

### Dislocated Elbow Led To Neuritis

#### Could Not Straighten Her Arm

Four months ago, this woman dislocated her left elbow. Although the elbow was properly set, she developed neuritis and could not straighten her arm. She was ordered to take Kruschen—with the happy result described in this letter.

"I had an accident four months ago, and my elbow was seriously dislocated. Fortunately, it was set right there and then, but afterwards I could not straighten the arm to its full extent. It was X-rayed, and the surgeon told me I was inclined to be rheumatic. I was ordered to take Kruschen Salts—one teaspoonful in a glass of hot water on waking. Now I am getting along famously. The pain in my elbow is better, and, daily, I am able to extend the arm more easily."—(Mrs.) P.

Rheumatic conditions are often the result of an excess of uric acid in the body. Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals. Other ingredients assist Nature to expel these dissolved crystals through the natural channels.

#### FISHERMEN CAPTURE POT-HEADS FOR OIL

ST. JOHN'S, Nfld., Oct. 12.—(C.P.)—Newfoundland fishermen have adapted themselves to the task of catching all kinds of fish in all kinds of ways, but residents of the Chapple Arm district at the head of Trinity Bay used a unique method to catch pot-heads—a whale-like fish—with considerable success this year.

Last winter, Thomas Hallett of St. John's, heard that pot-heads were plentiful in the waters of the Chapple Arm during the summer, and told the fishermen he was sure there would be an American market for pot-head oil if it could be obtained.

All through August, when the regular fishing was poor in Trinity Bay, the Chapple Arm fishermen put out in their motorboats every time they saw a school of pot-heads. The motorboats, swung to the outside of the fish, would drive them shoreward, there to flounder in the soft mud, an easy mark for harpoons.

After capture, the pot-heads were dragged up on the beach, the fat removed and rendered into oil in huge boiling pots. Casks of oil were stored all through the season, ready for shipment to St. John's and thence to the United States.

When two Chapple Arm schooners arrived in St. John's with the season's "catch" they had aboard more than 200 casks of pot-head oil. With the money received the fishermen were able to buy many of those little luxuries that usually they must do without.

### Court Rejects Move To Unseat Black

WASHINGTON, Oct. 11.—(AP)—The United States Supreme Court brushed aside today two suits challenging the right of Justice Hugo L. Black to sit upon the nation's highest tribunal.

It refused to consider ouster actions proposed by Albert Levitt and Patrick Henry Kelly, attorneys, who contended Black is constitutionally ineligible for the office. Chief Justice Hughes announced neither had sufficient interest in the case to justify instituting proceedings.

The battle to unseat Black was not ended, however. Levitt declared immediately that other courses of action were open to him and that he would make use of one, or another, of them. Kelly brusquely accused the court of evading the issue.

### SUFFERED 40 YEARS FROM CONSTIPATION

"For 40 years, I had been praying for a lasting remedy for constipation and its evils. Finally, I tried Kellogg's ALL-BRAN. Since that time (nearly 10 years ago) I have not taken any medicine. Have been well and entirely free from constipation."—Mrs. I. H. Kendig (address on request).

Don't let common constipation ruin your life. You can end it safely, without using drugs that soon lose their effectiveness.

Just eat two tablespoonfuls of Kellogg's ALL-BRAN every day—with every meal in severe cases. Serve as a cereal with milk or fruits, or cook into appetizing recipes. ALL-BRAN absorbs more than twice its weight in water and gently clears away the wastes that cause headaches, tiredness and serious illness.

The vitamin B in ALL-BRAN helps tone up the entire intestinal tract. Buy ALL-BRAN from your grocer. Guaranteed by Kellogg in London.

## CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. Our Managers have knowledge of each local situation and are in touch with crop conditions in all sections of the districts mentioned.

#### GENERAL

Harvesting operations are virtually completed in Manitoba and Saskatchewan, and are generally well advanced in Alberta, although rain has caused delays, particularly in the northeastern and central districts. The Sanford Evans statistical service estimates the average wheat yields on the basis of the acreage sown as follows: Manitoba 18.6 bushels, Saskatchewan 2.7 bushels and Alberta 9.2 bushels. A large percentage of the wheat is grading No. 3 or better. In Quebec province threshing returns reveal that cereal yields on the whole are light, but in most districts root, fodder and canning crops are giving satisfactory yields. In Ontario the various grains, including husking corn, have all been adversely affected both as to yield and quality by excessive moisture during harvest, but fruits are a heavy crop and tobacco the best on record. In the Maritime Provinces, fine weather has favoured harvesting but yields are below average owing to the spell of hot dry weather during midsummer. In British Columbia grain yields are below average, hay and all fodder crops abundant, roots and vegetables good average crops and tree fruits satisfactory. Details follow:

#### PRAIRIE PROVINCES

ALBERTA—Wheat yields of about ten bushels to the acre in Peace River, where threshing has been completed, are disappointing. In the northwest harvesting is well advanced. Rain has halted operations in the northern and central areas, where considerable grain is in stock and further deterioration probable. There is ample feed in all districts except the southeast. Harvesting of the beet crop has commenced and yields will be about average. SASKATCHEWAN—Except at a few scattered points, threshing operations are completed. The total wheat production is small, but the quality of the grain is generally satisfactory. While some good local rains have fallen, further precipitation is required as soil moisture reserves are still inadequate. MANITOBA—Threshing is almost completed. Yields of all grains are substantially higher than last year, but quality of the wheat is lower. Rains have been general and soil moisture reserves on the whole are good.

#### PROVINCE OF QUEBEC

EASTERN TOWNSHIPS AND OTTAWA VALLEY—Threshing of wheat and coarse grains is about completed and while the returns vary in districts, yields on the whole are reported below average. Canning peas are a light crop this year. Tomatoes and sweet corn yielded abundantly and there is a very good crop of fodder corn. Potatoes and other root crops look promising and digging is now under way. The apple crop is about average in quantity and quality. Pastures are still in good condition. Tobacco is of good quality and the yield is above average. LOWER ST. LAWRENCE AND LAKE ST. JOHN DISTRICTS—The threshing of grain crops is well advanced although some interruptions were caused by rainy weather. Oats and barley are the main cereals grown in the district and satisfactory yields are reported. Fodder corn is a good average crop. Digging of potatoes is in progress and although the quantity and quality are good some loss will result from rot. Grass pastures continue in good condition.

#### PROVINCE OF ONTARIO

Yields of oats and barley were variable and a large percentage is of only feeding quality. The yield of husking corn is below average. Fodder corn is a heavy crop and harvesting is proving difficult due to lodging. Pasture has remained in excellent condition. A heavy crop of fair quality hay has been stored. Excessive moisture adversely affected the yield and quality of field tomatoes in the southwestern sections while production in eastern Ontario was above average. Root crops are generally satisfactory. Fruits of all kinds are a heavy crop except late varieties of apples. Harvesting of tobacco is completed. The yield is the largest on record and quality is above average. Autumn weather conditions have been satisfactory and farm operations are well advanced, with fall wheat germinating well and showing healthy growth.

#### MARITIME PROVINCES

In Prince Edward Island the harvesting of a fair crop of cereal

grains has been completed. Digging of early varieties of potatoes is under way with returns estimated 65% of average. In Nova Scotia and New Brunswick the cereal crop harvest estimate is 20% below average. The digging of potatoes is progressing and in most districts a crop of average yield and quality is anticipated. Despite the loss through gales of over 25% of the commercial apple crop in the Annapolis Valley, the yield is now expected to be fairly close to last year's 1,750,000 barrels. Late apples are colouring well.

#### PROVINCE OF BRITISH COLUMBIA

Grain threshing is completed with yields and grades below average. A heavy crop of hay has been cut. Corn and other fodder crops are yielding well and feed is plentiful in all districts. Late potatoes have suffered some slight loss from blight. A fair to good tomato crop has been delivered to the canneries. Other roots and vegetables are yielding average crops of good quality. Harvesting and marketing of good average crops of peaches, plums and prunes are nearly over. The picking of apples is at the peak and shipments are gaining headway. Apples are of good quality and colour. Pasture is above average for this season of the year.

#### ORGANIZE JUNIOR RED CROSS SOCIETY

The pupils of Albany school held a meeting on September 29th, to organize a branch of the Junior Red Cross in their school. The following officers were appointed:— President—Mildred Walker. Vice-President—Kathleen Boulter. Secretary—Lois MacKay. Treasurer—Eileen Walker. Program Committee—Convenor, Elma Large. Health and cleanliness committee—Convenor, Mary Gamble. Thirty-three pupils joined the society. The members decided to hold their meetings every two weeks. The first was held October 1st, and Roll Call answered with, "Where I expect to meet my husband."

A meeting of the Tri Sigma Branch Junior Red Cross was held on October 8th, in Albany school. The President, Mildred Walker, occupied the chair. Lois MacKay acted as secretary. The minutes of the previous meeting were approved as read. Twenty-three members answered the Roll Call.

The secretary reported that she had received no correspondence. The Treasurer reported that she had received 35c since the previous meeting from the sale of Red Cross calendars and magazines. The Circulation Manager was absent. It was reported that she had sent for ten Red Cross Magazines.

A number of members volunteered to pick potatoes one half day each for the benefit of the Society. It was moved by Kathleen Boulter and seconded by Mary Gamble that the secretary write to the Red Cross Headquarters, asking for a list of health songs, recitations, or readings to be used at the meetings. It was moved and seconded that next Roll Call be answered with, "An amusing personal experience."

The Health Committee Convenor distributed papers for records of gain in height and weight each month. The following program was then presented:—Duet, We are little Juniors, by Vodia MacKay, and Jeanie Boulter. Recitation, The Golden Key, by June Campbell. Reading, Our Adjustable Language, by Eileen Walker. The program was completed with a spelling match, the winner in the senior grades, was Eileen Walker, in the junior grades, Kathleen Dawson. The total receipts from the meeting were forty-eight cents. The meeting closed with the singing of the National Anthem.

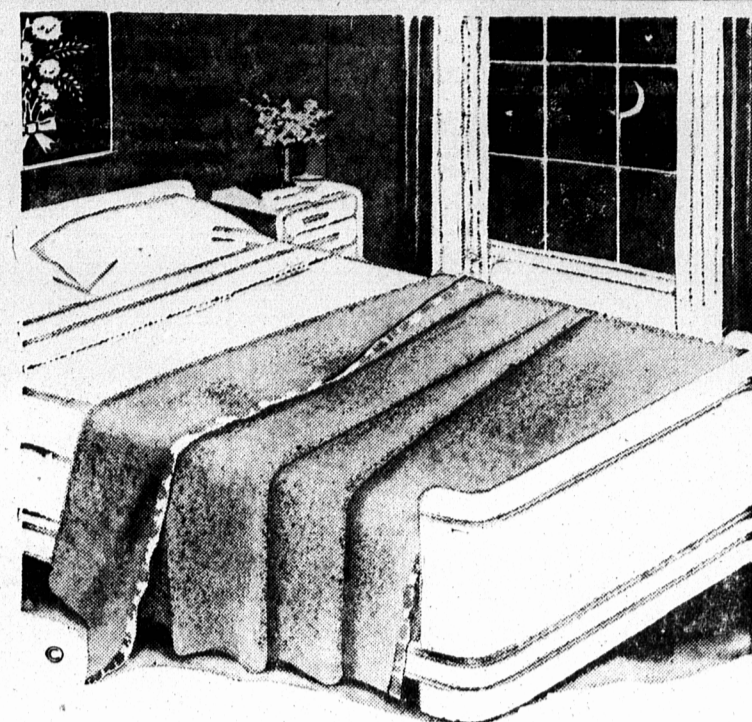

#### NEW ANNAN SCHOOL

Monthly Report of New Annan School for the month of September:—

Grade X-1. Tessie McInnis; 2. Lloyd Clark; 3. June Dalzell. Grade IX-1. Charles Waugh; 2. Phyllis Moase; 3. James Tuplin. Grade VIII-1. Ruth Enman; 2. Kenneth Rayner; 3. Isaac Tuplin. Grade VII-1. Ruth Dalzell. Grade VI-1. James MacMillan; 2. Eleanor Dalzell; 3. Reggie Dalzell.

Grade IV-1. Florence Durant; 2. Lloyd Enman; 3. Gardiner Dalzell. Grade III-1. Louise Dalzell; 2. Lloyd Manderson; 3. Ella Tuplin. Grade II (Sr.)-1. Clifford Moase. Grade II (Jr.)-1. Elinor McInnis.

Grade I (a)-1. Keith Moase. Grade I (b)-1. Doris Dalzell; 2. Betty Tuplin; 3. Mildred MacNeill. Perfect Attendance:—Tessie McInnis; Louise Dalzell; Lloyd Manderson; Elinor McInnis; Doris Dalzell. Teacher, M. H. Connell. —B.

## To-day you save on "Seconds" in fine Sheets

If these very lovely sheets were not "seconds" they would cost you \$5.00 per pair. Our linen department had a chance to secure these at a bargain... and we're sharing it with you. The measurements are all given in FINISHED LENGTHS.

69 x 86" ——— 79c each  
70 x 86" ——— 89c each  
76 x 86" ——— 89c each  
63 x 105" ——— 1.09 each

#### FINISHED LENGTHS

81 x 96" ——— 1.19 each  
81 x 96" ——— 1.29 each  
81 x 104" ——— 1.49 each  
81 x 100" ——— 1.49 each

Hemstitched Pillow Cases, sub-standard. Best qualities 42 x 33" ——— 59c pair

Hemstitched Pillow Cases. 42 x 33" ——— 35c pair

Rayon Bedspreads, Colors Rose, Gold, Green and Blue, full size 80 x 100" ——— 1.89 each

Cannon Bath Towels, Heavy quality size 22 x 45" Reg. \$1.35 pair on sale at ——— 1.09 pair

Clearing lines of Wabasso Print Cottons and Broadcloths 36" wide ——— 15c yard

Unbleached Cotton Factory Ends 45" wide ——— 7c yard

Suedene Card Table Covers, Standard sizes in assorted colors. A special from the mill 59c each

Celanese Tailored Filled Bedspreads 88 x 100" guaranteed fast colors in Rose, Blue, Gold, Green and Helio. Worth \$4.75 clearing 3.98 each

Rayon Bedspreads, Colors Rose, Gold, Blue, Green, Mauve and Rainbow stripes, Sizes 72x90" 1.79 each Regular 2.15 for ——— 1.79 each

#### CANDLEWEAVE BEDSPREADS

72 x 100" ——— 1.98 each  
80 x 100" ——— 2.19 each

Hemstitched Linen Huck Towels with damask borders. 75c pair Size 17 x 32"

Irish Line Glass Towels with colored borders 17 x 28" ——— 7 for 1.00  
20 x 30" ——— 5 for 1.00

Lace Table Cloths, made in Scotland Size 72 x 90" clearing 1.59 each

## KENWOOD Special Blanket

all pure wool  
60 x 84 inches

\$3.98 each

We were fortunate in securing another lot of this "special" Kenwood... all pure wool, heather colouring whipped in blanket stitch... a real bargain.

# Moore & McLeod Limited

Teacher, M. H. Connell. —B.

#### BEACH POINT SCHOOL

Report of the standings in the different grades for the months of August and September:—

(Senior Department)  
Grade X-1. Eileen Keeping; 2. Robert Jordan. Grade VIII-1. George Harris; 2. Bessie Keeping; 3. Edward Jordan. Grade VI-1. Lucy Strickland;

2. Ruth Keeping; 3. Muriel Penny. Perfect Attendance:—Eileen Keeping, Bessie Keeping, John Harris, Ruth Keeping. Teacher, Archibald Johnston. (Patriot Feast Copy)

#### MARITIMERS OFF ON HOLIDAY VOYAGE

MONTREAL, Que., Oct. 13.—The liner Lady Somers, Canadian National Steamships, left her dock at 9 p.m. this evening for a 25-day round voyage to Bermuda, the

Bahama Islands and Jamaica carrying a near capacity list of passengers to these southern resorts. Among those embarking will be Mr. and Mrs. A. R. Fay of Stone ton, N. B.; Mr. and Mrs. Loran H. Baker, of Yarmouth, N. S.; Mrs. Bessie Baird and Miss Audrey MacNaughton of Saint John, N. E. In addition to these, are passengers from Toronto and also from various cities in the United States taking a trip to these countries in the Caribbean Sea.
