SYDNEY STRIKE IN FULL BLAST

United Mine Workers of America All Go Out. Provincial Workers Remain. One Mine Closed, Others But Half Manned.

GLACE BAY, July 6—(Special)—The strike inaugurated by U. W. M. A., brought out a large majority of the Dominion Coal Company's employes.

Estimates differ as to the exact number affected, but 75 percent of the men are out of Dominion, No. 16 is closed and at Nos. 2 and 9 have not more than one hundred men at work, although those pits employ 1,600 men.

At Caledonia and No. 4, only 70 men turned out. These mines employ about 900 men.

The Dominion and Reserve Mines are doing well. In the first, according to the coal company, 450 men are working.

At the Reserve Mine the workers claim half the men, which number about 900 or 1,000.

Two of the Coal Company police were arrested on a warrant, charged with assault.

Barring this unpleasantness there has been nothing of an unpleasant character.

THE RUSH FOR LAND IN SOUTH ALBERTA

Men Spent All Night On Land Office Steps at Lethbridge to Get First Chance. Half-breeds Attack in Force and Are Repulsed. Some Prizes. Greatest Excitement Prevailed Throughout.

LETHBRIDGE, July 6—(Special)—Not since the opening of pre-emption land last September has there been such a rush at the Land Office as now when twelve sections near Bow Island and two townships in the Bad Water Lake district were opened for entry.

There was the wildest rush and from last Wednesday men have been camping on the steps of the office.

On Sunday at midnight seventy men were packed into the passage from the street to the door.

Yesterday there were wild scenes when a dozen half-breeds drove up and undertook to secure the first position.

They made an attack on the passage way, but were repulsed.

Then they started throwing stones at the crowd, whereupon the police were soon on the scene.

By the time the office opened there were 200 waiting.

Agent Reid turned the key and men and women made a rush for the narrow opening.

The man who got through first filed a $3,000 or $4,000 claim at a cost of $10 and a night's sleep.

One by one the land settlers were let in and passed and the land was taken up.

GOLD IS FOUND IN TWO PLACES

Rich Placer Gold Near Vancouver and Victoria. An Australian's Luck. A Big Rush to Stake Claims in Both.

VICTORIA, July 6—(Special)—By a freak coincidence two placer gold discoveries, both of which promise important gold mining camps, have been made almost simultaneously within a days travel respectively of British Columbia's two chief cities, Victoria and Vancouver.

Seymour Creek, where I. L. Marriott, an Australian, has made a lucky strike, is but five miles distant from the first named provincial city and already it is staked, virtually to its source.

Marriott and his associates have been panning five weeks near Seymour Canyon, the gold running 20 cents to the pan.

The Vancouver discovery it at Port Renfrew, on the south western coast, just across from Leechtown.

It is claimed there is plenty of gold there.

NEW YORK'S MAYOR REMOVES BINGHAM

NEW YORK, July 4. — One of the most drastic upheavals in New York city's police history came to-day when Mayor McClellan's summarily removed Commissioner Theodore A. Bingham for insubordination, after the latter's refusal to comply with certain orders issued by the mayor yesterday. The mayor's orders came at the conclusion of his investigation into the alleged police persecution of George B. Duffy, a Brooklyn lad, who, it was claimed, had been repeatedly arrested without just cause, and whose photograph was retained in the rogue's gallery despite the failure of the police to obtain a conviction against him. The mayor held that at least two of General Bingham's lieutenants had been guilty of misconduct in this affair and accordingly demanded their removal.

With General Bingham's retirement to-day went several of his closest advisors and the leading supporters of his regime, the mayor at once appointed William F. Baker, hitherto a deputy commissioner, who indicated that a considerable change in the policy of the department was to the expected. "The law will hereafter be enforced," he declared, "with reference to the fact that New York is a cosmopolitan city with a cosmopolitan population.

SALE OF A REMBRANT

LONDON, July 5—Sales at Christie's continue to offer evidence of surplus wealth available for investment in works of art. Rembrandt's "Descent from the Cross," which has been out of sight in Lancashire and Cumberland for over eighty years, has fetched the immense price of 7,800 guineas from a French bidder, or about thirty-three times as much as its last auction price. Turner's "East Cowes Castle," a superb work, almost unknown to connoisseurs, brought 6,700 guineas, and portraits by Raeburn, Romney and Maes were eagerly competed for by dealers at high prices. The London dealers are now heavily loaded with Turners, eighteenth century portraits and French and Dutch pictures of the Barbizon school and are eager to have American collectors return to the market.

The temperature was fifty degrees above zero at two o'clock this morning.

NEARLY COST THEM THEIR LIVES

TORONTO, July 5—Frank Malone, of Almonts, was asphyxiated at Crown Reserve mine, Cobalt, and a party of eight men, who went to his rescue had a narrow escape with their lives, everyone being overcome with gas and requiring the aid of doctors. There are: J. MacDonald, R. Harding, Jack MacDonald, Reginald Harding, Jack Hallett, Nick Keefe, George Jones, George Leggett, James Harvey and Fred Dyer.

THE ASSASSIN HAS A SYMPATHIZER

LONDON, July 5—An indignation meeting, held by the Indian residents today to protest against the murder of Lt.-Col. Sir Wm. Hutt Curson Wyllie by an Indian student, Madaylol disturbance. When a resolution was offered expressing horror at the crime, an Indian student objected. Immediately there was an uproar. Chairs were thrown down and sticks were used freely. The dissenting student was severely beaten and was rescued by the police with the greatest difficulty. The disturbance continued for a considerable time and when quiet was restored the resolution was adopted. Dhinagri's younger brother made a statement, repudiating his brother and expressing horror at the murder.

SERIOUS FIRE IN PORTLAND

PORTLAND, Me., July 5— A fire which threatened the manufacturing center and heart of the business section of Portland, broke out a few minutes before midnight, a general alarm, calling out all the apparatus being sounded at 11.50 o'clock. The fire broke out in the large wooden building at 32—34 Plum street, occupied as a repair shop by the F. O. Bailey Carriage company, and spread by means of connecting wooden sheds to a three story brick building, numbered 51 to 55 Union Street, a distance of about 400 feet. The brick structure was bursting into flames when the additional apparatus called by the general alarm appeared.

This building was occupied by George E. Huff, portable garages; Ole Peterson, polishing shop and Huard Brothers company, show cases. These buildings were filled with much inflammable material and caused a decidedly threatening fire. From the start magnificent work was done by scores of men on shore liberty from the battleships Wisconsin and Virginia, which are in the harbor. They manned several lines of hose and their assistance brought the best results.

MEETS IN SUMMERSIDE.

—The Prince County Institute Convention meets in Summerside on July 13th and 14th. Each Institute in Prince County is entitled to send as delegates to this Convention its full board of directors, and in addition one delegate for each of its ten members. While only delegates will have the privilege of voting all members of Institutes present, whether residing in Prince County or not will have the privilege of speaking on any resolution or other matters that come up for discussion. All interested whether members of Institutes or not, are invited to be present. Many important matters will come up for discussion and it is very desirable that there should be a large attendance including the full number of delegates. Artemas Farrow, Sec. Prince County Institute.

Ask for Minard's and take no other.

ITALIAN IN THE ELECTRIC CHAIR

His Death Swift and Sure. His Crime Murder. Whiskey at Bottom.

AUBURN, July 6—(Special)—Guiseppe Sanducci, who murdered Joseph Dardona, an Italian detective at Belfast on December 21, 1907, was put to death in the electric chair in Auburn penitentiary this morning.

The execution was one of the most successful in the history of the prison and remarkable for the celerity with which it was carried out.

Sanducci's crime was committed in broad daylight and in the presence of forty or fifty people.

It was a sequel to the arrest of his employer, Michael Decylo, on charge of a violation of the liquor law.

PRESIDENT ON ATHLETICS

CARMBRIDGE, Mass., July 5—A reorganization of the American college so that the chief aim should be not so much instruction as to impart the "spirit of learning" was advocated by President Woodrow Wilson, of Princeton University in the Phi Beta Kappa oration at Harvard University today.

President Wilson opposed the proposal to shorten the college term, saying that four years are needed to complete the process of development for which the college is intended. He referred to athletics and said:

"I have no jealousy of athletics; it has put wholesome spirit into both the physical and the mental life of our undergraduates. There are fewer morbid boys in the new college which we know than in the old college which our fathers knew, and fewer prigs, too, no doubt! Athletics are indispensable to the normal life of young men and are in themselves wholesome and delightful besides. To another atmosphere, the atmosphere of learning, they could easily be subordinated and assimilated."

"Atmosphere" was suggested later, when President Wilson said:

It is the duty of university authorities to make of a college a society of which the teachers will be as much and as naturally members at the undergraduates. When this is done, other things will fall into their natural places, their natural relations."

STRIKERS LIKELY TO CAUSE DANGER.

SYDNEY, July 6—Glace Bay presents a busy scene this morning, the streets being filled with throngs of men who quit work in the Dominion Company's mine and are now on strike. During the entire afternoon yesterday the miners were seen removing their tools and other belongings from the Pits. While the strength of the American Union is not definitely known, yet it seems that the great majority of miners here are members and the pits will be operated by a very few who remain faithful. Trouble is anticipated at the Reserve and Dominion No 1 where P. W. A. men are strong, and are determined to operate the mines in spite of the strikers.

LEON SING IS BEING PURSUED

Elsie Sigel's Slayer Believed to Have Shipped as Cook, German Steamer.

NEW YORK, July 6—(Special)—In the hope of capturing Leon Ling, the accused slayer of Elsie Sigel, the police have cabled to several cities on the Mediterranean and Indian ocean to hold up the German ship Helen Rickners and search it for the fugitive.

The information is almost conclusive that Ling shipped from Philadelphia between June 10 and 12.

The ship on which the Chinaman took passage was bound for the Orient.

Capt. Oetting had shipped several Chinamen as a part of his crew.

Among these engaged only a short time before sailing was one well-dressed man who spoke good English and professed to be an efficient cook.

Leon Ling wore good clothes, spoke English fluently and was a master cook.

VERY SAD DEATH.

The death which occurred at Peake's Station on Sunday the 27th ult., of Daniel B. McDonald, removes another landmark. Deceased was born at Pisquid eighty nine years ago. While quite young he settled down on a farm near Peakes Station. He labored zealously and succeeded in making for himself and family a comfortable home. He was much attached to his home and devoted to the menbers of his family; while he possessed many good qualities, which tended to make him beloved by all. He was kind and obliging, ever ready to help those in need and his door was never closed to the traveller who required food and rest. He was a devout member of the Catholic Church and during his last moments had all the consolation of his religion. His funeral to St. Teresa's took place on Tuesday morning and notwithstanding the inclemency of the weather was well attended. The pall bearers were: Robert Mooney, Anthony McLaughlin, Peter Heron, Patrick Donnelly, Allan McDonald and Bernard Gillan Jr. A high mass of Requiem was sung by the Rev. I. R. A. McDonald, P. P., thence the remains were conveyed to the adjoining cemetery. He leaves to mourn a wife, three sons and four daughters, to whom is extended much sympathy.

LEAVES FOR ENGLAND.

Rev. John Morton, D. D., of Trinidad, who is at present staying with Hon. J. G. Forbes, will leave Quebec for England by the Virginian on Friday, accompanied by Mrs. Morton. It is likely that Dr. Morton will give evidence before a commission in London which has been appointed to consider what can be done to turn the tide of Hindoo immigration from Canada to British colonies situated in the tropics such as Trinidad, British Guiana and British Honduras. Rev. Dr. Morton preached to good congregations Sunday, occupying the pulpit of St. Stephen's church in the morning and St. David's church in the evening.—St. John Telegraph. — Dr. Morton is well known in this Province.

Minard's Liniment Lumberman's Friend.

FAIR AND WARM.

TORONTO, July 7—(Special)—Light to moderate variable winds a few scattered thunderstorms but mostly fair and warm.

The length of today will be fifteen hours and twenty minutes.

SILVER CITY WILL BE REBUILT

TORONTO, July 5—Mayor Lang, of Cobalt, was at the city hall this morning and was introduced by Mayor Oliver to the board of control, who extended sympathy for the misfortune that has befallen the silver city. "It will be only a matter of a short time before the city is rebuilt," said Mayor Lang! "Surveyors are all ready at work surveying the district that was destroyed by fire. The new Cobalt will be laid out on more modern and better plans."

SHERIDAN WINS ALL THE PRIZES

NEW YORK, July 5—M. J. Sheridan, the giant New York policeman, and a member of the Irish American A. C., the world's best all around athlete, increased his famous point score of 7,130½ to 7,385 in the all around championship of the Amateur Athletic union, which was decided today in connection with the annual athletic union of the United Scottish.

The big fellow was in excellent form and won nine of the ten events on the all around program. His only opponent, Theo. L. Matsukes, of the West Side Y. M. C. A., New York, took the tenth and last event, the one mile run, rather easily, as Sheridan eased up, suffering from a stitch in his side.

In the pole vault for height Sheridan distinguished himself by clearing the bar at 10 feet 9 inches, Matsukes did not take part in this event. H. L. Farrell, of Boston, was one of the four entrants for the national honors, but he failed to show up. Emery Payne, arrived on the grounds half an hour late and was barred from competing. This left the contest between Sheridan and Matsukes.

CLOSING SESSIONS AT ALEXANDRA

ALEXANDRA, July 5—Though a heavy shower of rain interfered somewhat with the womans service in the afternoon yet the closing sessions of the Baptist Association wete well attended.

In the morning the report on education was taken from the table for discussion.

Attention was directed by the Home Mission secretary, as well as by the college representatives, to the great need for a lurther extension of our theological work at Acadia and for this improvement more funds were needed.

At present the young ministerial students have to go to Seminaries in the United States to finish their theological work and most of them get pastorates there and so are lost to Canada.

A good course in Theology at Acadia would keep many students here and the great home need would be supplied from our own institution!

During a discussion of the report on Foreign Missions attention was directed to the fact that the task of evangelizing 2,000,000 Felegus was an imperative duty to the Baptists of the Maritime Provinces.

To do this in this generation, which is the only one we can reach, men and money were needed.

We had the men and $120,000 per year would carry on the work.

This could be done easily if every church member would give regularly ten cents per week.

Mr. Higgins explained that this amount, if given according to the convention plan, would pay for all the expenses of all the different denominational purposes and leave a good balance on hand.

He further explained that it was proposed to lay a new scheme concerning finances before the Maritime convention this year.

By this scheme all the Boards for the different denominational objects would give into the hands of a committee, which itself would meet the day before the convention, an estimate of its needs for the year.

This committee would then recommend to the convention a division of the funds in proportion to the needs represented.

Thus instead of the convention fund being divided in a field rates as at present it would be divided according to the needs of the year.

This scheme had its hearty approval of the delegates present.

A resolution was next introduced favouring a union of some form or other closer than exists at present among Canadian Baptists.

It was explained that this union would not do away with the convention as held at present nor with our machinery as we have it now, but that these would be modified to some extent.

The work in India would be vastly improved by a Canadian union for then colleges, hospitals, and schools medical and industrial could be established, a task at present impossible, then it would be possible to have one skilled man over each department of work there and a missionary would not have to be the polyglot he is at present.

The resolution was unanimously adopted.

Rev. I. W. Porter gave a stirring address on Grand Liguc and spoke of the able self sacrifice of the teachers in connection with the Feller Institute. He warmly commended the work done there to the Baptists of the Island.

Rev. C. W. Corey then spoke most interestingly of the work in the North West and the need there.

The afternoon was given up to the W. M. A. Society. Miss Wadman of Charlottetown acted as chairman of the meeting, Mrs. W. B. Crowell led the devotional service. Mrs. Bomford Wood read an address of welcome to the visiting sisters and this was responded to by Mrs. Isabella Gidden, Summerside. Mrs. Arthur Simpson gave a warm welcome to the wives of the new pastors.

A resolution of condolence to Mrs. F. N. Atkinson because of the death of her mother was unanimously passed.

Then followed the reports of the various societies, and Miss Irene Clard gave a report of the Mission Bands.

It would appear from each of these reports that more women might be in their aid societies and that a few more mission bands could be organized.

Miss Ethel Brehaut then rendered a vocal solo in a most pleasing manner. Miss Blackadar in her address confirmed the favourable impression made by her talk of Sunday evening.

Her pictures of Hindu life were most vivid, and as she told in her own pleasant and sympathetic way of the power of the gospel to change the awful conditions of Telegu life her statement of Funday evening was refemphasized.

"The work is decidedly worth while."

A pleasing feature and result of the meeting was the organization of a Mission Bann at the church here.

Committees for 1909-10 were then organized.

The evening was taken up with a Temperanse platform meeting.

A report on this work was read by Rev. E. A. McPhee, after which short addresses were delivered by R. R. Jenkins, N. MacLeod, C. S. Young, Wm. Hayter, Rev. J. B. Hogan, R. T. Morrison, anh W. Field.

A number of resolutions were then drafted and read after which the convention came to a close!

Keep Minard's Liniment in the house

FOURTH JULY'S BIG CASUALTIES

The Tale of Dead and Injured Grows. Fire Losses Also Heavy.

CHICAGO, July 6—(Special)—The Record Herald's summary of casualities in the United States of the three days celebration of the 4th of July give 46 dead and 1,575 injured.

The fire losses are $446,500.

ACCIDENT TO THE H. & S. W. EXPRESS

YARMOUTH, July 5—The H. and S. W. express, which left here at 8.55 this morning with a number of passengers, met with a bad mishap at Arcadia, three miles from here. Owing to a defective rail the train left the track and the locomotive toppled over into the ditch. The passenger cars left the rails, but remained upright. The engineer and fireman jumped and escaped with a few scratches, and altho the passengers were shaken up none were injured.

LOCAL OPTION STIRS ONTARIO

Many Towns and Villages Prepare to Vote Out Saloons Next January.

TORONTO, July 6—(Special)—Already many towns and municipalities are getting into line for the local option campaign next January.

Among the towns which have decided to press for local option are Gault, Sault Ste Marie, Steelton and Dundas, the village of Fenlon Falls and the townships of Uganda, Plenheim, Colborne, Dorchester, North Downie, Glanford, King and More are also among the recent additions to campaign started.

WIPE OUT MORO REBELS AND LEADER

MANILA, July 6—In a desperate fight near Patian, on Jolo island, yesterday, Jikiri, the famous Moro outlaw chief, was killed and his entire band exterminated by detachments of regulars and constabularly under Captain George L. Byram, of the South United States Cavalry, operating in conjunction with a naval flotilla of the mosquitto flotilla under Lieutenant-Commander Signer.

The American loss was one private killed and three officers and twenty enlisted men and one sailor wounded.

TO COMMEMORATE THE 100 YEARS OF PEACE.

OTTAWA, July 6—The suggestion made by McKenzie at Harvard that Canada and the United States should commemorate the one hundred years of peace between the two countries by the erection of a striking international monument is likely to bear fruit in joint action by the governments at Washington and Ottawa.

Sir Wilfrid Laurier is in concord with the suggestion and steps will be taken by the Canadian Government to invite the co-operation of the United States in arranging the celebration of the one hundredth anniversary of the close of the war of 1812-14 that will be to the whole world a striking object lesson in the victories of peace in settling international differences.

AERONAUT DROPS TO HIS DEATH.

PORTLAND, July 6—Mistaking the promiscos firing of revolvers by the crowd below as the signal for the climax of his aerial act, James Corcoran, aeronaut, cut loose with his parachute when the baloon was one hundred feet from the earth and was dashed to the ground, meeting almost instant death at the feet of 5,000 horrified spectators.
