stage, as it would appear from the face of the transaction that it is one which calls for explanation and defence.

THE CRIME OF EASTER MORNING.

This City and Province have been inexpressibly shocked by the midnight murder at Cross Roads, of Alexander Stewart, the details of which were given to the public in yesterday's Morning Guardian. So far as the facts have come to light, and without prejudice to the prisoner charged with the awful deed, the crime appears to be one of the most ghastly and appalling nature. The victim was a man of good repute, well and favorably known to many, honest, industrious, peaceable, inoffensive, a Christian man, whose life was free from guile or offence. That such a man should be shot to death in the midnight hour, without any known cause or pretext of justification, has naturally aroused public alarm and indignation to the utmost. And at such an hour the very deepest sympathy of all goes out to the wife and children of the deceased, thus so suddenly and awfully bereaved of husband and father.

The fair fame of a peaceful rural community and of the Island itself is tarnished by the awful deed. It seems amazing among our people, mainly so orderly and law-abiding, that on an Easter morning when thoughts of praise and worship must have been uppermost in the minds of the many, the officers of the law should have been summoned to make inquiry for blood and to arrest the red-handed slayer of his fellow man—of his employer, whose roof had sheltered him and at whose table he had sat for months past. But so it is. One more and one more dreadful and appalling crime has been added to the many which of late have blotted the annals of our fair Island. In Alberton, at Annandale and twice or thrice in this City recently men have been shot at and killed or wounded. For the third time a man has been killed. And where may the list of tragedies have an end if the severest penalties of the Law are not interposed to stay this tidal wave of crime?

Almost a first thought that strikes one who recalls these crimes is that in many cases either some frequenter of illicit ransens is implicated, or one or another of these places has been the scene or the cause of the trouble. Another thought is that although the officers of the law in this case have acted with energetic promptitude and success in making the arrest, there has been all along a laxity of the administration of criminal justice on its preventive side. Life has been held too cheap and the miscreants with murder in their hearts have apparently come to think that on the slightest provocation or upon no provocation at all they may shoot down with impunity whom they will. In that regard we have learned and are learning some terrible lessons, but all too late to save the fair fame of the Island. We cannot in the face of the crimes of the past few months longer lay claim to the first place among the Provinces in regard to exemption from serious crime. Rather have we been relegated to the lowest place on the black list.

These sad conditions must impel our people to demand that in regard to this awful tragedy the most searching inquiry shall be made, not only in regard to the slayer who has been caught red-handed, but in regard to any possible accessories if such there are. It is not necessary to ask that any charged or suspected person shall have a fair trial. In Canada and in Prince Edward Island a fair trial has never been denied to the wickedest or meanest criminal. Let every man in future have such fair trial. But it is vital to the welfare and even to the existence of the community that no guilty man shall escape the just penalty of his misdoing.

After it was thought the disease had been stamped out and the trouble was over, there has been a fresh outbreak of the foot and mouth disease at Havelhill, Mass. Forty cattle in a herd owned

by Arthur Little of that place were killed by the United States officials on April 6th and fears are entertained that other herds may be found to be infected and that the disease may spread.

THE EDITOR'S MAIL.

ORIENTAL PEDLARS.

Sir,—While our Legislature is now in session, and discharging its annual dinner of deficits, and seeking high and low for some way to raise more revenue to reduce this deficit, it might not be amiss for a very humble layman to bring to their notice a seemingly heretofore unthought-of mode of raising revenue here.

Season after season brings to our shores a class of travelling merchants, Greeks, Assyrians, Turks, etc., who are rapidly becoming as great an evil to this Province as the Chitamau to some of our Western Provinces, and are in many ways undesirable as citizens. They flock in scores to the hospitable shores of this fair land, carrying a tenth rate lot of vermin-infested trash, laden with disease germs. In rare cases they apply to the Provincial Secretary and pay a ten dollar license fee, they proceed to tramp through the country, subsisting on the hospitality of our kind people. Failing to subsist thus, they hire some old building and live in the cheapest and most primitive fashion, and when they have "jewed" a fair competence out of our unsuspecting people, they depart forthwith for the sunny shores of the Orient, giving a glowing report of fair "Melico" to their compatriot, and the result is generally a dozen more the following year to take their places.

Now that genial, sunny and practically indispensable gentleman, the commercial traveller comes here, pays his long hotel bills, employs truckmen and liverymen in large numbers, treats his friends and contributes his quota to the commercial economy and intelligence of the country generally, and the Government taxes him and his associates \$8000.00 per year for the privilege of doing so, while this pedlar, a nuisance, contributes nothing at all to the revenue, and saps the energy of the country by carrying the capital out and leaving nothing in return, besides, doing great injury to citizens, merchants, who pay their taxes, and live as becomes white men.

A nice little tax of \$100.00 per head would dispose of this matter to the best interest of the people of this Province.

Yours Truly,
OBSERVER.

IN OLD AGE

The question of health becomes mainly a question of nutrition. If the stomach and other organs of digestion and nutrition are kept in a healthful condition there will be a well-nourished body, and little liability to disorders of the liver, bowels or such other disorders as may result from indigestion and lack of exercise.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and also diseases of other organs which are caused by the diseased condition of the stomach. By enabling the perfect nutrition of the body it increases the vital power and promotes a vigorous old age.

"I was a sufferer from chronic diarrhoea for five years," writes Mrs. Mary A. Gray, of Philadelphia Co., Mo. "I tried different remedies, which would give me relief for a short time only. My trouble would return as bad as ever. I consulted you in July, 1900, and by your advice commenced using Dr. Pierce's remedies. I took two bottles of the 'Golden Medical Discovery,' three vials of the 'Pellets,' and some of the 'Extract of Smart-Weed,' as you advised. I have not had any return of my trouble since using your medicine. A few days ago, one year old and I never had anything to relieve me so quick. I think Dr. Pierce's medicines the greatest on earth. Should I ever have any return of my trouble shall use your medicine. My thanks to you for your advice and thanks to Almighty God for restoring me to health through your hands."

Accept as a substitute for the Golden Medical Discovery. There is nothing just as good for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets, the best for all kinds of people. They cure constipation and biliousness.

In the Supreme Court

Oliver Rattenbury,

Judgment Creditor

against

George Carter and Isaac Carter,

Judgment Debtors.

Upon hearing the attorney,

or agent for the judgment creditor

and upon reading the affidavit of

An Answer to Inquiries.

Numerous inquiries have recently been received at the New York and Philadelphia offices of the "Mercantile and Financial Times" asking for information as to the methods and business of the Storey Cotton Company, whose general offices are located in the Bourse Building, Philadelphia, as well as to the desirability and value of an investment made with this company. On several occasions in the past there appeared in these columns extended and favorable references to this company from the pen of our Philadelphia correspondent, and we have carefully watched the progress and operations of the company in order to determine whether his commendation was justified by subsequent developments.

Justice to a worthy corporation requires that we should extend the editorial endorsement of this paper to this company at the present time, and testify that it has more than fulfilled every claim originally advanced in its behalf. It is only simply truth and justice to say that the management of the company is to-day entitled to the highest praise and commendation for the conscientious and straightforward manner in which they have carried out all of their obligations to those who have become identified with the enterprise as investors, and we are full warranted in making the assertion that no financial or investment institution in the country can show a cleaner, more satisfactory or honorable record in its liberal treatment of investors and the public at large than the Storey Cotton Company.

We are much gratified, of course, that the later development of the company's business and its fair and equitable methods have justified the early predictions of our Philadelphia correspondent, and it is equally a pleasure to add that the company are to-day stronger and better able to carry out their obligations than at any time in the past. We have the utmost confidence in the judgment and discretion of our Philadelphia correspondent, who has been the regular representative of this paper in that City for more than a quarter of a century past, and as he has been thoroughly conversant with the business of the Storey Cotton Company from its inception, as well as its plans and methods, its financial stability and the high character of its management, his qualified endorsement of the same naturally carries great weight.

The record of the Storey Cotton Company is one that can be satisfied in no particular whatever, its treatment of its clients has always been eminently fair and just, and it has never made a promise that has not been fulfilled to the letter. We can only emphasize the fact that an investment made with this company possesses every essential element of security and remuneration, and we are confident that those who make such investments will place their money in an enterprise where every possible safeguard is thrown around the principal and where large earnings are assured beyond any reasonable doubt.

The fullest particulars sent Free to readers of this paper on application.
