

GLOBE TROTTERS ON 48,000 MILE TOUR

Harry and Mrs. Humphries Arrived in the city Last Night—Interesting Tour.

Harry and Mrs. Humphries, who are known as the Kelsey Kids of New York City, are the guests of Mr. Sterns at the Queen Hotel, City.

They arrived last evening on the Northumberland and in their khaki attire and wide brimmed hats attracted no little attention at the dock, at the hotel and around the town through which they later took a short walk.

Mr. and Mrs. Humphries are on a tramping tour of the world which they expect to complete in three years and nine months time, having already traversed three thousand and ninety-four miles in three months.

They are taking up a wager of \$10,000 offered by the Polo Monthly Magazine to Mrs. Humphries and the conditions of the wager are that every foot of the land must be traversed by foot. No official record is kept of their travels but they collect certificates from the Mayors of cities, transportation companies and hotels of their presence and a part of the contract is to obtain the signature of every nation's ruler to a Flag of Peace which has already been signed by President Taft and Sir Wilfrid Laurier.

Their travels have been worthy of exceptional interest. They left New York on July 22nd, going to Montreal by way of Albany, Buffalo, Niagara Falls and Toronto, arriving on Sept. 10th. They then proceeded to Newfoundland where, at St. John's, they secured the great seal of Archbishop Howley, a treasure they prize highly. Travelling 550 miles through Newfoundland and 150 miles through Labrador they returned to Sydney, thence to Pictou and this city, coming over the guests of the Charlottetown Steam Navigation Company, to whom they feel grateful for the many courtesies extended.

They will remain in this city today and Mr. Humphries will prepare an article on the town for the Polo Monthly, he and Mrs. Humphries appearing at the Peoples Theatre to-night, where Mr. Humphries will deliver a lecture on their travels and previous experiences.

The latter is an Englishman by birth, 29 years of age and slight yet muscular in build and has lost fifteen pounds since leaving New York. He went through the Boer war and the China Boxer uprising and in 1898 he won a thousand pounds in a diamond ring and a medal for a 450 mile run between Johannesburg and Kimberley the time being 48 hours. When at the Guardian office last night he exhibited the medal and ring which were presented to him by the late Paul Kruger. He also won a twenty-five mile run on 4th July last in New York, his time being two hours and twenty-eight minutes.

THE FIGHTING BEFORE TRIPOLI

BERLIN, Oct. 19.—(By Wire)—A reliable correspondent of the Zeitung Am Mittag, where he escaped the Italian censorship, says that the station losses in nightly skirmishes in Tripoli are considerable, and that the stations ascertain that the Turks and Arabs are discouraged but their intentions to surrender are pure humbug.

BERLIN, October, 18.—Chancellor Von Bethmann Hollweg appeared in the reichstag today and reiterated the statements set forth in his letter to the speaker yesterday explaining the inability of the government to discuss foreign affairs at the present time.

He assured the house that it would be fully informed of the progress of current events before it was prorogued. This was in reply to interpellations concerning the Moroccan situation, the occupation of Tripoli by Italy and the Chinese revolution. For the moment the government, he said, could not participate in a discussion of these matters without endangering German interests.

HERALD CORNER STONE LAYING

MONTREAL, Oct. 19.—(By Wire)—The corner stone of the new building of the Montreal Herald in Craig street was laid this morning by Mayor Guerin.

TRAFFIC IN HUMAN FLESH FOR SPORT

ROME, October, 18.—Commander Simonetti, general secretary of the Italian anti-slavery society which has been working in Tripoli since 1899, gives an appalling description of the slavery still conducted there, despite the efforts of the society to liberate those in bondage. He says that the society provides the slaves with freedom papers, which the Turkish officials have dispersed derisively calling them "papers of the second slavery."

He tells of a Turkish steamer engaged in the slave trade, and says that when the slave markets were closed in 1900 the slaves were brought within a day's march of Benghazi, from where they were secretly embarked or returned to the interior. A common trick of the Turkish officials was to declare freed slaves Ottoman subjects because they had come from Mussulman regions, and so keep them under an influence favorable to their return to slavery. The greatest effort, he says, has been among the Senegal, who will have public markets at Abesir in Wadai, state of Central Africa, in the French zone of influence, and at El Fasher, the capital of Darfur, Egyptian Sudan, under the British domination.

The younger of the women slaves, he says, were sent to Toburk, and the gulf of Sotum, Tripoli, and were destined for Turkish harems. These slaves were chained at night and acts of disobedience were punished with death. At Silton, not far from the city of Tripoli, Simonetti says that a slave was killed in such a barbarous fashion that a woman was present with a statement that he possesses a long list of so-called respectable Turks who indulge in the traffic of human flesh simply for sport.

MONTREAL, Oct. 19.—(By Wire)—The last rail on the C. P. R., new grain route from Victoria Harbor to Bothany was laid yesterday.

GOVERNOR WILSON HIGHLY PRAISES CANADIAN LAWS

H&CKENSACK, N. J., October 17.—Addressing a gathering of democrats here last night, Governor Woodrow Wilson told a thousand hearers that Canada was a generation ahead of the United States in the regulation of corporate business, in her banking system and in her currency system.

Canada rejected the reciprocity agreement, he said, because her people feared that by adopting it they would open the door to the evils that prevail in the business system of the republic.

3RD QUEEN'S BYE-ELECTION NOVEMBER 12

Candidate is Nominated by Liberal Convention

The date fixed for polling in the bye-election in the Fort Augustus or Third District of Queen's, a seat made vacant some time ago by Premier Palmer's acceptance of the office of Attorney General, is Wednesday, November fifteenth.

At a largely attended convention in Eldon Hall yesterday afternoon Fred J. Nash, City, was nominated as Councillor to contest the Fourth District of Queen's in the interests of the Liberal party.

Mr. Vickerson, the convener, presided. Wilfred Forbes, Vernon River, was proposed, but declined the nomination. Mr. Nash, in accepting the nomination, made a short speech and he was followed by Dr. Martin, Capt. McMillan, Premier Palmer, D. P. Irving, Finlay McRae, J. St. C. Moore, Alfred Brehaut, T. W. Morrison and a number of others.

Mr. Nash will be opposed by Prof. McPhail, Orwell.

Kenneth J. Martin, City, had been nominated as the Liberal candidate but his acceptance of the appointment of Stipendiary Magistrate for the City of Charlottetown rendered a new nomination necessary.

LIBERAL-CONSERVATIVES HAVE RALLY

The Liberal-Conservative Hall was crowded last evening—in fact the hall would not hold the numbers who desired admittance—on the occasion of a rally of workers, friends and supporters of the party.

P. C. Brown, President of the Young Liberal-Conservative Association, presided.

Addresses were delivered by Donald Nicholson, M. P., A. A. McLean, K. C. M. P., W. S. Stewart, Dr. S. R. Jenkins, P. S. Brown, L. P. Tanton, Dugald Currie and others.

ENORMOUS LIBRARIES DEPRESS ROSEBERY

GLASGOW, Oct. 16.—Lord Rosebery today. The library cost \$500,000 and will accommodate 400,000 volumes. In his address Lord Rosebery said the subject of libraries had been exhausted by the 220,000 platitudes uttered at the opening of the 2,200 libraries given by Andrew Carnegie. His lordship said he was not disposed to give libraries his unqualified benediction. These enormous collections filled him with a hideous depression. An enormous collection like that of the Mitchell library had a stupefying, paralyzing, rather than an encouraging effect. Without the appetite for discriminations, Lord Rosebery said, it was futile to provide libraries.

NOT INVESTIGATE PUBLIC WORKS DEPARTMENT

OTTAWA, Oct. 18.—The department of public works is to be investigated. Hon. F. D. Monk has been informed there is something little more than a week, but meanwhile he has come across things which made plain the need of enquiry and reform. He has asked the cabinet for the appointment of a commission to go into the whole of the department, although the personnel has not yet been determined.

It will probably be two experts who will privately make a careful inquiry into all contracts, transactions and leases, including those of water powers, etc., made by the late government, and report to the minister as to conditions which have prevailed, along with recommendations for future action.

What was necessarily a superficial inquiry by the minister has brought forth abundant evidence of many questionable transactions and more careful investigation will doubtless lead to interesting developments. Mr. Monk proposes to run the department on a business basis.

An intimated previously it is highly probable that all the spending departments will be enquired into, but a start is to be made with the department of public works.

EXODUS THEORY AND THE CENSUS

OTTAWA, Oct. 19.—(By Wire)—The theory that a million Canadians went to the United States in ten years and thus accounted for the failure of the census to show the natural increase has been upset.

The American figures show that only a quarter of a million settlers went from Canada during the ten years.

The Minister of Railways has allowed work to be resumed on all the National Transcontinental contracts; except the Quebec terminal.

A BOY SHOOTS ANOTHER BOY

FREDERICTON, Oct. 19.—(By Wire)—A fatal shooting occurred at Penniac yesterday, resulting in the death of Howard Christie, fourteen year old son of John Christie.

He was gunning with several companions and was shot through the head by Thos. Wade, aged nine years.

TREE PLANTING BY PRISONERS WORKS WELL

OMAHA, Neb., October 18.—Prison camps in New Zealand in connection with government afforestation plan were described to the American prison congress here today by James A. Kayll, advisory visitor of the prison department of New Zealand. These camps, he declared, have a very important part in the prison system of that country. The objects of the plan he described as twofold, to provide healthy and useful occupation for prisoners amidst surroundings quite unrelated to their former habit of life, and to accomplish useful labor for the state without coming into competition with free labor.

"Both of these objects have certainly been gained," said Mr. Kayll. "The sites chosen for the camps are at a considerable distance from close population and in districts noted for their invigorating climate. The prisoners are out all day working at hard manual labor either on the hills or the plains. They develop keen appetites and sleep well. The result is a rapid improvement in physique, a much more contented mind and the formed habit for sustained industry. The state also benefits considerably, for every year several hundred thousands of trees are planted on the hills or the plains. Work does not compete with free labor inasmuch as the government could never get a suitable number of men to take up the work under such conditions as are necessary to make it a possible undertaking."

TLACK SHEEP OF THE FAMILY

BOSTON, Oct. 18.—Awakening from sleep and recognizing a burglar who had broken into his house and was rifling his clothes as his own, son, Chas. C. Coombs, a former police officer of Malden, chased the man to the street in an endeavor to capture him last night, and failing, swore out a complaint and appeared against him in the Malden police court today. The father told the court that the young man, William Coombs, who is 24 years old, had been the black sheep of the family. Although the son denied that he was in his father's house last night, the elder Coombs maintained that he was not mistaken in his identification and William was held in \$2,000 bail or the grand jury.

Rebels in Yang Tse Valley. Other Nations May Become Involved

SHANGHAI, Oct. 19.—(By Wire)—Six packed steamers have arrived from Hankow carrying refugees. The refugees declare that the whole Yang Tse Valley from Hankow to Shanghai is in the hands of the rebels with the possible exception of one or two of the largest cities to which private officials have retired with the available troops.

Copies of the Central China Post arrived on the Belgavia. An editorial article comments on the manner in which the revolution was conducted.

"The movement demands the admiration of all parties," says the editorial, "but the massacre of the Manchus in our three cities is a ghastly blot on the reputation of the revolution."

LOS ANGELES, Oct. 19.—(By Wire)—That the revolution in China, whether successful or not is liable to involve other powers of the world in conflict, the proposed treaties, notwithstanding, is the opinion of Rear Admiral R. D. Evans.

SPEAKS OF PEACE AND OF GOODWILL

AIX LA CHAPELLE, Rhenish Prussia, October 18.—Emperor William today unveiled a statue of his father, Frederick III, in response to a toast at a banquet given by the burgomaster, following the unveiling, and in which the host had referred to the martial power of the German people and the emperor's efforts to maintain the same, his majesty did not take up the theme, but instead emphasized the firm bonds of love and confidence uniting prince and people, despite all references of party, class and religion. The emperor referred in affectionate terms to his father who, he said, had often talked to him as a boy of the necessity for re-establishing the ancient imperial throne of Germany, declaring that "Barbarossa must be freed from Kuffhausser."

This was a reference to the legend of Barbarossa sleeping imprisoned in the mountains to reappear and unite the Germans in time of peril.

"For myself," said his majesty, "I grew up with a full admiration and respect for the imperial crown and its noble treasure. It is a source of many blessings to the fatherland and all Germans can look to it with the fullest confidence."

RUSSIA'S PREMIER A POLICE VICTIM

ST. PETERSBURG, Oct. 17.—Russia at present has no interest in anything except the extraordinary evidence before the commission presided over by Senator Tronosevitch which is making an inquiry into the assassination of Premier Stolypin in the municipal theatre at Kiev a month ago.

That correspondence of leading members of the Okhrana, or third division of the secret police, shows that they had divided among themselves lucrative posts in the new regime before Stolypin went to Kiev. Referring to Stolypin's "unexpected departure," the correspondence shows that Bogroff, the assassin, was alone assigned to his protection. Bogroff's record showed that he had betrayed sixty revolutionists in the last five years. Six of these were hanged and twenty-three were sentenced to penal servitude for life.

The hostility of the Okhrana to Stolypin had been bitter since over a year ago, when he insisted that they should make an accounting for their expenditures. When Stolypin heard that his murder had been arranged in St. Petersburg, he said to his adjutant,—"If I am murdered it will be by a police agent."

AN ISLAND MAN FATALLY INJURED

Word was received in this office by telephone last night that Everett McLeod, formerly of French River, had been fatally injured by an explosion while handling a trunk in the Baggage Room of the C.P.R. Lacombe, Alberta, in which he was the Baggage Master. The accident resulted in his death eight hours after the occurrence. The explosion very badly wrecked the building and Mr. McLeod's assistant was also very seriously injured. The body was expected to arrive last night at Hunter River, accompanied by the deceased's brother Eugene and his uncle, John Bernard, both of Lacombe, and the funeral will take place from the former residence of the deceased at French River to the Geddes Memorial Church tomorrow at two o'clock, p. m. The sad accident will arouse the sympathy of the many friends of this deceased and his family both in his native province and in Lacombe, where he had been located for the past few years and was held in high esteem.

GET BACK TO THE LAND

Don't you see, Billy Boy, that if you were out there in God's open country in the sunshine and the rain joyed contributions by distinguished babies would thrive like kittens? Don't you know that your own eyes wouldn't have that yellow look? Oh, Billy Boy, don't you know that you would feel like a man inside and outside if you stood on your own little piece of ground instead of living in a rented town house and working for a master? The man on the land is no man's man. He is the master of his fate, the captain of his soul. He can be neither starved or scared. Though every factory whistle in the world were to stop blowing, he can eat three times a day and sleep under his own roof at night. Go out somewhere to the man who is already on the land and ask him if he will trade jobs with you. It will do you good to have him laugh in your face. Get down on your knees and bury your face in the alfalfa and listen to the hum of the bees. Smell the cool sweetness of the soil and lay your tired cheeks against the bosom of your mother earth. And, tomorrow morning early, make a dicker for a little farm of your own.
