

Good Equipment Makes A Good Farmer Better

NIAGARA DUSTERS. Introduced last season in Horse and Tractor models with initial sale of fifteen units and proven to be the modern, effective and easiest method of preventing insect and blight damage to potatoes. A one-man operation, taking eight minutes to dust an acre. New type dust adheres to foliage in dry weather. Now on display in our show room. Tractor models have to be ordered from factory with mountings to suit individual tractor used on, so must be ordered at least three weeks before required.

PEDLAR BRAN EQUIPMENT. Stanchions, Litter Carriers, Automatic Water Bowls, Hay Carriers, Track and all fittings. Our special factory-built showroom display stand displays each article.

SERVEL REFRIGERATORS. The last word in a Refrigerator built for country homes or stores where no electricity available. Makes own ice and has no moving parts. Call and see it.

GRAY-SNYDER POTATO PICKERS. Over one hundred now in use on P. E. I. and demand increasing. We have never been able to fill late orders, so please let us have yours now to ensure delivery.

MCCORMICK-DEERING FARM EQUIPMENT. The continued demand for this world-wide line of implements cannot yet be met by International Harvester factories and we are rapidly being sold out of Haying Tools for the season. We have a few Side Delivery and Self Dump Hay Rakes, Horse and Tractor Mowers still available. Farmall Tractors have been in short supply, but we expect an improvement in shipping schedules in the future. Every farmer knows the Farmall and its outstanding reputation and if you book your requirements we hope to be in a better position from now on to fill your orders. There is a size for every farm.

A limited number of Grain Binders, Tractor and Horse Plows, Potato Diggers, Feed Grinders (new type), Small Engines, etc., available for harvest and fall.

CREAM SEPARATORS, MILKERS AND MILK COOLERS. Made by International Harvester, embodying the latest engineering, designs and sanitary principles, acquired through years of production.

INTERNATIONAL MOTOR TRUCKS. Immediately available half-ton to two-ton sizes and a used K8S-5 (two speed axle) with hoist and body completely re-conditioned in our own Service Station and in perfect condition, priced below actual cost.

SERVICE. We operate our own Service Station with Harvester Company approved mechanics, trained to give high class service on any truck, tractor, engine or farm machine. No job too big or too small. Acetylene welding work given prompt attention. While we specialize on International products, any other make will receive the same guaranteed workmanship.

PARTS. Our parts stock is 50% greater than last year and our aim is to carry on hand at all times what you need to keep your International and McCormick-Deering Equipment in operation. Some portions of our stock orders are still back ordered at the factories, but conditions are gradually improving.

COME IN AND SEE US FOR YOUR NEEDS AND WE WILL DO OUR BEST AT ALL TIMES
