

Abegweits Lose To Fredericton In Last Minute

McArthur Scored Winning Goal On Pass From Gammon One Minute From Final Bell.

FREDERICTON, N. B., Jan. 27. (By the Canadian Press)—With only one minute to go in the third period, Fredericton Capitals shot the single tally of their senior Northern League fixture with Charlottetown Abegweits tonight. After fifty nine minutes of that but scoreless hockey, Hymie McArthur took a pass from Clint Gammon and shot the puck between Stull's legs at close range. Charlottetown maintained it was offside, but referee J. H. Drummie ruled to the contrary.

THE SUMMARY

First Period
No score.
Penalties: Lawlor, Estabrooks, Bowman, McManus, Ferguson.
Stops: Bubar 11; Stull 10.

Second Period
No score.
Penalties: None.
Stops: Bubar 9; Stull 10.

Third Period
1—Fredericton, McArthur (Gammon) 19.
Penalties: Schwab, Bowman.
Stops: Bubar 6; Stull 11.

NEW LONDON ICE RACES

Another good race took place on the New London course on Tuesday, January 26th. Three classes were run, with good racing and close finishes in each class. The distance was lengthened to 1-3 of a mile. Correct time was gotten in only two heats, too many crowdings around the starter, causing poor visibility to the timers. The time made in Class B. pace was exceptionally good, being a 2.12 clip for the distance, with neck and neck finishes.

In Class A. Peter Keyes (Wm. Toombs) was in good form and won quite handily in three straight heats. Kitty Logan, (W. B. McArthur) was on rather bad behaviour making some bad breaks, but showing wonderful speed between times. Lacona (Geo. Woodside) went a good race, being very close to Peter Keyes in the first two heats. In Class B. Billy Witte (Walter Wigmore) a Premier Witte colt was quite a sensation, and great things are expected of him in the future. Prince Mac (Chappel) also did good work.

In Class C. Sport Todd (Turner Glydon) although advanced in years, gave an idea of "What might have been if trained in youth. Witte Premier (Chas. McMahon) is coming along nicely, and is liable to develop into a real race horse.

John F. (Geo. Brookings) is rather an unknown quantity and may yet surprise the fans.

SUMMARY
Class A.
Peter Keyes (Toombs) . . . 1 1 1

MONCTON 3 RANGERS 1

MONCTON, N. B., Jan. 27. (By the Canadian Press)—Overtime hockey was necessary to break a one-all tie between Moncton Hawks and Dalhousie Rangers here tonight. Moncton finally winning three to one. The Hawks shot two additional goals in the ten minutes of overtime. It was the final inter-sectional senior northern league fixture between the two teams.

WOLVERINES 6 KENTVILLE 3

KENTVILLE, N. S., Jan. 27.—(By the Canadian Press)—Halifax Wolverines handed Kentville Wildcats their eleventh defeat in the Eastern N. S. League here tonight, 6-3. The locals lost the game in the second period, when the Halifax aggregation ran in four goals in quick succession.

LEGALITES WIN
By actual audited count thus ended two periods of hockey warfare at the Forum last night. Though bloodless, no love was lost between the teams and it waxed fast and furious from bell to bell. Both goalkeepers displayed exceptional ability. Martin for the Legalites was invincible and Beattie was almost equally proficient and the only shots to escape him were ones that happened to be seen before the rubber could be fished out of the net. Due to the inability of the referee to keep up with the play, he missed two goals claimed by the Legalites. As there were no goal judges his count was 1-1. Needless to say he was a member of the Cosmo team. Duffry of the "Mops" showed vast improvement over last game, he, having had his skates reset and had the signal honor of scoring the first goal ever scored or recorded to the Cosmo team. Bill McDonald added strength to the Cosmopolites, but was unable to solve the Legal defense. Davies played his usual heady game and Collings was also effective. The Legal forward line use a smooth working combination to effect and were a constant threat to the Mops defense. At the request of a large number of citizens, the next game will be played on a night which does not clash with Senior league games being played.

KENSINGTON 3 BORDEN 2

Grabbing an early lead of two goals in the first period to add another twin shaker in the second chucker, the Kensington Granites margined the Borden Nationals by a 3 to 2 score in Bedouque Rink on Monday night last.

The Nationals counted in the second and third periods. The game was a regular Prince County League fixture. Charlie Cahill refereed.

The lineups:—
Kensington: — Goal, W. Hickey; Defence, E. Larter, J. Burns, G. Webster; Forwards, R. Jamieson, A. Bernard, D. Murphy, G. Cooke, I. Darrach, E. Bernard.
Borden:—Goal, Gaulet; Defence, D. MacPherson, Claude Howatt; Forwards, MacAleer, C. Howatt, T. Paquet, A. Campbell.

Juniors Will Play For Red Cross

Twenty young ladies were the afternoon tea guests of Mr. and Mrs. Harry Brown of the Queen Hotel on Monday afternoon. The young ladies were called together in connection with the campaign in aid of the Red Cross, and Junior hockey.

For Wednesday night, Feb. 3rd, a carefully prepared night of ice sports has been mapped out, built around a twin hockey bill in which all six Junior hockey teams will take part. In addition, there will be girls' races and boys' races for various ages, and a relay competition open to the Juniors. There will be other races open to the City Schools.

Proceeds of the entertainment go to the local Red Cross Society. The Juniors hope to benefit in attracting a large number of people to see them play who will become interested, and perhaps continue to patronize Junior hockey.

Mr. and Mrs. Brown, over the tea cups, explained the undertaking to the young ladies, and asked their cooperation in selling tickets for this most worthy cause. As a result sixteen teams were organized, and are now canvassing the city. The Red Cross should benefit materially from this scheme.

BAND TONIGHT

LOOKING 'EM OVER

(By Tec.)
A Tough Lose

After holding the Dalhousie Rangers to a zero ninety minute game in their own rink on Monday night, the fighting Abegweits again demonstrated last night at Fredericton that they are still in the ring and as full of fight and good hockey as ever. True, they lost the verdict on a fluke shot from a mix-up in front of the net in the dying moments of the game, but this in itself is enough to convince the home fans that the Abbies are yet worthy of their steel and logical contenders for a play-off berth in the Northern League, the hardest series of games ever waged in the Maritimes.

The Capitals are now tied with Abbies for second place in "B" section with a total point standing of 23. Fredericton and Abbies have each six more games yet to play. The former, of course have, what is considered two easy games with Campbellton and Bathurst, while Abbies have yet to play two with Fredericton, three with Moncton and one with Dalhousie. These six coming tilts look from the gate as if the hurdle is going to be a high one to clear. However, Abbies have four home games out of the six, and two of these with Moncton.

To do a little theorizing we will grant that Fredericton takes Bathurst and Campbellton, but will they be able to win from Moncton and Dalhousie in the latter's home rinks, where said games are scheduled. This is a big question and one which the Capitals have to answer. And again, Moncton Hawks, who are now well out in front as a result of their 3 to 1 win over Dalhousie, are by no means out of the woods. It will be remembered that Abbies took them for three in a row—and who knows, perhaps history will repeat itself, and further still they have another game with Fredericton besides playing Campbellton and Bathurst. The Tigers are always dangerous in their own rink, and that's where Hawks are due to perform.

Motored To Game

Mayor Rogers, of Amherst, who by the way is one of the leading hockey fans of his town, motored to Summerside on Tuesday where he attended the game between the Ramblers and Crystals. His work accompanied Roy Coates, F. K. Atkinson and A. C. Walker. This is the first occasion in many years that a hockey trip has been attempted from Amherst to Prince Edward Island by motor at this time of year.

Moncton Special

According to Moncton Exchanges an attempt is being made to charter a special train carrying hundreds of Hawk supporters to Charlottetown on Monday night, the scene of the Abbie-Moncton game.

Should the proposed excursion train become a reality, it will then be up to Charlottetownians to make things as pleasant as possible for the visiting fans. Let our slogan be, "sport for sport's sake," and let's show our New Brunswick brethren every kindness and courtesy possible.

Praise For Keating

The New York Sun greeted Jackie Keating's first appearance with the New York Americans, which although in error in some minor details shows what is thought of Keating in New York:

"The new forward Gerard put on the ice last night was a fellow smaller almost than Shrimp Warters—one Jackie Keating, known as the Flea in the Canadian-American League, and recalled only yesterday from the New Haven Eagles, farm team of the Americans.

"Keating plays centre ice and he made his major league debut on the third string line, flanked by Jeremiah and Kilrea. He seemed fast, but he was naturally a bit flustered in his new environment. He got in one close shot at the Chicago net but it was cleared by Gardiner like the rest of the Americans' tries.

Just a Kid

"Keating is young and green. He's only 23, but youth is the quality Gerard is seeking, and he thinks Keating will eventually fit into the machine here and be of assistance. Manager Eddie has done more shifting of his team this winter than any other manager in the league, and his shifts so far have worked out pretty nicely. Keating is rather a rawer hand than most of the new players taken aboard, but Gerard is a good judge of talent and he thinks Keating has a future.

"This is only Keating's second season out of amateur ranks. Gerard picked him up from the Saint John, N. B., Fusiliers last winter and placed him with New Haven, where he has given a good account of himself.

Clean Hockey

An Exchange says:
"The sporting fraternity want their hockey clean. They like good, solid bumping, to be sure, but when it comes to a point where a player may be maimed for life because someone loses his head momentarily, it's time to call quits. After all, it's only sport, and the fundamental of this term is founded on clean performances, whether the championship of the world is at stake or whether two teams are playing merely for the love of the game.

It is also true that some of those who go to hockey games care for a little additional action for their money in the way of a round or two of fistfights. Even this should be curbed. But when one, two or more weave their sticks around their heads, then it's time to mete out the strictest penalties possible. Rough hockey is not necessary, and dirty hockey should not be tolerated for a moment.

Ernie Mosher
The Fredericton Mail is publishing an interesting series of articles about the members of the Capitals hockey team. In speaking of Mosher, it says: "Mosher is considered by many the best center ice player in the Maritimes, and of the fact that he is the trickiest, there is hardly a doubt. Mosher's footwork, with the new rules of kicking in vogue, makes him effective, and the way he manages to hook a puck with his skate, scoot it into the opponent's territory, is quite uncanny. He uses a style of backing, poke-checking, skrimishing, that is unique."

SAYS JAPANESE

Continued from page 1

see Japan dominating all Asia, including Australia.

"Between her and this goal stands the United States. Therefore she plans for war. While other nations disarm, she arms. Manchuria is but a preparatory step for her greatest conflict in which she hopes to banish forever the influence of Western nations in the Pacific ocean."

Both Britain and the United States have kept about 1,200 marines each in Shanghai since 1927, when Chiang Kai-Shek's Nationalist forces threatened the city. These troops, had their routine broken up yesterday when they were ordered out to erect barbed-wire entanglements along the boundaries of the international settlement. Both British and United States authorities emphasized that their activity was "purely precautionary."

The World Disarmament Conference

Continued from page 1

Concurrently with the work of the preparatory commission, the league, by model treaties and draft conventions, has endeavored to advance arbitration as a means of settling international disputes. Outside the league, the Washington Naval Conference ten years ago limited sea Goliaths of the great naval powers but failed to limit cruisers and lighter craft. The London Naval Conference, as far as the United States, Great Britain and Japan were concerned, extended the limitations to other categories of war-craft. The Kellogg Pact outlawed resort to war as an instrument of national policy.

The draft disarmament convention prepared by the preparatory commission is only a skeleton. It lays down principles but includes no limiting figures. These are to be inserted by the conference itself; and to practically every provision of the draft convention some nation or other has made reservations.

The chief provisions of the draft convention are:

- (1) Personnel average daily effectives in land, sea and air forces and formations organized on a military basis to be limited.
- (2) Material budgetary limitation on the upkeep, purchases and manufacture of war material for land armaments.
- (3) Naval material limited by total tonnage with provisions controlling transfer from one category to another.
- (4) Air armaments, limitations to be placed on the number and total horsepower of aeroplanes capable of use in war, in commission or in immediate reserve, and in the case of dirigibles the limitation is to be placed on the number, total horsepower and total volume. An effort

DAIRYMEN

namely, mining, lumbering, fisheries and electric power. Whether the end of the depression is near or remote, we believe that the people of Prince Edward Island will face the issue with courage and fortitude and prove worthy of the traditions of their pioneer ancestors, who faced a more trying ordeal and came through victorious, leaving a heritage to their children. The clouds of adversity will roll away, and the sunshine of prosperity will again unfold itself.

Let us have a vision of a regenerated world chastened and refined from the dross of international selfishness and hatred which will hasten the good time coming "when man to man the world o'er will brothers be for a' that."

COW TESTING SERVICE

Address by Mr. C. J. Cook.
The Cow Testing Policy of the Dominion Live Stock Branch was introduced six years ago. During the year 1931, a total of 5,136 herds, including 49,724 cows, are completing records. This is an increase of 19,563 cows over the year 1930 and 37,682 more cows than in 1926, the year in which recording under this policy was started. The latest complete production figures available are for 1930, during which 43.62 percent of the cows enrolled were recorded from eight months to complete lactation periods. Two hundred and thirty herds, of 3,297 herds enrolled, averaged 300 pounds of butterfat and over per cow, of which twenty-eight herds averaged over 400 pounds of butterfat and three herds averaged over 500 pounds of butterfat per cow. In all, 2,350 cows, in the season of 1930, had records of over 300 pounds butterfat each. Of the 30,281 cows enrolled in 1930, thirteen thousand one hundred and eighty cows averaged 5,810 pounds of milk and 230.77 lbs. butterfat, with a test of 3.97 per cent.

This Cow Testing Service is conducted by the Branch in the Province of Alberta, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island and Quebec. The service itself is a simple plan for herd improvement, based on the information obtained through the recording of the milk and butterfat production of each cow, having as a basic principle the daily weighing of the milk of each cow and the testing of same for butterfat periodically. The daily record is the barometer which indicates each day every variation or fluctuation in the performance of the herd, promptly warning the herd owner and placing him in a position to check or remedy (before they have assumed serious proportions) troubles which may arise. The complete outline of the performance of the herd is made known through the results of daily milk yields and monthly and yearly summaries of production. This information stimulates interest and logical thought in the making and putting into action of plans for improving the herd.

Arrangements have been made with the Arena Rink in which we have obtained the ice. Our first challenge is issued to the Lawyers and we should like to play them on that occasion if agreeable. Our team, as in their own case is limited to six sixty minute men. We promise them a real battle and would appreciate it very much if they could accommodate us. Our line up includes: Goal "Red" Worthy, Defence Ken Ross and "Brick" Gormley, Forwards "Tee" Murley, "Bud" Woods and Cyril Arsenault. Please answer through the press by Friday.

COW TESTING REGISTER
The Cow Testing Register is a special feature of the Cow Testing Policy, in which provision is made for the issuing of certificates to the cows in a herd which have a minimum production of 6,000 pounds of milk and 300 pounds of butterfat, in twelve consecutive months. The service is limited to a few herds in each Cow Testing district, in order that the Dairy Promoter can give that close supervision to weighing and taking of samples as required by the Regulations.

For the year 1931, a total of 230 cows were entered from 16 herds. Fifty-nine certificates have been issued to date.

Statistics showing production data both for the Province and all Canada, were given

MACDONALD'S HONEY DEW

CANADA'S BEST BURLEY

If you like the rich, mellow flavor of Burley tobacco you can enjoy the very finest that the sunny fields of Southern Ontario produce and at one-third less cost than any other genuine Burley.

HONEY DEW is sold in PACKAGES—that is why a full one-tenth pound can be retailed at 10 cents.

To pack HONEY DEW otherwise would only increase its cost—it would not affect its quality.

10¢ THE PACKAGE
