Pacification Terms Promise Peace In Ireland

(Special to The Guardian). LONDON, March 31.—The Free State party in Ireland is enormously strengthened by the agreement for the pacification of the island signed here last night. The House of Commons was told this morning by Winston Spencer Churchill, Secretary for the Colonies, paying tribute to what he termed the statesmanlike courage of the Irish leaders. Mr. Churchill said the agreement gave hope for co-operation between the North and South and opened a prospect for a future such as Ireland had never before contemplated. Ulster, he said, had lent a helping hand to peace in Ireland and the cause of peace in Ireland the value of which could not be overestimated.

Plenty of Laughs in Mademoiselle of Armentiers

Good Show at the Prince Edward Theatre Last Night Delighted Large Audience. Production Will be Repeated this Evening.

The Prince Edward Theatre was crowded last night when the popular and now famous wartime comedy "Mademoiselle of Armentiers" was produced, depicting the various characters, humors, and incidents of the "boys" whilst serving in France. The play is the result of the combined efforts of a number of University of Toronto students who desired to record their own varied experiences in the C.E.F. each endeavoring to introduce some special character or incident which probably appealed to him most. The result was so satisfactory that it was decided to compile these various "sketches" into story form with an interesting sequence of situations, intermingled with pathos and humor. As shown last night at the Prince Edward, the production is a masterpiece. The scenes of the play are set in the Rest Billets of Bully-Grenay and in a Front Line Dugout and a Front Line Trench. The outstanding theme is the development of the character of a young Lieutenant who arrives in France overburdened with the weight of his own self-importance and with the avowed intention of teaching his platoon (of seasoned service men) exactly what discipline and training means. His progress of evolution is followed with keen interest. The character of the new Lieutenant was admirably taken by Mr. W. F. Lawrence, Mr. Russell Young as "The Grouch," and Miss Doreen Thompson as Miss Julie. The performance will be repeated this afternoon and evening at the Prince Edward when full houses are assured.

The property is situated in West Norfolk, next to the King's Sandringham estate, and covers 1,750 acres. It was owned by the Rolfes for many centuries. [It may be of interest to note that two direct descendants of John Rolfe are now living in Charlottetown, viz. Mr. A. E. Morrison and Mrs. Charles Dalziel.]

Lives of 400 Miners in Peril

(SYDNEY, March 31.—Four hundred miners in Caledonia Colliery were placed in imminent peril of suffocation by the first instance of real "sabotage" so far reported in the Glace Bay area. The men were just about to begin work when inspectors discovered that the two large doors governing the flow of air through the passages had been "spragged" or jammed so that no fresh air was being pumped into the working section of the mine, with the result that the atmosphere was rapidly becoming foul and fatal to human beings. Cape Breton mines are highly gaseous and powerful fans continually force a circulation of fresh air throughout the mines of underground workings. The current is diverted from place to place by means of doors in the passages, and it was this system which was interfered with. Mine officials say there is no doubt the doors were spragged purposely and not as a result of accident. Apart from the danger of suffocation, it is believed that a serious disaster was only averted by a matter of half an hour. Were it not that some of the underground officials accidentally discovered the outrage the supply of air from at least one section of the mine would be cut off with a great possibility that disastrous effects would follow. With the quantity of pure air cut off miners working in distant sections of the mine were in danger of suffocation and danger of an explosion was equally great. Mining men regard the occurrence as nothing less than the attempted murder of the employees who were in the colliery at the time. A strict investigation is being conducted in the affair by the colliery officials. The responsible parties it might be arrested. The outrage at Caledonia is open infringement of the mining laws and the very seriousness of the crime would earn those responsible several years in the penitentiary.

Garrison Was Carried Off

BELFAST, March 31.—The police barracks at Bolcoo, near the city, were raided last night by armed men who crossed the Cavan County border, which is only one hundred yards distant, of the garrison of twenty-one Royal Irish Constabulary men, only six escaping. Of the other fifteen, with all the post's arms and ammunition, were carried off. A party of Ulster specials patrolling the Armagh-Tyrone frontier were fired upon when they inadvertently crossed into Free State territory. One constable was wounded. A freight and mail train bound from Belfast to Dublin was derailed by a large party of men near Newry early today. Nine cars, including the mail car, and their contents were burned. In consequence of this incident the Great Northern Railway has decided to suspend operation of all its line north of Belfast at night with the exception of locals. Call for Unity. DUBLIN, March 31.—Republican members of the Dail are meeting here yesterday adopted a resolution proposing immediate suspension of the political campaign in Southern Ireland in order that the factions may unite to "compel cessation of the murder of Catholics in Belfast. The resolution declared that the division in the Dail and the country was caused solely by the proposal to accept the Anglo-Irish Treaty, and asked that the Dail Dail proceed no further with treaty negotiations until the majority of the Cabinet are allowing public attention to become concentrated on the situation in Ulster. Owen O'Duffy, chief of staff of the Irish Republican army, has issued a statement declaring that all officers and men are relieved of the responsibility of obeying orders given by any superior officer who severed his connection with the army through attending the "irregular" convention of last Sunday of who recognizes the so-called "Irish" council elected by the convention. The organizers of the convention claim to have eighty per cent of the army with them.

Blackmail Activities In New York City

(Special to The Guardian). NEW YORK, March 31.—More than \$3,000,000 a year is being extorted from wealthy New Yorkers by a national black mail trust. Men of national prominence are being victimized and the trust is operating all over the United States and its annual loot is simply appalling. W. Sherman Burns of the Burns Detective Agency made these statements today in an interview wherein he revealed that the amount of money obtained by blackmailers almost equals the annual harvest of all the highway burglars, pickpockets, train robbers and postal bandits in America combined.

Embargo on Grain Owing to Congestion

(Special to The Guardian). WENNEPPE, March 31.—Special notice was posted at the Winnipeg Grain Exchange yesterday of an embargo by the Canadian National Railways on grain shipments to Port William, West Port and Port Arthur. The rapid movements from interior elevators to the lakehead terminals is responsible for the congestion which they say is likely to become more serious between now and the opening of navigation. It should be the duty of this legislature to retrench as much as possible to relieve the people as much as possible of the burden of taxation and to institute a thorough system of economy. A dollar saved is better than a dollar borrowed. We talk about hard times, and teachers have been told that we cannot increase their salaries now owing to these hard times. It is also said that we are not in a position to give anything towards a soldiers' monument. And yet we are to be asked to borrow \$450,000 for the building of highways! My advice to the hon. members is to institute the policy of retrenchment to begin right here in this Chamber. Let the members of the Government cut down their own salaries and let the blue pencil be carried through the official list; because this province has about double the officials that it should have. It is growing under the weight of officialism. If you do this you can count on my hearty support. But I want to emphatically say this, that I have always taken a stand against the salary increase, and today I am not afraid to go before the people!

Farmer Killed

BELFAST, March 31.—William Fleming was shot and fatally wounded this morning on his farm in County Armagh, while carrying water for breakfast. He died in the Armagh Infirmary. Fleming's brother is a member of the special constabulary and the attack is believed to have been in reprisal for the shooting of a man by the specials on St. Patrick's Day. Lislap Lodge, a beautiful mansion in Tyrone County, was destroyed by fire this morning. Strenuous efforts were made to save the building, but the rapid spread of flames indicated that petrol had been freely used by the incendiaries.
