What and Where is it?

Indicate which scene you think the photograph shows, by placing its number in the square to the right.

SAVE YOUR LIST OF POSSIBLE ANSWERS. THE CORRECT SOLUTION TO THE ABOVE IS SOMEWHERE IN THE LIST PUBLISHED UNDER PUZZLE PHOTOGRAPHS APPEARING UP TO AND INCLUDING TO-DAY'S.

Bills Affecting Veterans Pass Second Reading

(C.P. By Guardian's Special Wire) OTTAWA, April 1—Speedy action was taken in the House of Commons today on three bills affecting war veterans. They received second reading without debate and, on motion of Hon. C. G. Power, Minister of Pensions and Health, were referred to the special committee on pensions and soldiers problems. The bills are: an act to amend the Pension Act, merging the Canadian Pension Commission with the pensions appeal court and limiting the time for applications for pensions; an act to amend the War Veterans Act to reduce the age at which allowances may be paid to "burnt out veterans" from 60 to 55 years; an act to assist towards the employment of former members of the forces which will set up a commission in accordance with the report of the Hyndman Commission.

MANUFACTURE OF ROCK WOOL IS NEW CANADIAN INDUSTRY

TRONTO, April 2—Among outstanding developments in the Canadian mining industry of recent months is the production of a new material called "rock wool," an extremely effective insulating agency. Two plants now are in operation in Ontario turning out rock wool—one of them producing a long fibred wool having a density of three to four pounds a cubic foot, and the other a short-fibred material with a density of eight to ten pounds a cubic foot. The establishment of the rock wool industry followed successful experiments by the Dominion Department of Mines which showed that large deposits of a special type of limestone existing in the Niagara district of Ontario were capable of being used in its production.

Most of the product is being used by the construction trades for purposes of insulating against heat and cold, and it is claimed there is a market for it of almost unlimited possibilities. It has merit also, it is said in the sound-proofing of buildings and for the acoustical treatment of offices, theatres, auditoria and radio studios.

EXPEDITION WILL OBSERVE INSECTS

(By The Canadian Press) PORT MORESBY, New Guinea, April 1—A scientific expedition, sponsored by the American Museum of Natural History, New York, will arrive here shortly to study insect life on the island. The expedition is headed by Dr. Richard Archbold, airman-scientist. Three airplane mechanics and an amphibian plane will be included in the expedition. Base will be established at Daru, on the Fly River, and researches will be made towards the river's sources. The plane will carry ten passengers at a cruising speed of 158 miles an hour. Sufficient gasoline for 1,000 mi. flights will be stored.

Short Story Winner of I.O.D.E. Competition

TORONTO, April 2—(C.P.)—Miss Emily Leavens of Vidder Crossing, B.C., was announced tonight as winner of the Dominion-wide short-story competition sponsored by the National Educational Committee, Imperial Order Daughters of the Empire. Her story entitled "Remembering," won \$50 as the best of more than 200 entries. Miss Marjorie J. Thompson of Rexton, N.S., received first honorable mention. Honorable mention was also given to Miss F. M. Jordan, Brantford; Miss E. M. Ferguson, Dauphin, Man.; Mrs. L. S. McFarland, Salmon Arm, B.C.; Miss L. M. King, Montreal; Miss M. M. Fisher, Halifax; Helen H. Craik, Regina, Sask.; Ruth Isabel Wood, Westmount, Que., and Mary Overton, Calgary.

IN MEMORIAM

MRS. LUCETTA McDONALD

Deep sadness fell over the community of Little Pond and vicinity, when death entered their midst and suddenly called to its eternal reward the soul of Mrs. Lucetta McDonald, widow of the late John George McDonald, on Friday morning, Jan. 31. The deceased who was born at Southampton, forty-three years ago, the daughter of the late Clement Steele, had been a very strong and healthy woman until towards the middle of December, when she was stricken with pleurisy, and although uneasy, her friends entertained the brightest hopes for her recovery. She was tenderly cared for by her devoted family and friends, fortified by the last sacraments and without a moment's warning, on the above mentioned date her spirit winged its flight to Him who gave it.

Lucetta as she was familiarly known will be greatly missed by all. She was one of those wonderful women who always seemed equal to every emergency, always willing to save others in time of need and had the honor and confidence of all those with whom she came in contact. She was an ideal christian wife and mother in every sense. Her strict observance of the rules of her faith and her devotion to her family left an example worthy of imitation.

By the death of her beloved husband six years ago she was left a widow with ten small children, a few months later God called one of her little ones to heaven. Although her cross was heavy she never complained. Her cheerful disposition and bright smile that never faded in life, brought sunshine to the hearts of many, and because of that and her many good deeds, her memory will shine as a beacon light to illuminate the pathway of those she left behind. In the various local societies of which she was a member she will be sadly missed. As President of the Altar Society for three years she was most faithful to her duty and took the greatest care to have the House of God neat and spotless for the offering of the Divine Sacrifice. As President of the Howe Bay and Eglington Women's Institute she was always on duty, interested in the welfare of her district, and her advice, co-operation and cheerfulness will be greatly missed by all the members of this society. Her funeral took place February 2nd to St. Francis de Sales Church, and despite the bad roads and inclement weather it was largely attended. After Requiem Mass, celebrated by the Pastor, Rev. L. P. Callagan, D.D., her mortal remains were laid in the adjoining cemetery in the shadow of the little church she attended so faithfully and so well. She leaves to mourn their loss nine children, Raymond, Fidelus D., Clement, Alex, Daniel, George and Mary at home; Clara, Mrs. John W. McDonald, Red House; Laura, student at Prince of Wales College; also her mother-in-law, Mrs. Fidelus McDonald, her mother, Mrs. Clement Steele, and two brothers, James, Winnipeg, and Francis, Southampton, and two sisters, Rev. Sr. St. Dunstan, grey nun, Quebec, and Mrs. M. Bradley, New York. The pall-bearers were Messrs. Joseph Campbell, Edward McDonald, Reid Underhay, Lorne Keefe, J. D. Steele, W. B. Mills. One mark of esteem in which the deceased was held and the deep sympathy shown towards her or-

Core Feet
CHAFED PLACES, BLISTERS
Why suffer with sore, itching feet when you can have perfect foot comfort by bathing the feet every night in warm water, then rub healing, soothing Zam-Buk Ointment on the ankles, soles and between the toes?

Three British Golfers Tied In Tourney

(C. P. by Guardian's Special Wire) BRAMSHOT, Hampshire, April 1—Three British golfers were tied for the lead in the Daily Mail's £2,000 tournament at the end of the second round today. Percy Alliss of Beaconsfield carded a 71 and a 70 for a 36-hole total of 141. Reg. Whitcomb of Parkstone and James Adams of Romford with 69 and 72 each were tied with Alliss. Willie Lamb, Toronto pro, added a 75 to his 77 yesterday. His total of 152 him in 41st place. Behind the leading trio came Jack Busson, member of the British Ryder Cup team, with 70-72-143, Bert Gadd of West Chesley with 69-74-143 and C. S. Denny of Thorpe Hall with 74-69-143.

TURTLES CLEAN SEWERS

OAKLAND, Calif., April 2—Ask Jack Dempsey Washington Tyler, Negro, his occupation and he'll say "scientific sewer cleaner and turtle trainer." The two go hand in hand. Jack trains the turtles and they clean the sewers. Tyler fastens a small blade, resembling that of a snow plough in miniature, to a turtle and starts him through a clogged drain. A pinch of powdered flies waits the turtle at a manhole or other opening, and Tyler says there's little that will stop them. Sometimes, the trainer explains, they show up a bit the worse for encountering a sewer rat. But, being the snapping type, they usually go through. If two or three are long "overdue," a little one named "Nellie" gets the call. "Nellie" never has failed to come through, pushing or dragging her charges.

DROP FISH FRY FROM PLANES TO RE-STOCK CANADIAN LAKES

MONTREAL, April 2—Reports to the Province of Quebec Pisciculture Service show that a method has been developed whereby fry are dropped from the air into lakes where hydroplanes are unable to land. Several experiments conducted under various conditions and at various altitudes have shown the process to be practical and harmless to the tiny fish, it has been announced. Recognizing the importance of sport fishing in the attraction of tourists the Pisciculture Service systematically is re-stocking Quebec lakes and rivers where fishing has been depleted. Hydroplanes are used commonly for the transport of fry, and it has been found that the use of oxygen makes it possible to reduce the amount of water and carry in each trip six times as many fry as could be taken under ordinary circumstances.

SYDNEY HARBOR THRIVES

SYDNEY, N. S. W. — Sydney's world-famous harbor, the busiest more shipping last year than at any time in its history. Official figures disclose last year's tonnage totalled 17,536,164, comprising 6,855 ships. The previous record of 1927 was exceeded by more than 1,000,000 tons. The harbor is now claimed to be the busiest in the southern hemisphere. phaned family were the numerous mass cards and letters, spiritual and floral offerings received by them since her death. Rest on, dear Lucetta, though our hearts are sad, we have the comforting assurance that you are safe and happy in that bright home prepared for you by our Heavenly Father. His will, not ours, be done. R.I.P.

MONGREL DOG SPENDS HIS YEARS IN SERVICE OF CANADIAN PORT

SAINT JOHN, N.B., April 2—It is fourteen years since a taffy-colored mongrel pup began to frequent the freight sheds on the Saint John waterfront and made the acquaintance of the harbor police. They called him "The Bum," at first in derision. But presently it was with respect and affection, because "The Bum" quickly decided he liked the police life, and voluntarily he took the warehouses under his protection. He has been on the job ever since, and while old age is slowing his gait, and he spends more time lying in the sunshine than he did years ago, he still is faithful and diligent. Bum patrols the yard about his warehouse by night, and by day watches closely those who go in and out. If goods are being removed he looks to see that a constable in uniform is in sight, and if so all is well. Lately the constables acquired a cat they call Minnie. Bum promptly took Minnie under his wing, protects her from strange dogs, and they eat and sleep together.

West Indies' Governors Retire

PORT OF SPAIN, Trinidad, April 1—Sir A. Claud Hollis, Governor of Trinidad for six years, sailed today for England with Lady Hollis to go into retirement. He sailed the same day as Sir Thomas A. Cubitt, Governor of Bermuda, left Hamilton for home. Sir Claud will be succeeded by Sir Murchison Fletcher, due to arrive here in September, and Sir Thomas in Bermuda by Lt. General Sir Richard Hildyard who will take over his new duties in May. The Bermuda Governor, like Sir Claud, will also go into retirement soon after he returns to England. The colonial secretaries in the two colonies will act as governors pending arrival of the new appointees.

Hitch-Hiked From Boston to St. John

SAINT JOHN, N.B., April 2—(C. P.)—Three young girls, one of them not yet in her teens, who said they had hitch-hiked from Boston, were being cared for here tonight while authorities investigated their story. The three who gave their names and ages as Frances George, 17, her sister, Betty, 12, and Florence Pitt, 17, all of Boston, applied for shelter at police headquarters tonight. The George girls told police they were bound for Halifax where their mother resides and had taken the Pitt girl along "for company." They had nothing with them except the clothing they wore, they said. The mother of the sisters had said she would send transportation to Halifax, police said.

Coins New Word In Attacking Legislation

(C. P. By Guardian's Special Wire) OTTAWA, April 1. — Thomas L. Church, Conservative member for Toronto-Broadview, coined a new word today when he led an attack on the government bill to establish a national employment commission. Canada, he said, was being "statistified to death." There was a bureau of statistics, a department of labor and other agencies which could gather all facts and figures relating to unemployment without appointing another useless commission. Mr. Church suggested the government would be doing the country more of a service by going after employers of labor, department stores for instance, who mistreated employees. He said it was shown recently by one department store it could "snap its fingers" at Parliament, and it was shown in the House only a month ago a department store could intimidate the press. He mentioned no names. The Dominion, Mr. Church said, should assume all administrative costs for relief. The municipalities had been carrying this burden altogether too long.

WOULD IMPERSONATE BERNARD SHAW

KANSAS CITY, April 2—(C.P.)—It sounds like April fool, but Al Jolson says he really would like to play the role of George Bernard Shaw, whisks and all. "Audiences are getting tired of seeing me blackened," he said last night as he passed here on the way to New York. "Whisks are just as funny as a black face and I'm changing."

Always inspect gas jets, water taps and electric stoves before going out.
