

70—BUT TAKEN FOR 45

Army Officer's Secret of Perpetual Youth

TAKEN KRUSCHEN FOR 20 YEARS

"Seventy be figured, sir! I pass anywhere for 45, and huh!—I feel sixteen!" That's the spirit of this Army Officer's letter all right, as you'll agree if you read between the lines. A seventy-year-old son-of-a-gun who can still sit astride a horse!

"I have used Kruschen Salts for nearly 20 years, and when I say that, being 70, I was taken the other day for 45, that I am strong, can still ride and enjoy it, I would like you to understand that I attribute the whole of the above really wonderful facts to the virtue of your Kruschen Salts. I took it with me and was supplied with it during the whole of the War. I introduced it to high officials in London, and an Australian Judge adopted it on my recommendation, and writes me from Australia how wonderfully it has improved him. Some of my friends both at the Bachelors' and Cavalry Clubs, Piccadilly, take enough to cover a shilling and swear by it."—Capt. M. When you lead a sedentary life with little fresh air, less exercise and hasty, ill-chosen meals, your insides, sooner or later, grows sluggish, and fails to supply your eliminating organs with the tonic mineral salts that they must have to

enable them to work properly. Follows the whole host of so-called "minor" ills that undermine your constitution and blunt your happiness and discolour your outlook.

The trouble is obvious enough; it's the lack of those vital salts. Get a bottle of Kruschen and the remedy will be just as plain; for Kruschen is a combination of just those salts your body needs, blended in Nature's own proportions. Now you see why "it's the little daily dose that does it." You can't grow old when every little fibre of you is tingling with "that Kruschen feeling." Get that bottle to-day and begin to get younger tomorrow.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

(Continued)

Jane Perkins she was totally ignorant of the crime, which was exactly what I expected. I then hypnotized her, and succeeded in fishing up her other personality, from whom I got not only the admission that she had strangled Henry Morgan, but a considerable part of the story which I have just been telling you of the events which led up to the commission of the crime. She did not recover the personality of Jane Perkins until I called her out from the inner room to begin the examination."

By that time Ashton began to come out of his daze, had recovered again the powers of speech and motion.

clumsy. It is rather a description of the instrument rather than a handy name for it. It is three instruments in one. A phonograph first, by which sounds are recorded upon a moving cylinder in such manner that they can be reproduced. In exactly the same manner the pulse of a person on whose wrist this little instrument is strapped is recorded in the wax of the cylinder. So it is also, a recording sphygmograph. And thirdly, and last of all, the elastic strap which I fastened around Wilkins' chest had its two ends connected by a little instrument which registered, very scientifically and very truly, every movement of his respiration. Everything, from the slightest, most faintly drawn breath to a gasp, will be indicated by that little instrument and recorded along with a pulse beat on the same cylinder which records the sounds. The long thin tube there that looks like a thermometer will show when I start this instrument going exactly how the man I was examining breathed; when he held his breath, when he caught it, when he expelled it. And the bulb which you see, half filled with the red liquid, will show you the way his heart was beating."

SMILES

CADDIE GERTIE

"A mechanic looking for broken poppers occasionally gets wind of one."

"It's great to get close to nature, isn't it?"

"Do Short says he doesn't go hunting because he might be mistaken for a deer."

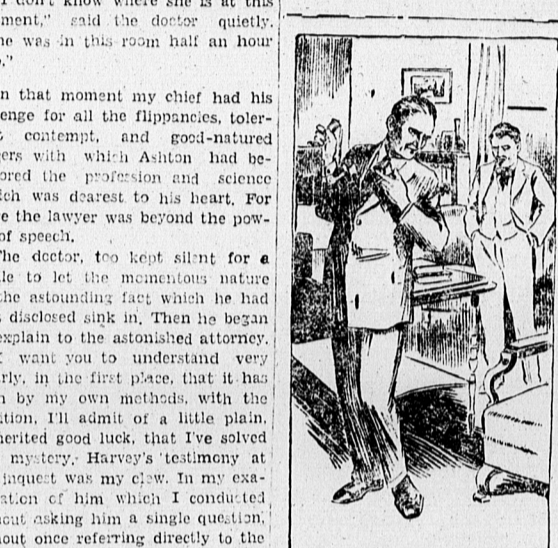

"Gee, he wouldn't be mistaken for anything bigger than a gnat!"

"When the teacher heard me swear, she asked me where I learned it."

"What did you tell her?" "Oh, I didn't give Pa away; I blamed it on the parrot."

He Walked Across the Room to the Telephone.

In that moment my chief had his revenge for all the flippancies, tolerant contempt, and good-natured sneers with which Ashton had belabored the profession and science which was dearest to his heart. For once the lawyer was beyond the power of speech.

The doctor, too kept silent for a while to let the momentous nature of the astounding fact which he had just disclosed sink in. Then he began to explain to the astonished attorney.

"I want you to understand very clearly, in the first place, that it has been by my own methods, with the addition, I'll admit, of a little plain, unmerited good luck, that I've solved this mystery. Harvey's testimony at the inquest was my clue. In my examination of him which I conducted without asking him a single question, without once referring directly to the crime that was committed at Oak Ridge, I proved him innocent as convincingly, in fact because the real have proved him innocent, more convincingly, in fact, because the real criminal in this case could prove an alibi, too. And in my further examination of him I discovered Jane Perkins, and without learning her exact address, I ascertained the neighborhood in which she lived. She was the woman with whom the profile on the window shade in the Morgan house associated itself in his mind. Only by a very extraordinary coincidence could this woman, with the same sort of profile the same colored hair and the same kind of cloak, have been any other than the one whose hands strangled old Morgan."

Decree Prohibits Ships Calling At Brazilian Ports

(Special to the Guardian)
MADRID, Nov. 1.—A royal decree published today prohibits ships of the government subsidized Spanish Steamship Company from stopping at Rio De Janeiro or other Brazilian ports. This is believed to be a reply to the Brazilian military junta. On Monday the government ordered the Spanish Minister at Rio De Janeiro to investigate the shelling of the steamship Eaden in Rio De Janeiro Harbor in which 27 Spaniards lost their lives, to have responsibility for the act fixed and to demand recompense for the families of those killed. Whether the minister had any difficulties is not known. Monday's note was pacific in intent, but today's decree clearly shows official displeasure with the Brazilian Government.

TINY WIRE MEASURES AIR WEIGHT AS NEW AID TO WEATHER EXPERTS

PASADENA, Calif., Nov. 3.—Compressed air and a fine electrified wire are the simple tools used by Dr. Robert A. Millikan to discover a new aid to weather forecasting. They measure the weight of the atmosphere. There's plenty of time. You haven't got the whole story yet, and you may split it. The girl's part of the crime is only half of it, and the least important part at that. She was hardly more than a passive instrument. The party you want, the important one to get, is the man who sent her on that fatal errand to the lonely house in Oak Ridge that night. The man you want is Josiah Haines."

At that a smoldering spark of incredulity in Ashton's mind was fanned into a flame.

"Come," he said; "you have told me that the wild South Sea Island girl of this story is really Jane Perkins; but you aren't going to tell me that Josiah Haines is a submerged and secondary consciousness beneath the urbane exterior of our friend Wilkins. That would be drawing it a bit too strong, wouldn't it?"

Without making any answer, the doctor turned back to his instrument, replaced upon it the megaphone which had been there during the conduct of the examination, and made some trifling adjustments in the instrument. And then, once more addressed the attorney.

"You thought I was joking," he said, "when I told Wilkins that this instrument was a phonopneumograph. The name, perhaps, is a bit

I like it — don't you?

To feel alert and lively—to look interesting—to be friendly and make friends—that's your wish, of course. With health you can accomplish this. Here's a hint! A daily cup of delicious and appetizing FRY'S COCOA will give you a new fund of energy to enable you to accomplish more.
