MINERS CHOOSING DELEGATES FOR CONVENTION TO CALL OFF STRIKE.

Some Opposition to Roosevelt's Plan, But Mitchell Has Majority—Operators And Railroad Men Busy Preparing to Get Out Coal—Not All Miners Can Get Work At Once.

WILKESBARRE, Pa., Oct. 17.—In accordance with the call issued yesterday by order of the executive boards of the anthracite districts of the miners union, all "locals" throughout the coal fields began electing delegates today to the convention which will be held here next Monday to consider the acceptance of re-

jection of the arbitration plan submitted by President Roosevelt.

Most of the local unions held their meetings tonight. They all will have been held by tomorrow night. It is practically certain that a majority of the delegates will come to the convention instructed to vote in favor of accepting the arbitration scheme.

The prominent officials of the union say there is no fear that the opposition will be strong enough to defeat the efforts of those who favor ending the strike by arbitrating their differences with the operators.

President Mitchell does not care to anticipate the action of the convention but from his manner it is taken he has not the slightest doubt as to the result. He will go into the convention and make a strong speech for the acceptance of the arbitration scheme.

The indications are that the convention will last two days and that there will be much debate on various features of the arbitration plan. The principal question to be discussed before the plan is accepted by the miners will be that of taking care of all the men.

The conditions of the mines are such that all workmen cannot be given work immediately and some will have to wait for weeks before the companies can take care of them. The operators will not dismiss the non-union men in order to give employment to a returning striker. It is understood that union will take care of all such men who fail to find immediate employment. This will be done by drawing funds from the relief fund, which is said to be still growing.

The coal companies will do all in their power to meet the public demand for coal. Preparations for resuming as soon as the miners call the strike off are going on apace.

It is estimated that 25 per cent of the collieries will be in operation on the first day after the suspension is over. The railroads are also making every effort to have enough cars on hand to carry the freshly mined coal to market and are sending thousands of cars into the regions and placing on sidings at the collieries.

The state troops are having a easy time of it and are expecting to hear of a return of the division at any time.

WASHINGTON, Oct. 17.—The following authoritative statements is made regarding the commission to arbitrate the anthracite coal disputes:

"The commission is so constituted that it will require a two-thirds vote to settle any point upon which there is a dispute."

That means that Commissioner Wright the recorder, is not to be regarded as a member of the commission in passing upon questions at issue before it. An official of experience said:

"In all military boards and courts the recorder has no vote, but he is the man who runs the board."

Colonel Wright will keep the records, summon witnesses, carry out the orders of the commission, and, perhaps, prepare its report under its instructions.

The Croup. It's a terrible thing, isn't it? Somehow, that awful cough, that hard struggle for air, can never be forgotten. Be a little fore-handed and prevent it. Keep Vapo-Cresolene in the house, and when the children take cold let them breathe in the vapor during the evening. It goes right to the throat, just where the croup lies. All irritation subsides, the cough quiets down and serious trouble is prevented. It never fails to cure whooping cough.
