The North Sydney Herald says: And still the importation of foxes keeps up from Newfoundland, a stringent law to the contrary. Monday morning another batch of the costly fur-bearing little animals arrived here on the steamer Ivermore. The boxes were consigned to Charles Howard, Charlottetown, P. E. I. and the three contained something like twelve of them. Fox dealers there claim that this continual discrimination against the every day fox dealers in Newfoundland in favor of some parties, is most unfair and a disgrace to decency and fair play. Only the other day a dealer here returned from Newfoundland. He went in quest of a silver grey fox, caught some time ago by a poor trapper, who still retains the fox. The local gentleman was prepared to pay \$1,000 for the little animal, but on account of the law which went into effect on the 10th of last month prohibiting the exportation of foxes from the Ancient Colony, the transfer could not be made. Yesterday A. Gardini, of St. George's, who is one of the pioneer fox dealers in Newfoundland, was in town on his way back from a visit to the famous Rogers' fox ranch, Alberton, P.E.I. He said the law as it is at present worked in Newfoundland is only a farce, and was disgusted with the ruling spirits when told of the continued shipments of foxes from that Colony. To the ordinary person with no axe to grind, it does seem that the law regarding the exportation of foxes from Newfoundland is a farce, pure and simple—if not, indeed even worse.

The Veedee Great Success

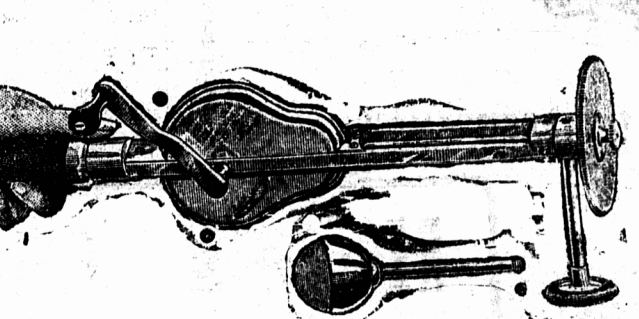

Enthusiastic Audience Witness Marvellous Result at the Kindergarten Hall Free Consultations Given There Today

Another Demonstration Next Tuesday

A most representative audience, which included many of the leading residents, gathered last night at the Kindergarten Hall to witness the Public Demonstration of the Veedee. The proceedings were started by a short health talk and the long list of names of distinguished users of the Veedee (including many physicians) which were shown on the screen together with their photographs and their signed testimonials were certainly very impressive as to the value of the Veedee and the large number of its supporters.

This was followed by numerous radiographs of great interest showing for instance, the increase of chalky deposits in the joints of a rheumatic sufferer, and these pictures helped to prove in a very clear and vivid manner why the Veedee is so successful in quickly curing many cases of Rheumatism, Paralysis and other ailments.

The Demonstration which followed was convincing and remarkable in its results, those receiving treatment were nearly all well known as prominent citizens and everyone present knew their testimony to be genuine.

This is a Genuine VEEDEE the marvellous little machine that cures by self-treatment at home, without medicine, many obstinate and chronic cases that have defied all other treatments and have been turned away from the hospital as incurable.

During the Demonstration extraordinary results were obtained on the platform by the application of the little machine on the large number of sufferers anxious to test the power of the Veedee Blood Circulator before the eyes of the astonished and applauding audience, who saw people whom they knew to be in many instances long-standing cases of suffering, received in one short treatment quick relief and improvement. Sufferers from Rheumatism, Sciatica, Lumbago, Neuralgia, Paralysis, Deafness, Short Sight, Catarrh, Stammering, etc., who in many cases had to be helped to the platform and whose plain-twist limbs could not carry them, except helped by sticks or crutches, had their faces lighted up with joy for they felt the life-giving thrill of the Veedee banishing their pain and loosening their stiffened joints.

The audience cheered in wonder and appreciation to see these relieved sufferers briskly walk across the platform, without the need of even a stick. Limbs partly paralysed, moved round easily or moved for years, and never used, held high overhead. People, who had for years suffered the fearful silence and loneliness of the deaf, had their hearing so improved in the one plat form treatment so as to be able then to hear and answer questions put to them in the ordinary tone.

Many, in fact, publicly stated that their sight and their hearing was, while then marvellously improved, whilst others were started on their way of being completely cured by the continued use of the Veedee by themselves in their own homes. Small wonder that the audience became enthusiastic, and showed its surprise and appreciation of the wonders wrought before their eyes, by round after round of applause.

SHOULD CONTINUE THE TREATMENT.

THE LECTURER repeatedly impressed the sufferers that in order to make the results obtained permanent, they should obtain a Veedee and continue the treatment at home for some time.

ANOTHER FREE DEMONSTRATION will be given by request at the Kindergarten Hall next Tuesday Evening at 8 o'clock.

WHY THE VEEDEE SUCCEEDS.

The Veedee is such a gigantic world wide success, because it actually does what it claimed for it. Because it actually does stop pain. Because it actually does often cure where all else has failed. Because it actually does help many longstanding cases which have been falsely called "incurable," and have all because Veedee owners and users whom it has cured go through the world giving practical expression of their
