**RECOVERING.**—The many friends of Gr. John Moffatt will be pleased to hear of his recovery he being now able to use his right arm. On the first of July in moving the heavy guns the lorry skid and threw him between an iron bar and a large tree which resulted in his shoulder bone being broken and a bone in the elbow and his hand being wounded. Gr. John Moffatt is a son of Mr. and Mrs. Wm. Moffatt, Mayfield. He enlisted in Halifax in the spring of 1917. He was in the 11th Siege Battery and was engaged in laying the signalling command. He speaks in the highest praise of the attention given him in France and England.

**NARROW ESCAPE.**—Last Saturday morning three young men of White Sands had a narrow escape from drowning. They had been over to Pictou Island for bait on Friday and attempted to return on Saturday morning. The wind had been blowing hard and the sea was quite rough. Their boat filled with water and put their engine out of business so that they were left at the mercy of the wind and tide for several hours when at last they were picked up by men from the light house. Moral—Keep on terra firma when the sea is rough.

**DANGEROUS SHOOTING AT FALCONWOOD.**—Complaint has been made that parties are visiting the vicinity of Falconwood on shooting expeditions, a very dangerous practice where an institution of this kind is concerned. The authorities have repeatedly intimated that shooting is prohibited, but with little effect, and they have been compelled now to issue warning that parties persisting in shooting will be prosecuted. The danger to the patients scattered over the grounds, is such that at any moment a casualty may occur, but the authorities are determined to take no such risks.
