Wind in the Stomach

Indicates poor digestion, and the digestive organs require toning up by BURDOCK BLOOD BITTERS. The wind is caused by the fermentation of gas from imperfectly digested food or a faulty condition of the digestive organs, which, if neglected, must lead to stomach and blood troubles, such as indigestion, jaundice, biliousness, or bad blood. All these are common complaints which B.B.B. cures in any stage of the disease.

We now give you testimony from those who have used B.B.B.:

January 28, 1900.

"With gratitude I can testify to the wonderful curative powers of BURDOCK BLOOD BITTERS. Last summer I was troubled with indigestion so badly that whatever I ate caused me torture. Eating became a dread to me. I tried Doctors' medicine, but got no relief; then a friend recommended B.B.B. I got a bottle and after taking a few doses began to feel better. By the time I had taken two bottles I was as well as ever and have had no trouble in that way since."

MRS. MINNIE CADE, Arden, Ont.

April 5, 1900.

HANNAH MULLINS, Highland Grove, Ont., writes: "BURDOCK BLOOD BITTERS has done me more good than anything I have ever taken for my stomach. I could not eat, had pain in side and back and felt very miserable. I was run down to a shadow, but one bottle of B.B.B. made me feel perfectly well, and have not been troubled since."

FOR BETTER ROADS.

The movement for better roads is being energetically pushed in the United States. The National Good Roads Association is being co-operated with by the railways. The farmers want better roads in order to facilitate the hauling of their products to the railway stations and the city markets. The railway people know that the wagon roads are the all-important and necessary feeders to the steel roads.

Just now the Illinois Central Railway together with the National Good Roads Association have entered upon a plan to be put in operation next month by which sections of good roads at various focal points between Chicago and New Orleans will be constructed as object lessons. The railway will convey free all the necessary plant to the various points where operations will be carried on. The companies which sell road-making machines will supply the necessary machinery and expert operators. Each community will be expected to supply other labor, teams and materials required.

Then the operations will be begun. According as the experts find the material at the place of operation to be best adapted they will proceed to construct a model dirt road, to cost $500 per mile, or a gravel road costing $1500 per mile, of a macadamized road costing $3,000 per mile. At each place of operations a convention of legislators, farmers and others will be held at which good roads and how to make them will be discussed, and this with the expert work done will afford the best possible education in road making. The section of road constructed will also remain as a perpetual evidence of the value of a good, permaneut wagon way.

The Chicago Tribune tells that the movement creates great interest and that other railways will follow the example set by the Illinois Central.

It appears that Mr. Carnegie's promise of $100,000 for a library for Ottawa City was obtained on the official application of the Mayor. There may be a valuable hint in the methods disclosed which proved so successful in the case of Ottawa..

Principal Hadley of Yale University, speaking a few nights ago before what is said to be the richest church society in New England, said:

"We shall have an emperor in Washington within 25 years, unless we can create a public sentiment which, regardless of legislation, will regulate the trusts."

This is no doubt the form in which "imperialism" really threatens the Republic far more seriously than in the acquisition of territories beyond the seas. The nation readily takes up an idol, too, if only to quickly discredit him, as in the case of Dewey. Some day a popular idol, with the brain and will of a Napoleon, and backed by the trusts might become what he would in the United States.

Mr. R. E. Mutch, the popular representative of the McCormac Manufacturing Company returned to the city yesterday, having been on a business trip to the eastern part of the Province.

Mr. Nelson Doull, employed for the last fifteen months with Mark Wright & Co. left last night for Los Angeles, California, where he takes a position with the Murray M. Harris, Pipe Organ Co.

THE outward cargo by the Stanley yesterday included the following:—15 bags mail, 130 dressed hogs, 95 pkgs beef and mutton, 23 cases eggs, 35 bbls of meats. 4 bbls oysters, 34 cs. cow's milk, 2.000 bush. oats, 240 pkgs. hides, 20 bbls. hide and a quantity of sundries.

PERSONAL MENTION

Mr. J. H. Hunter, Alberton, is in the City.

Mrs. Benj. Davies, was a passenger by the outbound special to Georgetown last night.

Rev. W. H. Smith, left Wednesday for New Glasgow, N. S. to visit his father who is in very low health.

Dr. Dickey left last night for New York, and will be absent a month during which time he will devote his attention to specialties at New York Hospitals Mrs. Dickey will remain in Halifax with her father Dr. Trenaman.

Mr. D. E. Brown, representing Dearborn & Co. St. John N. B., crosses to Pictou today on his way to Sydney, before returning home. Mr. Brown reports business good and is well satisfied with the result of his four weeks trip through the Province.

THE mail special which connected with the Minto reached the city at 12.20 yesterday.

YESTERDAY a copy of the will of the estate of the late Capt. Alyward of Southport was filed. The estate of the deceased was valued at $30.000. A portion of the bequest is for charitable purposes; the remainder is divided among the children and grand children.

No Trifling With the Nerves.

When you can't sleep at nights and toss in misery longing for daybreak to come, do not yield to the temptation to use morphine, cocaine or other opiates. They only hasten decay.

Let reason rule. Get right down to the foundation of the trouble and build up the system by using Dr. Chase's Nerve Food.

This great restorative is in pill form and contains the very elements of nature, which go to form new red corpuscles in the blood and create new nerve cells.

It is worth while to remember that Dr. Chase's Nerve Food is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author of the famous receipt book.

Dr. Chase's Nerve Food is an up-to-date, scientific preparation which has proven itself to be specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wasted nerves. It is especially recommended for ills peculiar to women, because they almost invariably arise from exhausted nerves. Dr. Chase's Nerve Food, 50 cents a box at all dealers, or by mail.
