### MR. BENNETT IN GREAT DEMONSTRATION AT OSHAWA

#### Scathing Indictment Of Government's Tariff Policy.—Adequate Protection Urged.—If Mr. King Wants To Make This An Independent Country, Let Him Say So, Declares Conservative Leader In Reference To 'Equality Of Status.'

(Canadian Press)  
OSHAWA, Ont., July 23.—Addressing several thousand people at a picnic here yesterday, Hon. R. B. Bennett, Dominion leader of the Conservative party dealt at length with tariff problems. He pleaded for an adequate protection for Canadian industry and deplored the exodus of population to the United States.

Speaking of the declaration of equal status of Canada and the establishment of foreign embassies, Mr. Bennett said: "What part is Mr. King bound for, if he wants to make this an independent country, let him say so," he declared. Mr. Bennett opened his address with a few complimentary remarks about Oshawa. He referred particularly to the beauty of the war memorials which he visited in Oshawa and Whitby. The people of Canada, he said, should see to it that their intelligent democracy was a fitting memorial to those who had given their lives for the country.

People could not live upon the past, they had to contemplate the present and the future. The Conservative party was merely an instrument to represent and effect the hopes and aspiration of today and tomorrow.

The genius and foresight of Canada made possible Canadian Confederation, declared Mr. Bennett. The age of consolidation passed with the work of McDonald and his colleagues not half done. The work of development which had been accomplished was also the work of the Conservative party. The party had built the railways, established means of communication and formulated the National Policy, which made possible Canada's industrial development, said Mr. Bennett.

"We have no mandate to think of other countries so far as our economic life is concerned," declared the Conservative leader, in emphasizing the value of the National Policy, which he maintained should still have a place. With continental free trade Canada could never have built up the prosperity and the industries which she now enjoys, he said.

"Our opponents, the Liberal party, have tried every fiscal system known to the minds of men. I have always been grateful for one thing to the Liberal party—they didn't carry out their policies in 1896. They followed the policies of the Conservative party," declared Mr. Bennett.

Oshawa, a few years ago, had some 8,000 population and now some 20,000 or 30,000 largely because there were more industries. Industry was given a chance to develop. At no time in recent years have the Liberals had a majority of votes of the people of Canada, he maintained. They secured their election by sectional appeals, promising high tariffs in the east and free trade in the west, the Conservative leader said. Eighteen thousand more people had left Canada in the last five years than had come into it. This was because

CAMPBELLFORD, July 23.—Trapped on the long C. N. R. bridge that spans the Trent River and Grand Road, Mrs. James Jacobs, 25, and her son, Lloyd, were killed Saturday afternoon. Two other children were barely able to reach safety, with sparks flying from the wheels as the brakes were desperately applied the train came to a stop a few feet too late. Attempting to place her child in safety the mother and boy fell from the bridge to the concrete of the Grand road, 30 feet below. ### MACKENZIE KING FOR GENEVA

(Special to The Guardian)  
OTTAWA, July 23.—It is probable that Premier King will go to Geneva in September as Canadian delegate to the League of Nations Assembly and also as a member of the Council of the League on which Canada has a seat. An announcement is expected at once. The Premier had expected an imperial conference next year and did not relish the two trips but advice has been received that there will be no conference in 1923. The probabilities therefore are that he will go to Geneva after returning from Saskatchewan where he is to spend the first two weeks in August.

OTTAWA, July 23.—The Prime Minister will attend the next session of the Council of the League of Nations as Canada's representative, this was announced officially this evening. Two cabinet ministers will accompany Premier King, these being Hon. Raold Dandurand, Government Senate leader and Hon. C. A. Dunning, Minister of Railways. The Premier and his two ministers will be present at the League Assembly in September.

It is Mr. Mackenzie King's intention to leave for Geneva a day or two following his return from his Western trip, next month he will pay a visit to his constituency at Prince Albert, Saskatchewan and will address several meetings enroute.

### GRENADIER GUARDS BAND THE BEST IN CANADA

#### World Famous Musicians Will Play Here At Arena Rink, July 30th. Under Auspices Of Local Gyros.

Citizens and Prince Edward Island lovers of music in general are no doubt anticipating with no little enthusiasm the visit here on July 30th, of the Grenadier Guards Band, which will give a concert under the auspices of the Gyro Club of this city at the Arena Rink. Charlottetown is indeed fortunate in having such a world renowned aggregation of musicians play here.

The famous band, located at Montreal, is without doubt, the representative military band of Canada at the present time. The band, numbering sixty performers, and uniformed precisely the same as the band of the parent Regiment in the mother country, presents a very smart military appearance. The musicians are enlisted in the same way as the Territorials in England, but it is the love of good music that keeps the men together and drives the hard work necessary for their annual series of fea-
