## Hotel Improvements

The Victoria Hotel known throughout the Maritime Provinces and Eastern Canada as a hostelry with accommodations second to none is being all dressed up these days. The exterior of this large building is being painted and is already beginning to take on a very striking and attractive appearance. The dining room of the Victoria which in the past has made thousands of friends not only by its catering but beauty as well, has been further remodeled, the impression on all who enter. The lighting system has been changed somewhat, beautiful brass fixtures taking the place of those previously used. A new hardwood floor has been laid, also new windows put in and trimmed with gorgeous gold hangings. A raised concrete cut in the north wall for the use of the orchestra is also another acquisition of the many and suitable changes inaugurated. Owing to the heavy demand for seating accommodation the management has begun work on an extension to the dining room which when completed will seat fifty or sixty additional guests.

Mr. Harry Brown, general manager of the hotel informed the writer that this year he expects the biggest business in the history of the Victoria. Harry as he is familiarly known to numerous friends both here and abroad is to be congratulated and highly commended on his modern and progressive methods in dealing with the travelling public.

## Baseball

The eighth game of the City League Baseball Schedule will be played this evening at the Abesweil grounds at 6 o'clock between the Anchors and Rovers. The Anchors are anxious to meet the Rovers for the chance of wiping out their last defeat and are right on edge to give them all to walk off with the game. The Rovers are of the opinion that what they done before they can do again and this time more decisively than last so that with both teams taking the diamond with the above determination there is sure to be some ball played. Baseball is improving with every game and the fans are getting something in baseball this season that was never thought of a few years ago. The fans appreciate this fact and are showing this by the big attendance at every game, and so if the game is improving so the attendance and everybody will come and go happy.

## Answers to Questions Which People are Asking

The following are the Answers to Questions which people are asking which have been prepared for distribution by the ladies' organization of Charlottetown and which were broadcast over the radio by Mrs. H. H. Horne last Friday evening:

Why Do Away With The Present Prohibition Act At All?

Because while we know that Prohibition has brought about many good changes, we know that many evils have arisen and have continuously increased under it; such as bootlegging, disrespect for law, and the drinking of poisonous substitutes for liquor.

In What Way Will The New Policy Of Premier Stewart's Be Better?

It will retain the benefits that have come from Prohibition and do away to a great extent with the evils which have arisen under it.

How Will It Do Away With The Bootlegger?

People who now purchase liquor illegally will buy it from the Government Vendor. If the average citizen who desires a bottle of liquor can purchase it legally from a Government store, he will not resort to the dealer and hypocrisy necessary to get it on a doctor's scrip, or break the law by getting it from a bootlegger.

How Can The New Policy Be Enforced More Easily Than Prohibition?

Because public sentiment will be behind it. When a man can buy a bottle legally there will be no sympathy for the MAN who buys illegally.

Conditions Under Government Control Worse In British Columbia and Quebec?

Even if that be so, that has nothing to do with our case. Premier Stewart's new policy is entirely different from the law in those provinces.

In What Way Different?

1. They have no Government Control but rather Government Sale for revenue; particularly revenue from United States visitors.
2. Quebec allows sale of beer and wine indiscriminately with sale by glass as well as bottle in eating houses everywhere, which simply means public drinking.
3. Also sale of hard liquors without any permit whatever.

What Is Premier Stewart's Policy In This Respect?

1. Strict control by a Commission appointed by the Government.
2. No drinking in public places.
3. No sale of beer or wine by the glass.
4. Strict records to be kept of the amounts purchased by each individual by means of the permit system.

How Much Liquor Can Be Purchased On A Permit?

That will be in the hands of the Commission to decide. Records will be kept of every individual's purchase and if the privilege is abused that person's permit will be cancelled.

How Will This Law Affect Our Young People?

No one under 21 years old will be allowed to have a permit, whereas the bootlegger now sells and solicits to the young men and boys and girls in their teens.

Prohibition Speakers Say Western Provinces Desire to Return to Prohibition?

In the Provincial election in the Province of Alberta two years ago, after two years operation of Government Control no mention was made by any political party of a return to Prohibition. In Manitoba an election will take place next month. Not one of the parties there is appealing to the people in that province desire to return to Prohibition why does not one of the parties make it a plank in their platform in order to ensure their election if for no other reason?

Premier Stewart's proposals offer a reasonably certain prospect of improving the conditions in respect to Temperance which we have in Prince Edward Island.

A continuance of Prohibition offers no prospect of improving the conditions in respect to Temperance, but a certain prospect for further and continually growing increase of the evils which have been developed under prohibition.

## GRAND LODGE OF A. F. AND A. M AT KENSINGTON

Glorious Weather Accompanied A Large Number Of Delegates To The Fifty-Second Annual Communication.

The Fifty-second Annual Communication of the Grand Lodge of Prince Edward Island, A. F. & A. M., commenced at 10 o'clock on Wednesday morning in the Masonic Temple, Kensington.

Most Worshipful Grand Master John M. Nicholson occupied the chair, and after the usual opening, and prayer by the Grand Chaplain, Rev. W. Bruce Muir, the following order of business was proceeded with:—

The Grand Lodge was then called to refreshment, and adjourned to the hall below the lodge room. After a sumptuous repast prepared by the Rebekahs of Kensington, the brethren formed in grand procession and proceeded to St. Mark's Anglican Church, where a most eloquent sermon was preached by Brother the Rt. Rev. John Hackett, D. D., Bishop Coadjutor of Nova Scotia, taking as his text: "Study to show yourselves approved unto God a workman that needeth not to be ashamed." That the sermon was highly appreciated by the grand body was later in the evening expressed by the hearty vote of

thanks tendered to the reverend brother by Past Grand Master MacKay. At the conclusion of the church service the brethren returned to the Masonic Temple, where the first order of business—Votes of Thanks—was disposed of, after which the election of officers for the ensuing year took place as follows:—

The fifty-third annual communication of Grand Lodge will be held next year at Port Hill. ALL STARS TAKE CHAMPIONSHIP GAME BY SCORE OF 6-2. Last evening at the Victoria Park a very interesting game was played between the "All-Stars" and "Giants" the "All-Stars" winning out by a close score of 6 to 2. The All-Stars have a snappy little team under Capt. Jack McCoubert and "Mgt."

It was one of the best games played out of the three.

Many of the older people who have been attending service at the "Old Church" all their lives pronounced it one of the finest sermons they had ever heard. Mr. George Bowness of Summerside sang two splendid solos, which added very much to the beauty of the service. Mr. Fleck will preach again at the evening service in this church on June 26th.

## Fine Family for the West

George Sutherland, of Somersetshire, England, his wife and fourteen children eight boys and six girls, are now at Ashmont, north of Edmonton, Alberta where he has taken up land and where he will not be troubled by lack of help-seeding, plowing and harvest times. This is the type of family which the Canadian Pacific Railway is making every effort to obtain for the West and with such as the going forward, great strides in the colonization of that country are being made. "Zomerzet" is one of the major agricultural counties of England and if this family can succeed in introducing to Alberta the delicious cream junkets for which the county is famous, they will be popular enough to run for the provincial assembly within a few years. In the meantime and by the very facts of their case, the success as farmers seems to be assured in advance.
