**SHOP from Holman's Catalog**  
**UIGG SERVICES.**—Services will be held in the Baptist church at 2:30 p.m., and in the Baptist church at Eidon at 7:30 p.m. Sunday, July 26th.

**HAMPTON.**—United Church of Canada, Hampton at 11 a.m., Try on at 3 p.m., Bonshaw at 7. Rev. Wm. Swan, of Debec, N.B., will preach.

**BEDOUQUE** United Church of Canada, North Bedouque at 11 a.m., Traveller's Rest at 3:30 p.m., Free town at 7:30. Rev. D. K. Ross, minister.

**ACKNOWLEDGEMENT.**—The Treasurer of the Protestant Orphanage wishes to acknowledge with thanks receipt of \$41.15 from Kin. William L. O. L. Kingston collection taken at the annual Orange Service.

**MURRAY RIVER SERVICE.**—On Sunday, July 26, the Sacrament of the Lord's Supper will be observed in the United Church, Murray River. Services at 10:30 a.m., 6:30 p.m. Preparatory service Saturday evening at 7:30. The pastor will be assisted by Rev. D. McGowan, Georgetown.

**THE ARCHIVES EXHIBITION IN CHARLOTTETOWN.**—It was a good fortune for Charlottetown to have the war pictures exhibition now on view at the Provincial Building, and which includes an interesting collection of historical material, manuscripts, maps and plans relating to Prince Edward Island. The exhibition will close Thursday evening, so that people who have not yet visited it should not fail to do so. It is a lesson in history as well as in heroism, as it depicts in pictures and writing the deeds of our part and the valor of our men in the last war. It is a highly educative as well as a recreational and interesting exhibition that is showing a useful purpose.

**WEDDING BELLS.**—St. Anne's Church, Hope River, was the scene of a pretty wedding, when Rev. Father W. V. McDonald united by the holy bonds of matrimony, Miss Loretta Martin, daughter of the late Mr. Exavier Martin, and Mrs. Samuel Doiron, and Mr. Peter Doiron, son of Mr. Leon Doiron, both of Martin's. The bride looked beautiful in white silk with radium lace and picture hat to match. She was attended by Miss Cecile Gallant, who wore a dress of brown silk crepe de chine, with hat to match. The groom was ably supported by Mr. Frank Martin, brother of the bride. They entered the wedding march, played by Miss Emilie Doiron. After the ceremony the wedding breakfast was served. A few hours later, Rev. Father McDonald arrived, and the near relatives of the bride and groom, to which a sumptuous dinner was served. The evening was pleasantly spent in dancing and music. The large number of valuable presents and substantial cheques go forth to testify to the popularity of the young couple. Mr. and Mrs. Doiron have the sincere wishes of all for a happy wedded life.

**WEDDING BELLS.**—Long Beach, Calif. At a pretty ceremony performed by the Rev. George P. Taubman at the First Christian Church Friday evening Miss Catherine Stone became the bride of H. I. Gartland. She wore a charming frock of white georgette and was attended by her sister, Miss Mollie M. Stone, groomed in salmon colored silk crepe. Robert T. Hart, a close friend of the bridegroom, acted as best man, immediately following the ceremony the bridal party enjoyed a pretty appointed dinner at the Virginia. The young couple will make their home at the Donnie V Court, 929 Linden Avenue. (Pat-riot please copy.)

**VISITING THE ISLAND.**—Among the passengers who crossed the Strait from Cape Tormentine to Port Borden on the 17th inst., was the Rev. Brother Ambrose Jerome, F. S. C., who is at present visiting his relatives in Kinross, born and raised in Kinross, Brother Ambrose (Michael G. Cunningham) has for the past thirty years been a member of the Institute of the Brothers of the Christian Schools, a congregation founded and established in the City of Rheims, France, by St. John Baptist De La Salle, in the 17th century. For over twenty five years Brother Ambrose's best energies have been devoted to the Christian education of children in the New York Catholic Protectors, an institution located in Bronx County, New York City, for the up-building and reformation of wayward boys. The Rev. Mr. Brother A. Paul, brother of Mr. Pius Macdonald, Peake's Station, is the rector of the establishment. In Morell Brother Ambrose is the guest of Mr. and Mrs. J. A. Cunningham and Mrs. J. M. Kenny, Byrne's Road.

**PERSONALS**  
Miss Dorothy McDonald, York, is visiting at North River, the guest of Miss Christine McPhail.

Miss Pearl McDonald, Charlottetown, is visiting at her home in York.

Mr. Russell Sampep and Miss Edna McDonald, Charlottetown, spent Sunday at York, the guests of Miss McDonald's parents.

Mrs. Thomas Somers and her niece, Miss Ruth Hill, of Kensington, returned home after a short visit to Mr. and Mrs. Henry Burgess. Mrs. Somers also attended the unveiling of the soldiers' monument, she having lost a beloved son in the Great World War.

Misses Marie and Julia Graham, Bradalbane, were recent visitors to the city, in company with Mr. and Mrs. Daniel McPherson, of Boston, Mass., who motored to the island and are visiting friends in Alberton, Bradalbane, Montague and many other points.

**Freimann-Gallant Nuptials**

The many friends of Mr. and Mrs. Anthony Gallant of Milwaukee Wis., formerly of Rustico, P. E. I. will be interested in the following sketch from the "Milwaukee Herald":

"A nuptial event of unusual interest to many friends of St. Patrick's parish, was celebrated Wednesday morning at 7:30 o'clock when Rev. T. Pettit of St. Patrick's church, united in marriage Miss Anna Gallant, daughter of Mr. and Mrs. Anthony Gallant and Mr. Cyril Freimann of Milwaukee of the firm Freimann Sporting Agency Co.

The bride looked charming in a gown of blue pointed tulle embellished with grey straw hat trimmed with grey georgette and carried a shower of yellow roses and white sweet peas.

The bridesmaid was Miss Mary Freimann who wore an ensemble dress of the grove green with bodice and skirt of tulle and green figured silk. Her hat was white leopards with rose flowers and she carried a bouquet of pink carnations and sweet peas.

The groom was supported by Mr. John Gallan of Milwaukee, Miss Frances Weeks presided at the organ and played Lohengrin's wedding march as the bride entered the church, and appropriate hymns were sung during the nuptial Mass.

The altar and sanctuary were beautifully decorated with colored lights, flowers and palms, by the friends of the bride and added much to the solemnity of the marriage.

Immediately after the service the happy couple left on the St. Paul train on a two weeks' honeymoon trip which will be spent at Waukesha Lake, Wis.

The wedding presents were numerous and varied, and an important tribute to the popularity of the bride in her own parish.

Mr. and Mrs. Freimann will take up their residence in Milwaukee and have the best wishes of their friends for future happiness and prosperity."

"HANDLING NATURAL SWARM"

(Experimental Farms Note).

"There is a swarm of bees clustering in one of my trees what shall I do?" comes the telephone message.

If you have no beekeeping equipment, invert a box over the cluster and smoke or crowd the bees up into it; then place hem where you wish to have the bees.

A beekeeper would use a complete hive containing frames of full sheets of foundation or drawn comb and would have a smoker going in case of need.

To prevent the swarm from deserting, open brood is often used.

If procurable, or an excluder is placed between bottom board and hive body.

If the bench on which the swarm is clustered is unimportant, it should be cut without disturbing the bees, carried to the hive and the bees shaken from it in front of the entrance. Direct bees into the hive by a few puffs of smoke.

Should the cluster support be immovable, brush jar or crowd of smoke bees into a box from which they are dumped in front of the hive entrance.

In case of a queen with clipped wings, procedure is more simple. While the swarm is in the air, the clipped queen should be found on grass a few feet from the hive entrance, and caged. Next, move the old hive to a new location, substituting in its place a complete hive, already described, and stack the partly-filled supers, removed from the old hive, above. The caged queen is placed in the entrance and all is ready for the swarm which soon returns and enters the new hive in search of the queen. When a goodly number of bees have entered the hive, the queen is released and enters too; then all again start work with renewed vigour.

**BUCKWHEAT AS A FARM CROP.**

(Experimental Farms Note).

Buckwheat is a valuable addition to the general run of farm crops. It often serves as a means of making extra money by rounding out the farm business rather than replacing some other important crop. Undoubtedly more buckwheat would be grown if its advantages were better known and understood.

Buckwheat has sturdy traits which make it valuable in many ways. It is one of the most successful poor-land crops that can be grown. It has the added advantage of generally being sown in early summer when the usual rush of spring seeding is over, and at the same time requires about a little labour to handle as any crop worth growing. It is practically immune to insect and plant disease pests.

On account of its rapid growing habits, buckwheat makes an excellent green manure and for the same reason a valuable in check the growth of weeds. The Cereal Division has found that by growing two crops of buckwheat in succession and ploughing each under as soon as the first flowers bloom, we can control couch-grass almost invariably.

Buckwheat is a real money crop to the bee-keeper and a few acres of this crop will mean a considerable source of nectar for the bees. The average yield of buckwheat runs from fifteen to twenty bushels per acre but yields of thirty recorded and very favourable conditions. The much and the demand is usually quite steady.

Buckwheat requires a cool moist climate and under average weather conditions a crop will mature in from eight to eleven weeks.

As far as soil is concerned, buckwheat does well on almost any soil, as long as it is well drained, but it does its best on sandy or light loams. While the seed will germinate and grow on light, dry soil, the yields will be reduced, especially during periods of drought. On heavy, rich soils, it is inclined to lodge, and this tendency makes the crop difficult to handle at harvest. The yield is not lowered, however, if the crop is grown on good land.

There are three main varieties generally grown, but the ones most commonly found are Silver Hill and Japanese. The amount of seed to sow varies from two to five packs depending on the type of soil it is sown on. The lighter soils require more, and the better land, seed. The crop is generally sown any time from the middle of June till the middle of July, the earlier seeding is more apt to be blasted if a drought occurs when the blossoms appear.

The crop is harvested as soon as the first seeds are fully mature, the remaining seed and the better land, seed. The crop is generally sown any time from the middle of June till the middle of July, the earlier seeding is more apt to be blasted if a drought occurs when the blossoms appear.

It has been found that sweet clover seed may be sown quite safely with buckwheat and usually will add very considerably to the feeding value of the straw. In fact, these crops go very well together, both thriving under essentially similar conditions.

It has been found that sweet clover seed may be sown quite safely with buckwheat and usually will add very considerably to the feeding value of the straw. In fact, these crops go very well together, both thriving under essentially similar conditions.
