### A Splendid Showing of Snappy Styles In Spring Clothing For Men

Just arrived fresh from the manufacturers hands--a dashing assortment of new spring clothing full of dash and go which well dressed men want—

Thir presence is a pleasing respite from the sombre colored and heavy garments of winter, a sight of them is as refreshing as a spring breeze.

We are not going to try to describe them in detail suffice to say, they are made in the smartest of the new spring styles and each garment is a master-piece of the clothing making art.

You've read and heard a lot about what is to be fashionable for spring wear, but now is the first opportunity to see the most favored styles. A word about prices are actually only half what any really good tailor will charge you. If you are some tailors customers just come in and let us show you through our stock, your own eyes--your own judgement--will convince you of the truthfulness of our claim.

### Spring Wash Fabrics

First Showing of Tub Goods radiant with the Colorings and Beauty of Spring.

The song of the spring time is in every beautiful coloring and enchanting weave of these new goods.

They seem to tell the story that winter is not for long and a single glance at them will start visions of the new dresses for summer and what they shall be.

New muslins, Anderson's and other makes of fancy gingham, print cottons, fancy Foulards and other high grade weaves, are here, all in the colorings and weaves, upon which fashion has put her seal. Handsome fabrics as good as they are beautiful.

These early arrivals have been most alluringly priced so much so in fact, that we doubt if you will be able to resist their double appeal to your sense of beauty and to your purse. Come and delve among these exquisite goods for which the tub has no terrors. Buy or no buy, you will be made welcome.

It has repeatedly been proven there is in this city quite a number of vocalists who are possessed with no mean talent. This is commendable in many ways but at the same time it would not be wise for those who desire to exercise their talents to allow their musical ambition to interfere with their daily duties. A few days ago a certain employer in this city, accompanied by his spouse and left his home for a short time and in their absence the gentleman's employees, who worked nearby, invaded his house and, assisted by a stranger whose acquaintance with a piano was hearsay, they proceeded to rehearse all the good old songs they knew, in a short time the front of the house was surrounded by a crowd not unlike the usual throng around an auctioneer at a sale, all of whom were endeavoring to distinguish the music from the discords. Some of them say the old songs were most popular with the singers but others assert that the greater number of the tunes attempted, which are still grating on sensitive ears have not yet been recognized in the disguised form in which they were presented. A vocal tutor might be able to accomplish something with one or two of the voices performing, but with the others--well, music teachers are not all wonder workers.
