

Don't Neglect Your Watch

If you allow your watch to run too long without cleaning, or with damaged parts it may be worn so badly as to destroy its usefulness as a timepiece. Better have it examined by your Watch Doctor and if in need of repairs he will advise you accordingly and perhaps save your watch.

WE BOAST on our repair department turning out first-class work only. **WE GUARANTEE ALL OUR WORK**; if you have not given us a trial it will pay you to do so and we will be pleased to see you at **GREAT GEORGE STREET.**

CITY AND COUNTRY NEWS.

S. J. THOMAS, Truro, will take the position of Manager of the Charlottetown Milk Co., on the first of June.—Truro News.

FRACTIOUS LONG TOM.—While celebrating the relief of making the cannon that was loudest in greeting Her Majesty's representative at Mutch's Point broke a number of windows in the houses in the vicinity of the freight shed.

Mr. A. LORD received a telegram on Friday evening, stating that the steamer Brant which left this port in the morning for Picton to take in coal had blown out her steam valve and that she was leaking. The Brant will probably go on the slip.

ARBOR DAY IN KENSINGTON.—Arbor Day was celebrated by Kensington school Friday with enthusiasm. About 100 pupils were present who, under the direction of Principal Carruthers, aided by his assistant renovated the school building, cleaned up the grounds, planted trees and otherwise beautified the grounds. Special thanks are due to J. T. Mullin, Esq. who kindly furnished the trees for planting. Work was alternated with games of football, baseball and other amusements, and in the evening when the pupils were dismissed they expressed regret that Arbor day is only once a year.

TRURO NEWS.—H. L. Chipman's appointment as manager of the Plant Line of steamships, is another feather in our cap and gives us additional reason to be proud of our brainy young Nova Scotians.

Mr. H. L. Chipman, the new manager of the Plant Line of steamers, says from the hundreds of inquiries he has had about the Maritime Provinces, that this season's tourist travel will be away in excess of previous years.

MANY people in city and country will be pained to learn of the demise of Mrs. Samuel Howard, which occurred at an early hour Saturday morning, at Cornwall. Mrs. Howard had been ailing slightly from asthma for several years, but on Friday, a week ago, she was taken suddenly ill with pneumonia. She retained consciousness even to the last hour and although one of her sons, the Rev. Benjamin Howard, of Maine reached her bedside only a few hours before death. The sons are: Rev. William Howard of Pownal, Rev. Benjamin, of Maine, and Rev. Samuel, of New Brunswick, Golding, of Cornwall, and Frank on the homestead. The daughters are Mrs. Weeks of Fredericton, P. E. I., Mrs. Abbott of Princetown Road, Mrs. Stetson of St. Peter's Road, Mrs. Hinton of Summerside and Mrs. George Crevys of Kingston.

Mrs. W. S. Stewart, of Charlottetown, is the guest of her sister, Mrs. Fred. C. Jones, of Lewisville.—Moncton Times.

H. B. C.—Special meeting of the Hillsborough Boating Club to be held this evening on Peake's No. 1 wharf at 7:30 o'clock to arrange matters concerning the new boat house.

At the Boy's Brigade Concert in the Opera House this evening, the St. Cecilia Club, will play two charming Scotch selections, under the talented leader Miss E. Murphy who is deserving of every praise.

REV. W. HARRISON, of Bathurst, N. S. who is now in Montreal undergoing medical treatment, has been advised to relinquish the Tryon circuit to which he was going and take a prolonged rest.

THE S. S. Cacouna, Captain McPhail, the first Black Diamond boat to arrive here for the season, entered port at 10:15 o'clock last night, having left Montreal on Sunday, the 6th inst. The passage was a fair one, fine weather prevailing up to yesterday. Charlottetown and Sydney were called at. The ship brought a full general cargo, 60 head of cattle, 56 sheep and 14 horses.—St. John's Telegra. n.

REV. DR. STEELE, of Amherst, writes the Sackville Post as follows:—A short time since one of our people from Westmorland found at the house where he was staying in Manitoba, an old account book, in which was given the names and amounts of those who helped to build the old Baptist meeting house at Point de Bute. The book takes us back three quarters of a century to 1825, and is interesting not only as showing the generous spirit of the olden time, but also that the same families are almost without exception still clinging to the Point de Bute ridge.

The service in Grace Church last evening was of a missionary nature. Rev. Dr. Chapman of Point De Bute delivered an able missionary address. Notwithstanding the inclemency of the weather the attendance was large. Several exercises on the subject of missions were rendered, one of which illustrated Bishop Heber's "From Greenland's Icy Mountains," by eight girls. Another "For Christ and the Church," by twelve girls, each carrying a banner on which were inscribed names of different countries. A number of the girls of the Mission Band of the First Methodist Church took part. Back of the platform were four large banners representing Greenland, India, Africa, Rivers and Plains. Directly above the platform was the motto "The World for Christ."

Rev. McLean Sinclair occupied the pulpit of Zion church. In the evening he preached an able sermon from the text "The Spirit and the Bride say come and let him that heareth say come, and let him that is athirst say come, and whosoever will let him take of the water of life freely."

The Glasgow syndicate who are interesting themselves in the cultivation of sugar beets in Ontario, are offering six prizes for competition among the farmers at Pelham, in Welland County, and the same number at Aylmer, in Elgin County, the amount in each case aggregating \$105. The competition takes place amongst those farmers who are associated with the experiment in raising sugar beets to be afterwards tested at the Guelph Farm. For the purpose of the experiment fifty quarter-acre plots at Pelham and Aylmer are being seeded, the plots being within a radius of seven miles of each village. The prizes will be awarded for the best yield of beets containing the largest quantity of sugar. Prof. Shuttleworth will visit each section at intervals in order to see that operations are being carried on in such a manner as to ensure the greatest possible amount of success. Arrangements are being made for planting sugar beet seed at Newmarket, where Prof. Shuttleworth lately delivered an address on beet cultivation. The department is also in correspondence with parties at Warton with a view to giving instructing in sugar beet growing at that point.—Toronto Globe.

The closing exercises at Acadia College, Wolfville, will take place June 3rd to 6th and promise to be of considerable interest. Rev. Kerr Boyce Tupper, D. D. of Philadelphia, will preach the baccalaureate sermon on June 3 and deliver the annual lecture before the Senate on June 5. Other speakers will be Rev. D. H. Simpson, of Berwick, and at the seminary closing Mr. Charles Archibald, of Halifax. The college has just received a donation of one thousand dollars from the New England Alumni Association, to be applied to the Alumni professorship endowment. The closing program is as follows.—Sunday, June 3rd, 11 a. m.—Baccalaureate sermon by Rev. Kerr Boyce Tupper, D. D., L. L. D., of Philadelphia 7 p. m.—Address before college Y. M. C. A. by Dr. Tupper. Tuesday, June 5 10:30 a. m.—Class exercises by graduating class 2:30 p. m.—Closing exercises, of Horton Academy; usual exercises, with address by Rev. D. H. Simpson. 7:30 p. m.—Closing exercises of Acadia Seminary; usual exercises, with address by Mrs. Chas. Archibald, of Halifax, vice-president of the Women's National Council. Carters' for Wall Paper

As announced the pulpit of the First Methodist Church was occupied yesterday morning by Dr. Chapman and in the evening by Dr. Paisley of Sackville. Both services were eloquent and forceable and aided in bringing the educational work of the church before the congregation.

It is rumored that, owing to the change which is to be made in the chemistry department of the faculty of medicine at McGill University next year. Dr. Girdwood will resign as professor of chemistry at the close of the present season. Nothing was known by the faculty with regard to the doctor's intentions, although it was admitted that the conditions attached to Sir William Macdonald's recent gift of \$100,000 to the department of chemistry at the university would probably necessitate some changes.

THE TRACADIE LAZARETTO.—In Parliament on Tuesday, Mr. Prior was informed by Mr. Fisher that there are nineteen patients in the Tracadie Lazaretto. Of these, fourteen are from New Brunswick, one from Prince Edward Island, three from Manitoba, and one from Nova Scotia. Mr. Fisher added that he had been informed that there were lepers on D'Arcy Island in British Columbia, but he had been requested to remove them to Tracadie, and the Dominion Government had refused to assume the cost of their maintenance in British Columbia because such patients were legally a charge upon the province.
