

The WEEKS Canada Silver Fox Furs Limited expect with average success to pay a dividend of 60 p.c. THIS FALL—with Mr. Weeks' usual success they will pay much more.

The Company has five pairs of highest grade Silver Black Foxes, two pairs of which alone raised nine pups last year.

The ranch is owned by the company and is perfect in every detail. The whole in charge of Mr H. B. Weeks, of Tryon, one of the most successful ranchers in the world. He has never lost a pup or had a pair that did not breed.

For prospectus and application forms apply to the Secy-Treas. Par value of shares, \$25.00. 2170-4-25mtf

Your Chance to Invest in a 1914 Dividend Paying Fox Co is S-l-i-p-p-i-n-g Away

Just a week or so now—perhaps a few days—and your last chance to invest in Taylor's Silver Black Fox Company Ltd., will have slipped past you.

And Taylor's is the company that GUARANTEES a dividend of 40 p. c. or more this year—this fall. This means that your money will be idle only a few months—and then certainly bring in splendid earnings.

TAYLOR'S COMPANY has every advantage a good fox proposition should have—moderate capitalization; purest bred stock; both young foxes and proved breeders; on ranching expenses for this year—and every cent of the earnings goes right into the shareholders' pockets.

Wouldn't you like to have some of the big money that will be paid Taylor shareholders this fall?

STEAM NAVIGATION WHARF.

DAYLIGHT SAVING GROWING POPULAR

The late King Edward himself practiced daylight saving on lines similar to those proposed in the Parliamentary Bill. For many years at Sandringham he caused clocks to be advanced thirty minutes during the summer months, and in the last two years of his life he caused the same rule to be observed at Windsor and Balmoral, and said he was favorably disposed towards the Bill.

So far 285 members of the House of Commons have expressed their approval, including Liberals (Mr. Churchill, Mr. Lloyd George, and Mr. Birrell amongst them), Conservatives (Mr. Balfour, Lord Charles Beresford, and Mr. Austen Chamberlain), Labor members, and Nationalists. Fifty members of the House of Lords have also said "Aye!" including Lord Roberts, Lord Rosebery, the Duke of Devonshire, and the Bishop of London. Many railway companies support the Bill which Mr. William Willett is pushing vigorously while favoring resolutions have also been passed by four county councils, 655 city corporations and town and district councils, 78 chambers of commerce, and innumerable other important bodies.

Everybody now knows the scheme, or should. On the third Sunday in April it is proposed that standard time shall advance 60 minutes, and on the third Sunday in September recede 60 minutes. The little change would be done in the early hours, and we should know nothing about it—except that on every day between those dates we should move about in one extra hour of sunlight. This would mean a yearly gain of 154 hours of daylight, equivalent to 17 holidays of nine hours each. In artificial light alone Mr. Willett estimates that we should save at least \$12,500,000 a year.

Thin Folk Who Would Be Fat

INCREASE IN WEIGHT TEN POUNDS OR MORE.

A Physician's Advice.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man and woman. Such result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken "up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat the nutritive process must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugar and starches into rich, ripe nourishment for the tissues and high state of cultivation the balance covered with an excellent growth of hard and soft wood. It is within 4 miles of the thriving port of Souris, and convenient to Catholic and Protestant churches, school, cheese factory, grist and saw mills.

The buildings consist of good dwelling with orchard attached one barn 100 ft x 26 ft., with manure shed attached one barn 40 x 20 ft., (both have concrete floors.) granary, henery, piggery, wood-house, boiling house, ice house, and a machine-house. All in excellent repair.

This farm fronts on Rollo Bay where any quantity of sea manure can be obtained at any time. This farm has taken first prize in farm competition for the year 1911. I invite inspection. Wm. R. Webster, Rollo Bay West. 1867-4-9mt891.

Hair Goods

Miss D. Rudge, 171 Great George Street, Manufacturer of all kinds of fine hair goods, including the latest in wig and Youpes. 1632-3-26Mt8131pd.

All Goods Must Go

All goods in the store are being cleared out at exceptionally low prices. No reasonable price refused for some goods, and others priced so low you cannot refuse to buy. Don't forget the place—The store occupied by Simon Joseph. 1837-4-9Mt89Nontf.

Society Nicknames

The Duke of Portland is known among his intimates as "Jumbo," on account of his somewhat stout and rotund appearance. Nicknames are growing even more popular than they have been in society circles. The Marquess de Soveral is known as "Blue Monkey"; Lord Stamfordham, King George's private secretary, as "Stammy"; the fondness of Lord Londdale for horseflesh has led his being dubbed "The Groom"; Prince Albert, second son of King George, is known as "Lobster"; and the Marquess of Crewe as "Hobbit." The fact that the editor of "Punch" is now Sir Owen Seaman promptly led his friends to give him the nickname of "S.O.S."

Desirable Farm For Sale

The undersigned offers for sale his beautiful farm, situated at Rollo Bay West, containing 176 ac. of land 130 of which is cleared and in a very high state of cultivation the balance covered with an excellent growth of hard and soft wood. It is within 4 miles of the thriving port of Souris, and convenient to Catholic and Protestant churches, school, cheese factory, grist and saw mills.

The buildings consist of good dwelling with orchard attached one barn 100 ft x 26 ft., with manure shed attached one barn 40 x 20 ft., (both have concrete floors.) granary, henery, piggery, wood-house, boiling house, ice house, and a machine-house. All in excellent repair.

This farm fronts on Rollo Bay where any quantity of sea manure can be obtained at any time. This farm has taken first prize in farm competition for the year 1911. I invite inspection. Wm. R. Webster, Rollo Bay West. 1867-4-9mt891.

Bonshaw, Charlottetown Ferry Service

SEALED TENDERS will be received at this office until noon on THURSDAY, APRIL 30th, 1914

from any person or persons willing to contract for the above service in accordance with time table and conditions to be seen at this office.

Parties tendering must supply a boat of draft suitable for this service, capable of carrying not fewer than twenty passengers and 8 tons of freight. She must also be capable of maintaining a speed not less than 8 knots per hour.

Parties tendering shall state for what annual subsidy they will perform this service for a period of from two to five years.

The Department does not bind itself to accept the lowest or any tender.

Tenders to be addressed to the undersigned and marked "TENDERS FOR BONSHAW & CHARLOTTETOWN FERRY SERVICE." L. B. McMILLAN, Secretary of Public Works, DEPARTMENT OF PUBLIC WORKS Charlottetown, P. E. Island. April 16, 1914.

Better than a Lump of Gold

Such is an investment in the Sovereign Silver Fox Co., of St. Louis. Because such an investment will procure you a life annuity by giving you an immense dividend every year beginning with 1915

Write for our prospectus and see what the Hon. Chas Dalton says about our foxes. Twenty two P. E. I. Cos., paid in 1913 cash dividends averaging 170 p. c. and, in addition several of these Companies paid large stock bonuses. The dividends of 1914 should be fully 20 p. c. higher. Note carefully the following features which distinguish our Company from other Companies organized in 1914.

In October 1914 we pay a dividend of at least 10 p. c. but expect it to be considerably larger, from 4 pairs of registered foxes now in our ranch. To these we will add 11 pairs of this spring's pups making in all 30 foxes of the highest grade.

We will ranch foxes at actual cost. Compare this feature to Companies which are capitalized on low grade stock at what they claim is a low capitalization when the first call on the profits for ranching is from 15 p. c. to 30 p. c. The sweetnip of low price, wobb equal the bitterness of poor quality.

The Presidents of the two largest Incorporated Fox Cos., in the world have invested with us and their reason for so doing as one of them stated is the quality of our foxes which, considered together with the fact that our shareholders get all the profits, our capitalization is very moderate. Are you satisfied with 3 p. c. or 5 p. c. interest when your neighbors who are in the business are becoming richer day by day.

Here is your opportunity to get into this larger Co., with all pure bred foxes and a guaranteed dividend next October, and ranching and all expenses to that date free of cost, and after that date at mere cost. Do not hesitate when fortune knocks at your door. Our stock is selling fast. Fill in your application today and mail to any of the directors, or any branch of the Royal Bank or to the Secretary.

Form of Application

I hereby make application to the Sovereign Silver Black Fox Co. of St. Louis, P. E. Island to take the number of shares set opposite my signature below. Par value \$10.00 each. I enclose 50 p. c. of the amount so applied for and will send the balance on or before the expiration of 60 days from this date.

How About Your Crops this Year, Mr. Farmer?

Are your crops going to be any better this year, just the same, or a little worse than they were last season?

It all depends on yourself, for if you use our English Unmixed Fertilizers your farm will be built up to its best state of productiveness; you will get a larger and better crop, your produce will command a higher market price; the land will be in better condition for next year—and none of this will mean a large outlay of money or extra work on your part.

Ask Your Neighbor About Our Fertilizers

If your neighbor has been successful at crop cultivation, ask him to what his success is due. Ten chances to one he is a user of these UNMIXED FERTILIZERS, and that means that his fields are fertile, his land in splendid condition and he himself enjoying a splendid profit from his big and good crops.

For, remember this, Mr. Farmer, you have to pay back the elements of soil

fertility that you use up each year in crop cultivation before you can expect a big or good crop for the next year. A scientist has estimated that a 35 bus. wheat crop removes from every acre of soil 59 lbs of Nitrogen, 24 lbs of Phosphoric Acid and 31 lbs of Potash, so you see that unless this is paid back before the next cultivation your land will not be in the right shape to produce the good and large crop you expect.

---Bigger Crops for YOU

A big point in favor of these Unmixed Fertilizers is not alone the fact that they save you 25 per cent of your money, which is true, but you can mix them yourself and apply single ingredients or combinations to suit the varying needs of every plot or any crop.
