Symbolism in Japan. When a child is born in Japan the parents put up outside the house the sign of a fish or a doll, according as it is a boy or a girl. The fish represents a being who has to swim against the stream and make his way in the world. The doll stands for one who is there to be petted and made much of.

Not Ideal. "You and your wife never argue?" "Never," replied Mr. Meekton. "What an ideal state!" "Perhaps it isn't so ideal. I sometimes fancy Henrietta hasn't enough respect for my opinions to bother about arguing with me."—Washington Star.

Something Like That. "Herr Schmidt is so fat that he can't get near enough to his counter to sell goods." "H'm! Sort of a corporation in restraint of trade."—London Answers.

Might and Main. Tom Hood, the punster, once described the meeting of a man and a lion, and in doing so he said, "The man ran off with all his might and the lion with all his main."

New York, 21, 1914. Speculative buying of the best grade of stocks is reported from dozens of the representative institutions. This is said to be mainly for accounts that expect to hold such purchases for a considerable period of time. The buying is inclusive both of odd lot and larger purchases and is reported representative of careful preliminary consideration. It is institutional and individual and reflects a return of confidence in a halting way. Digestion of the rate decision will be affective in releasing large orders, according to well informed channels. While there is a great deal of surface pessimism, we have reasons for believing that action in its operation in many cases and it is based on the future as foreseen during the next six months by good judges. Bargain hunters are reported to be buying Union Pacific in odd lots and in larger blocks. They are observed in early parts of the market. Southern Pacific's other income is said now to amount to more than one half the amount necessary to pay the 6 per cent. div. rate. American Telephone majority of safety over dividend requirements is figured by insiders to be more than 3 per cent. Investment buying is reported waiting market in which the trading position appeals to the best operators.

NEW YORK FINANCIAL BUREAU. (By Direct Private Wire to F. B. McCurdy & Co.) Montreal, July 21, 1914. Financial circles are much interested in something approaching the nature of a controversy between Broomhall and the Canadian Pacific. Broomhall has expressed the opinion that the Saskatchewan crop will only be 60 per cent. of normal, but that the farmers will get a higher price than in the last three or four years. It was generally considered in Canada that the price to farmers would be lower than usual this year, but Broomhall may have his view on scarcity of Manitoba wheat affecting prices in spite of lower markets on other wheat. In any case, the course of the Winnipeg market does not

Executors

In any case of serious illness the patient is usually taken to a specialist, a man who has made a particular study of certain kindred kinds of disease.

Is it not natural, too that in order to secure the best results for your beneficiaries, you appoint as your executor the most reliable trust company at hand?

The Dominion Trust Company has never lost a dollar of estate funds under administration. The charges are no more than those allowed the private executor, and oftentimes less.

Again, by appointing this company as executor you do not take the chance of death intervening in the midst of administration or of loss of funds through inexperience in handling.

A confidential discussion of this subject is invited.
