY.
 HARTFORD, Conn., Sept. 16.—Though United States Dist. Atty Thomas J. Spellane declined tonight to make any statement, it was learned through reliable sources that Federal agents of the Bureau of Investigation are here sifting the story of a young German machinist who says he was persistently forced to give up his jobs in munition-making plants by agents of the German government.
 The machinist, who is about twenty-six years of age, came to work in a big Hartford machine and tool plant four weeks ago, giving the name of F. W. Miller. He had previously worked for Brown & Sharpe of Providence. When he signed his time card for the payroll he used an unmistakably German name, which he admitted to the shop superintendent was correct.
 When the war started he was ordered home, but because his brothers were in the army he refused to go and stayed here to support his aged mother.
 He was warned then that a long term in prison in Germany would be his fate if he did any munitions work, and later returned to Germany. Recently he was warned by a German to leave the Province, and, though he worked in Pratt & Whitney's machine works in Hartford under an assumed name for several weeks, he was discovered and again compelled by a German agent to quit.
 He says the German government knows where every Teuton in this country is employed, and has warned every one who is working on war munitions that five years' imprisonment will be the sentence if they return to the Fatherland. He says his uncle is the proprietor of a New York hotel and one of the best-known German-Americans in the country.

THE MARKETS
SIDE MARKETS
 Wheat, bus. \$1.00 to 1.25
 Wool, lb. 25 to 40
 Eggs, doz. 10.00 to 13.50
 Hay, pressed, .14
 Hides, lb. .35
 Oatmeal, per 100 .63
 Oats, (white) bus. .65 to .90
 Barley, bus. 21 to 22
 Buckwheat .23
 Butter, lb. (creamery) .28
 Butter lb. (dairy) .28
 Oats (black) bus. .63
WHEAT: The Canadian Countryman of September 11th, in discussing the markets states that there has already been a drop of 11c. in the price of wheat. Manitoba wheat is worth \$1.14 to \$1.16 for delivery on track at Lake Ports. Ontario new wheat is worth 94c. to 98c., and there is a considerable quantity damaged by wet weather, while smutty wheat commands 75 to 85c. per bushel. Flour has declined 75c. per barrel and Manitoba First patents are quoted at \$6.25 and second at \$5.75. Business is dull even at these figures. The decline in the price of wheat has not yet affected the price of bran and mill feeds. The demand for these is still strong and they are scarce and likely to be so. The Gazette of Montreal of Sept. 13th states that the feature of the week was a decline of \$1.00 per ton in the price of bran which is now bringing \$25.00 a ton and shorts \$27.00 a ton including bags. The trade is dull as buyers are not yet disposed to purchase freely at present prices.
OATS: There is still some supplies of old stock on the market. At Toronto old oats are quoted at 50c. very little of highest quality being of 42c. In Winnipeg the market is quiet. Supplies of oats are plentiful. No. 2 Canada Western are bringing only 30c. In Montreal there is still a continued weakness in the oat market and a further decline of 3c. was registered during the past week. Ontario oats sold at 43c. a bushel, a few cars changed hands.
HAY: There is no change in the hay situation in Toronto. The best is bringing \$20.00 a ton and there is a little of highest quality being offered. In Quebec sales are reported of car-load lots at from \$18.00 to \$18.50. Receipts are heavy and trade is being well supplied.
BUTTER: There is a firm feeling still liberal and the quality is good. There is a little bit of export trade at the present time, some going to Australia and some to Great Britain. At Montreal the butter market is strong and it would be stronger still if there were better transportation facilities. The Canadian Farm says the demand is so well assured and the price is so satisfactory that farmers should strive to produce all that is possible by feeding their milk cattle well. At local points in Ontario the markets ranged on Saturday from 24c. to 25c. per lb. At Montreal creamery prints 28c. at St. John, 30c. per lb.
CHEESE: Montreal reports a firm tone in the cheese situation with a fair cable demand which makes quotations 13c. to 13 1/2c. for finest colored possible. Latest reports from England state that she will be dependent upon Canada for a larger proportion of cheese than in 1914 and 1915. The ocean freight rate is 84s per ton against 25s per ton last year. Sales on local Cheese Boards in Ontario on Sept. 2nd were made at from 13 1/2c. to 13.9-16c. per lb.
LIVE STOCK: The receipts of live stock this week have been unusually heavy and the demand unusually light. The result has been a decline in the price. For good heavy, well finished, butcher cows \$7.00 per hundred lbs. is being paid. The hog market is firm and the supply is not in excess of requirements. The demand for dressed hogs is good and sales of abattoir-killed in a wholesale jobbing way were made at \$14.00 per hundred lbs. Hogs watered off the cars at Toronto from \$9.40 to \$9.65 per hundred lbs. and practically the same price at Montreal. Heavy receipts of lambs at Toronto have lowered the prices. The very best are now bring-

ing \$8.50 per hundred lbs., while coarser and inferior kinds are running down to \$7.00.
NOVA SCOTIA'S 25TH IS NOW AT FRONT

HALIFAX, Sept. 16.—Word was received in Halifax yesterday that the Twenty-Fifth Nova Scotia Battalion had landed in France and that they soon would be, if they are not now, in the trenches.
 The departure of the 25th Battalion from Halifax some four months ago on the steamer Saxonia, will be remembered with vivid recollection. The people of this city gave gallant Lieut.-Colonel LeCain, his officers and men a great send-off, and as the transport passed down the harbor in the evening there were thousands of wishes of good luck and many prayers that duty done and victory won, they might some day return to their native shores. The transport carried also the 26th New Brunswick Battalion.
 The Saxonia took the two battalions across the Atlantic in less than ten days and it was a joyful Saturday evening when the news was published that the troopship was safe in port and the soldiers on their way to Shorncliffe camp.

KING EDWARD FORSAW IT ALL

PARIS, Sept. 15.—The Stampa, of Turin to the west, an interesting account of a conversation which the lady president of the Polish Red Cross Society had with the Empress-Dowager of Russia. The Empress said:
 "Oh, how I hate those Germans. I am a Dane and from the day they took Schleswig-Holstein I have hated them, and for fifty years I had to wear a mask at court."
 "Russia has been too confident in all those Prussian emigrants to whom the Empire has accorded favors and high positions. A German even though every kindness be shown him, remains always a German. I often said to my dear Czar Alexander was alive, but he would not believe me. One man only foresaw this terrible Germanic aggression. It was the late King Edward VII, who was a great monarch."
 "Do you know that when I was taken by surprise by the outbreak of the war as I was crossing Germany, the Berlin people made special hostile manifestations when my train passed by calling out: 'Russian pigs! They are British people!'
 Here are the impressions of the lady about the Czar's mother. The Empress's look is far-away, profound, sad and mystical. It is some time before she speaks. She expresses herself in French with a strong English accent. She says: "You come from Warsaw. Warsaw, which is now German. Mon dieu! What a war! What a deluge of blood!"
 "That is all, the audience is finished. The lady in-waiting gives me the sign. As I leave I notice that the eyes of the Czarina are full of tears."
SMALL ADVANCE IN PRICE OF LIVING FOR MONTH OF AUGUST
 OTTAWA, Sept. 14.—The report of the Labor Department on wholesale prices during August shows the cost of living to have made a further, though very slight advance. The index number is now 147.6 as compared with 136.3 in August last year.
 The chief reason for the slight rise last month is the higher price for certain groceries, such as honey, glucose and cream of tartar. Textiles are higher, especially woollens and Jute. Oilcloth is also up. Flax sewing twine made in Canada is high in price owing to the increase in the price of flax. Drugs and chemicals also showed an advance. The chief fall in prices occurred in grain with a consequent slight average fall in the retail price of flour and bread. Animals such as cattle and sheep as well as eggs also display a decrease. Fruit and vegetables, tin, copper and a few other minor articles show slight declines.

BETTING IN LONDON STOCK EXCHANGE DARDANELLES FORCED BEFORE NOVEMBER.
 LONDON, Sept. 16.—(Gazette Cable)—It is notorious that the stock exchange is often better informed of political events than parliamentary circles, so it is interesting to note that on 'Change bets are being freely offered that the Gallipoli peninsula will be freed of Turks and the way to Constantinople opened before the end of October.

ALLAN LINER PRETORIAN WAS IN COLLISION.
 QUEBEC, Sept. 16.—The Allan liner R. M. S. Pretorian, which was damaged slightly in a collision with the steamship Kansas of the Saguenay river this morning, passed Crane Island shortly before ten o'clock tonight and is due in port early tomorrow morning. Officials of the Allan Line here state that as far as they know the Pretorian was only slightly damaged, and is making a

SEVERE RHEUMATIC PAINS DISAPPEAR
 Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.
