(Continued from Page 1)

Young said this was a manufacturing company and should have more extended study to find out what manufacturers had to do with price spreads. Mr. Factor suggested the inquiry always stopped short at manufacturing and that only one side of the picture was being presented.

"When the committee started the investigation we did authorize the chairman and counsel to instruct auditors," said Mr. Young. "But we thought they would give impartial instructions. We did not think they would send them out to bring out certain things against some people and shield others."

"I have been sitting here for three weeks listening to innuendoes from Mr. Young," said Mr. Stevens, "and I do not propose to listen to any longer. I want to say that no special instructions were given to any of these companies."

"Then the auditor himself is responsible for not investigating," said Mr. Young.

"Well Mr. Young or anybody else as far as I am concerned could not have done any more before the closing of the session and Mr. Young knows when the session closed all activity closed as far as the committee of the House was concerned," replied Mr. Stevens.

"I am not going to be cross-examined or submit myself to innuendoes," retorted Mr. Stevens.

At one stage of the argument Mark C. Sonn (Cons. Haldimand) remarked "it looks as if there was an object behind all this."

The discussion also brought out the statement that a full investigation had been made by auditors into a number of manufacturing concerns and that reports on these would be presented later.

The Eaton grocerias were the subject of some inquiry earlier when the department store and mail order branches of the Eaton business were investigated. A more complete report on the grocerias was presented today to fill out the general picture on food store chains.

In 1933 there were 75 stores in the Eaton chain, 33 in Ontario, two in Quebec, 30 in the Maritimes and 10 in Western Canada. The Ontario stores had had cumulative losses since 1928 of \$400,000 but the other groups generally had profits, those in the west increasing year by year. This did not, however, offset the losses in Ontario as the whole system disclosed a cumulative deficit of \$117,000.

The commission also heard brief reports on the Laura Secord cannery branch of the Hume chain of candy stores and restaurants.

**Fredericton City May Play Caledonia**

(C. F. By Guardian's Special Wire)

FREDERICTON, N. B., Nov. 22.—Negotiations are underway to arrange a single-play-off game at Glace Bay, N. S., for the Maritime rugby championship, between Caledonia, Nova Scotia champions, and Fredericton City, the only contender from New Brunswick, a local sportsman said tonight. Word is awaited from the Cape Breton club. Although Fredericton City has not had a regular rugby practice for about two weeks, members of the team have kept in condition with gymnasium workouts. They will be able to make the trip to Cape Breton if the game can be arranged.

The city fifteen has played only one match during the entire season but practiced regularly with the University of New Brunswick squad during the latter's playing season. The U. N. B. team, which earned the right to represent New Brunswick in the Maritime senior playoffs, forfeited the chance, having closed its playing season after winning the Maritime inter-collegiate title.

**Claims Germany Exposed To Air Attacks**

(C. F. By Guardian's Special Wire)

BERLIN, Nov. 22.—Germany is exposed to air attacks and must be prepared to meet them, Premier Hermann Goering of Prussia, who is also Reich Minister of the Air, wrote in the preface of a book on civil air defence which is shortly to be published and spread throughout Germany.

After referring to "the chains of the Versailles Treaty, which took away liberty in the air from Germany" Goering says:

"No matter what one may say, Germany is exposed to danger from the air and organization of civil anti-air defence remains an indispensable measure alongside military defence."

**Drowned When Boat Capsizes**

(C. F. By Guardian's Special Wire)

SAINTE JOHN, N.B., Nov. 22.—Elin Titus, 30, formerly of Yarmouth and Captain of the Saint John motor launch Marjorie Lee, was drowned today near Miramichi, 13 miles from here, when a dinghy carrying him and two companions to shore capsized and sank in a heavy surf.

Titus, with Foster Green, 22, and Albert Speight, 22, both of Saint John, was proceeding towards Saint John in the launch when it struck a submerged rock. They launched their dinghy and were coming to shore when surf swamped the little craft.

Green and Speight swam to safety but Titus was unable to reach land.

**Will Retain Post Season Series**

(C. F. By Guardian's Special Wire)

LOUISVILLE, Ky., Nov. 22.—The International Baseball League voted tonight to retain its post-season playoffs.

The American Association, which requested the International to scrap its lengthy playoff series in favor of early staging of the little series, is attempting to arrange a post-season series with the Pacific Coast League.

The International League's plans provide for \$2,500 cash to go to the winner of the regular 154-game season and then to hold its post-season series.

Officials of the Swedish Navy are testing a new noiseless gun.

A movement is under way in Lacombe to make teaching a recognized profession like the legal and medical professions. J. A. Barnett, secretary of the Alberta Teachers Alliance told a convention there.

**SUCCESSFUL TEA**—A most successful tea and party sale was held yesterday at St. Paul's Parish. All the tables were well patronized and the tea table attendance exceeded former years. The whole amount realized was highly satisfactory.

**COLLEGIATE CLUB**—The regular weekly meeting of the Catholic Collegiate Club was held in the K. of C. Hall on Thursday, Nov. 23rd at 4 P. M., with the President, William Brown, in the chair. His Excellency O'Sullivan gave a very interesting lecture on the "Philosophy of Life." Mr. Austin Connolly rendered an excellent piano solo and was heartily encored.

**LARGE PLANE TAKES OVER SERVICE**—The twin-motor, nine passenger plane, Dragon arrived at Upton Airport Wednesday from Montreal with Captain R. F. Saunders in charge. The plane commenced its first regular run between Moncton and Charlottetown yesterday. The Dragon will be used also in carrying mails to the Magdalen Islands.

**PERSONALS**

Miss Gerlie Tanon, St. Avaris, is at present visiting Halifax.

Inspector Fripps of the R.C.M.P. returned last night from Halifax.

Miss Alice Jewel Bedeque is visiting in the city the guest of her aunt Mrs. Van Iderstine, 88 Weymouth St.

The many friends of Mrs. William Munn will regret to learn she has entered the P. E. Island Hospital.

**Fear Politics Plays Part In Relief Kromhout Case Re-opened**

(C. F. By Guardian's Special Wire)

OTTAWA, Nov. 22.—Indications here are that the government looks with some doubt on large relief schemes in both Ontario and Quebec.

The view has been expressed in government circles that the Ontario government, in its \$18,000,000 highway project, and the Quebec government, in a colonization scheme for which approximately \$10,000,000 is required, are both playing politics.

An advertisement in a Belleville newspaper for a Euche party at which men were to be registered for work on the Bancroft highway, has been cited as evidence that the political side is being emphasized in Ontario. To both the highway scheme and the colonization plan, the federal government is asked to contribute. The view has been expressed here, however, that the Dominion Government will be extremely cautious about contributing funds for schemes which, in the opinion of the federal authorities, have a political angle.

**Mrs. Vanderbilt To Appeal Court Ruling**

(A. P. by Guardian's Special Wire)  
NEW YORK, Nov. 22.—Mrs. Gloria Morgan Vanderbilt declared tonight she would "appeal to every court in the United States and to the highest court" in order to win back the custody of her daughter Gloria, 19-year-old heiress, from her sister-in-law, Mrs. Harry Payne Whitney.

"This case may leave me penniless," she asserted. "Mrs. Whitney may try to have my allowance cut down to nothing, but if needs be, I will go out and work at anything I can find to get back my child."

"Mrs. Whitney is one of the richest women in the world, but I shall gladly spend all I have to hold my little girl safely in my arms again and vindicate the name that Mrs. Alice G. Vanderbilt was so justly proud of and that Mrs. Whitney by her false accusations has besmirched."

With bitter words in a type-written statement, the beautiful young widow of Reginald V. Vanderbilt charged Mrs. Whitney with holding a personal animosity toward her.

Private detectives are guarding the child at Mrs. Whitney's country estate at Old Westbury, or Long Island, it became known earlier in the day, because of the receipt of letters threatening harm to her.

**New Magistrate Appointed For Moncton**

(C. F. By Guardian's Special Wire)

FREDERICTON, N.B., Nov. 22.—Appointment of W. F. Lane, Moncton barrister, as police magistrate for the City of Moncton to succeed R. Dwight Mitton, resigned, was announced by Premier L. P. D. Talbot at the conclusion of tonight's session of a provincial government meeting. The appointment becomes effective immediately. Acceptance of Mr. Mitton's resignation was announced at the same time.

At a special meeting of the Moncton City Council last Saturday a resolution asking Mr. Mitton's suspension or removal from the position was passed, the City Council resolution claiming that he had defaulted in payment of police court funds to the city. A meeting of the New Brunswick Board of Education also will be held here tomorrow.

The Premier announced that the road from Cape Tormentine to Moncton by way of Shediac had been declared a part of the Trans-Canada highway system. This road is a connecting link between the trans-Canada highway system in Prince Edward Island from Charlottetown to Borden to Moncton in New Brunswick.

**Active Year**

(Continued from Page 1)

office, and he accordingly agreed to do so.

Continuing, the President thanked the organization for its continued confidence in him. He would continue to do the best he could in its interests. The Society is now holding its twenty-fifth annual meeting. Associated as he had been with its activities the past twenty years, he could recall many outstanding leaders in the movement who have passed away, including the late Canon Simpson, Rev. Dr. Fullerton, Dr. Conroy, Mr. W. L. Cotton, City Councillor P. A. Smith, and others. Special reference was made to the passing during the past year of Mrs. Geo. Hodgson, one of the society's most active members, also to the regrettable departure from the city of Rev. Dr. Ramsay.

Last year as in previous years the society has had its problems. What I indeed are increasing as years go by. A greater interest must be taken in our young children if we wish to lessen the burden on society, the Premier declared. If it was not for the work of the Children's Aid Society in this city would be deplorable indeed. But there still is much room for improvement. He regretted that tonight's meeting was not more largely attended.

The Premier warmly commended the work of Mr. Brawlers as Agent of the Society. He referred to the difficulty of obtaining a Judge of the Family Court. This work must be undertaken however. The society has 88 wards and 26 have been made wards during the past year. This was an indication of the way the work was increasing. Nine children have had to be sent to the reformatory last year, which showed the necessity of the work and the great need of continuing it.

The President referred to the harmony which has always prevailed at the Society's meetings and to the assistance received from the City Police and the R. C. M. P. All the wards of the Society had been visited by the Agent during the year and a detailed report was available in each case. Consideration was being given to the suggestion of preparing lists from this city for the purpose of developing more foster homes throughout the province for the Society's wards.

The work of the Society's honorary solicitor, Mr. Donald MacKinnon, K. C. was very highly commended. The Premier said.

The Society now has a proper temporary shelter under the supervision of Mr. and Mrs. Dwyer, which is working satisfactorily.

The general influence of moving pictures on children, he believed, was not beneficial. It is difficult to obtain suitable pictures for children. The churches are beginning to take an active interest in this question. Possibly the most effective way of showing condemnation of pictures, the Premier suggested, was by refusing to attend.

He appealed to the citizens of Charlottetown on behalf of the Society's aims and objects and in conclusion thanked the thanks of the meeting to the orphanages, the press and to all active in the Society's work, as well as to the Mayor and City Council for their continued use of the City board room.

**Red Cross Gains In Empire Posts**

(By The Canadian Press)

TOKYO, Nov. 22.—British Empire delegates to the International Red Cross Conference here held a meeting of their own prior to the international assembly, when 19 representatives of the British Empire, including Canada, met at the Canadian Legation.

Hon. Herbert Marler, Canadian minister to Japan, extended the invitation to the Imperial delegates and the meeting was presided over by Sir Harold Parsons, director-general of the British Red Cross society.

Many of the problems facing Red Cross workers in various parts of the Empire were discussed, and a note of opinion was prevalent despite various difficulties presented by the delegates. Expansion of Red Cross work in India and certain of the crown colonies was reported.

It was decided an "Imperial meeting" should be held in 1936. Delegates were present from 87 nations. Hon. Mr. Marler represented the Canadian Government and Mrs. H. P. Plumpton of Toronto the Canadian Red Cross Society, of which she is vice president. The Japanese government prepared a lavish programme of entertainment and social functions and His Imperial Highness Prince Kotohito Kan-in participated.

The Canadian minister gave a large dinner for the British Empire delegates and some others. The Emperor gave audience to the chiefs of national delegations.

**ENTHRONEMENT NOV. 30**

(C. F. By Guardian's Special Wire)

FREDERICTON, N.B., Nov. 22.—Announcement was made here tonight that enthronement of His Grace John A. Richardson as Archbishop of Fredericton would be made in Christ Church Cathedral here on Friday evening, November 30. Arrangements for the ceremony had not been completed tonight.

November 30 will be the 28th anniversary of Archbishop Richardson's consecration as Bishop in the Church of England.

the real causes of the assassination of King Alexander of Yugoslavia and to ruin the moral integrity of Hungary."

**Demand Investigation**

A strongly-worded letter to Foch, Yugoslav delegate to the League of Nations, sent to J. A. C. Avenol, League secretary-general, asked the League Council to investigate terrorist activities "troubling the peace of central Europe," which culminated with the assassination of the Serbian king, Alexander, last month.

Czechoslovakia and Rumania, Yugoslav's sister members of the league Little Entente, sent similar letters to Avenol supporting the Yugoslav stand, while officials of Greece and Turkey, Yugoslav's Balkan neighbors, expressed open sympathy.

**Prepare Reply**

The council was expected to argue the explosive question in January. Meanwhile, Hungarian delegates to the League began preparing their reply.

Yugoslav officials, commenting on the day's sensational development, said, the south Slav public demanded the step be taken. "We prefer to settle the matter through the League instead of sending an army to the Hungarian frontier," they said.

**"Rainbow Woman" Puzzles Kansas Medical Experts**

(A.P. By Guardian's Special Wire)

KANSAS CITY, Nov. 22.—The "Rainbow Woman" of Kansas City changed color again today, and was red once again.

Almost as rapidly as her temperature fluctuated from normal to 102 degrees, Mrs. Edith Perry, 32, has been blue, purple, red, brown and red again in five days confinement in general hospital.

Physicians who thumbed their books to find a similar case said the case would be easier were it not for the purple shade.

There are many records of persons who turned red as result of contact with arsenic, either as medicine or in some other form, they said. There are numerous cases of scaling skin such as Mrs. Perry has but none accompanied by the purple phase.

Mrs. Perry's case is the only one of which there is a record in which a person turned purple.

**AGENTS REPORT**

Following is the text of the report of Mr. W. J. Brawlers, Agent for the Society:

Your honour, Mr. Premier, Rev. Clergy, Ladies and Gentlemen:

In presenting a review of the year's activities, I have endeavored to place before you briefly the main features of our work, as well as point out some of the conditions which are being met and how we endeavor to take care of them.

Owing to the scarcity of employment, there are many families who find it difficult to provide necessary food and clothing for their children, but there are other instances, unfortunately, in which, through absolute laziness, idleness and other misconduct, pitiful conditions are created in homes, and innocent children are usually the worst sufferers.

In most cases, these are reported by their teachers to be bright, intelligent children who, under proper guidance, would make good, useful citizens, but what chance have they in such environment. It is only a wonder a number of them are not in the streets and end up in reform schools.

Our Society is doing what it can to redeem such children by making them our wards and finding foster homes for them where they will be given the opportunity to which they are entitled. Each year, hundreds are being deprived in their present surroundings.

There are a number of children who are habitual absentees from school. I do not consider it fair to class such children as truants, because they are absent from school through parents' knowledge, and it is most difficult to obtain proper assistance or co-operation from these parents in the effort which is being put forth to get the children to school.

In proportion to the large number in attendance at our city schools, the number of cases of truancy is very small and usually of short duration.

Since the re-opening of the present term, I met with about a half-dozen instances in which boys had made their first start at playing truant from school. This was discovered when I called at their homes to enquire the reason for their absence. After the parents and teachers each brought the boys to task for their conduct, it is felt that the best way to prevent their repeating the experiment.

At the present time, eighty-six children are wards of our Society. Twenty-six of these had been made wards during the past year. Some of these are living with parents in the city under our supervision, and six in St. Vincent's Orphanage and six in reform schools.

The three have been adopted into comfortable foster homes throughout the province.

During the past summer I visited all our wards, and with an odd exception found that they are being well cared for and sent regularly to school.

In the one or two instances in which conditions are not just what we would wish them, it is our privilege to remove such children unless satisfactory improvement is made.

When it is remembered that while some of these wards are orphans, a large number were taken from homes in which their parents were unable, either through poverty or neglect, to properly care for them, or in some cases removed from dangerous environment, the valuable work which is being done in this respect can readily be recognized.

Regarding these wards who are at present in reform schools, the fact of their being made wards gives our society control over them so that at the expiration of their terms we can see that they are placed in surroundings in which there will be little possibility of lapsing into their former habits.

A small fund was provided to obtain boots, rubbers, etc. for needy children, and this, together with splendid assistance from social service department of the City Hospital, and also from the different churches throughout the city, made it possible to keep a number of children in attendance at school whose parents were unable to provide for them.

We have two instances during the year of where parents unlawfully regained possession of their children who are wards, by taking them away from those into whose temporary care we had placed them. In both cases we located the children promptly and had them brought back within a few days.

During the year we were fortunate in establishing a private temporary shelter where juveniles who are committed to reform schools may be detained while preparations are being made for their transfer to the schools. This is proving to be a most satisfactory arrangement as well as a great convenience in other ways.

There are at present fourteen

**TRIBUTE TO REV. DR. RAMSAY**

The following resolution, moved by Mr. Leo MacDonald, seconded by Mr. H. R. Stewart, was passed unanimously:

"Whereas the acceptance of a call to St. John, N. B., has necessitated the removal of the Rev. Dr. Ramsay from our city

"And whereas his removal has severed his connection with our society, of which he was Vice-President

"And whereas his brilliant attributes of mind and heart so well enabled him to help to guide us in our difficulties

"Be it resolved that the Children's Aid Society of Charlottetown desire to place on record its heartfelt regret at the loss it has sustained by his departure.

"And be it further resolved that a copy of this resolution be forwarded to Rev. Dr. Ramsay with the sincere hope and prayer that he may be spared many years to continue his inspiring course through life, so well exemplifying the word of Goldsmith: 'He watched and weeped, the priest said, for all the sinners that he felt for all.'

The chairman then called on Judge Inman, whose address on the work of the Juvenile Court appears elsewhere in today's Guardian.

A warm vote of thanks to Judge Inman was moved by Mr. John McKinnon, seconded by Mr. Donald MacKinnon, who emphasized the need of having more foster homes for delinquent children. The motion was supported by Rev. G. Orlan Webster who commended the preventive methods outlined by Judge Inman and stressed the value of their introduction in Charlottetown.

**Lieutenant-Governor Debils**

His Honour Lieutenant Governor Debils called upon, said the meeting was deeply indebted to Judge Inman for his address and declared that the people of Prince County were fortunate in having that gentleman presiding over their Juvenile Court. He warmly commended President MacMillan, the Agent, Mr. Brawlers and officers of the Society for the successful work during the past year.

A kind word spoken to the wayward child at the right time and in the right spirit could do a great deal, and the Children's Aid Society has done wonderful work along this line, His Honour continued.

The unselfish service and solid leadership given by the President of the organization was an inspiration to all concerned.

Votes of thanks to Mr. MacNutt and Mr. Brawlers, and also to Mr. Donald MacKinnon for his service

**ANADARKO, Okla., Nov. 22.—**

Forrest Hudgins, 42-year-old Fort Cobb filling station operator, attempted today to beat himself to death with a hammer. As witnesses rushed to his aid, he gasped, "That's the hardest job I ever tried."

Hospital attendants said his recovery was doubtful.
