PULPIT SERMONS ON WOMEN.

Few Things Said by Ancient and Modern Divines on Momentous Subject.

Why Eve was made from the rib of Adam has been explained by a witty sage of old. If she had been created from his mouth, she would have talked too much; if from his feet, she would have gone about too much; if from his ears, she would have listened too readily; but she was made from a rib, which is near the heart, to show that she must always be dear to man.

An English preacher in the seventeenth century spoke in similar fashion when he said, with the text, "To be or not to be," that woman should be like and unlike three things. She should be like a snail, always keep within her own house; but not like a snail, to carry all she had on her back. She should be like an echo, to speak when she was spoken to; but not, like an echo, always to have the last word. She should be like a town clock, always keep time and regularity; but not, like a town clock, to speak so loud that all the town might hear her.

A preacher in the reign of Charles II. was to receive £10 if in his sermon at the funeral of Madam Creswell he said nothing but well of her. She was rather a bad character and herself had dictated the clause in her will. So, after a general address on mortality, he thus concluded: "By the will of a deceased sister it is expected that I should mention her and say nothing but well of her; therefore is this: She was born well, she lived well and she died well; for she was born with the name Creswell, she lived in Clerkenwell and she died in Bridewell."—The Sunday Magazine.

LIGHT ON MEDICAL QUESTION

Scientific Analysis of the Ability of Individuals to Weep "Tears of Blood."

The belief that certain individuals are able to weep tears of blood is of such antiquity that the German equivalent for "bitter tears" is "blutige thranan," "bloody tears." There seems, however, no authentic instance of blood being actually secreted by the lachrymal gland.

Micas has published a very interesting article on real and false tears of blood. It is a clinical study on conjunctival hemorrhage. Some years ago the author was consulted about a boy aged 12 years who, from the slightest cause, such as laughing, or sometimes apparently for no cause whatever, wept tears of blood—an occurrence often repeated several times a day. The lad was pale and enervated from constant hemorrhage.

The source of the bleeding was the tarsal conjunctiva, which was covered with fine papillae, and light cauterization with the galvano-cautery resulted in a cure.

This case led the author to study the literature of the subject. He found that in none of the cases cited is it certain that the blood did not come from the conjunctiva or from the lachrymal passages. He feels that it is unwise to deny the possibility of sanguineous secretion from the gland, but that examples in which other sources cannot be shown to be present must be exceedingly rare.

Borneo Inviting to Naturalists.

There is no country in the world more inviting to the naturalist than Borneo. Here are found the flying squirrels, flying foxes, flying lizards, flying frogs, and the natives report flying snakes. Among the most noted birds is the little swift Collocalia Nidifica. Their nests are eaten by the Chinese, and are regarded as a great luxury. These birds build their nests in limestone caves of a glutinous saliva which they produce from their glands; no sticks or any other foreign substances are used. The collection of these nests is an important industry with the natives, though they pay a tax on all they take to market. The value of those exported from British North Borneo in 1907 was $35,924. They are served at the great feasts of the Chinese, especially at weddings.

Asthma Plant of Queensland.

The euphorbias are very numerous in the colony of Queensland, and among them is the euphorbia pliulifera, the "Queensland asthma plant," which has a remarkable reputation for curing this troublesome complaint. Several pharmaceutical preparations of the plant are extensively sold in Australia. Analysis shows that a green plant contained 79 per cent. by weight of water and three per cent. of ash, leaving 18 per cent. of vegetable matter. A dried plant contained an alkaloidal substance equal to about 1 part in 1,000. It contained also a glucosidal substance to the amount of not more than 4 parts in 1,000. Possibly one or both of these was the active principle of the plant.

Schisms That Seem Small.

Two religious sects who hated one another bitterly were found by Sven Hedin in Tibet. Searching for the cause of this aversion he found that one of the sects believed that the prayer wheel should turn to the right, while the other was convinced that the wheel should turn to the left. In the region of the Bramaputra he found a mountain which is so sacred that whoever walks around it 13 times has all his sins forgiven. The result of this belief is that criminals from far and near infest this region. When Sven Hedin started to ride around this mountain on his horse the pilgrims informed him that that would do him no good.

OF INTEREST TO TOWN AND COUNTRY.

Holly, mistletoe and Xmas decorations. Last season many were disappointed, they came at the eleventh hour, like onto the virgins of old, seeking oil for their lamps, and behold there was none for them.

We have the holly, we have the green vines, and other holiday decorations, why not secure some now.

Holly per lb 40c; for 5 lbs 35c per lb, for 10 lbs 30c per lb no reduction on those prices.

The holiday season most everyone wants some celery, (or should want it) in many places in the country and small towns, celery is not procurable, and for such we are packing up nice ($1.00) one dollar boxes of celery shipped to any address desirable—(send cash please with order.)

There are also hundreds of rich farmers that have not the time or inclination to grow vegetables, indeed it would not pay them to do so—more money in pork, milk, produce and stock &c for them. To such we would say, just call at our daily market and see what a dollar will buy in the vegetable line. The health of your family demand it.

We have still left from our immense importations of onions about 2½ tons of the choicest stock. For the ballance of this month they go at 10 lbs for 30c. Choice hand picked beans are high but 10 lbs go for 45c.

Tea—we handle only the famous Haszard's Brahmin tea if you have not received the genuine Haszards, (we have been fooled ourselves) You are sure of it here. In the vegetable department we have many lines including celery, beets, carrots, parsnips, onions, squash, pumpkins sprouts, potatoes, turnips and many others not mentioned. Our canned goods include peas, corn, tomatoes, salmon, table syrup, green beans, etc. Some of our own growth and picking of ripe tomatoes left at 85c per doz cans.
