

GREAT BRITAIN WINS IN CHINA

COMMERCE LOST TO AMERICANS

More Advantageous Bid On Material Is Rejected.

PEKIN, May 22 (Special).—Concrete evidence is at hand showing the discrimination against American materials.

An American firm learned a few weeks ago that material for 365 freight cars was required by the Chinese Railways and requested permission to submit a price.

Consent was given reluctantly for a quotation on a hundred cars. The price quoted was as low on the material, landed in China, as the British f. o. b. in England, but notwithstanding this the British bid was accepted without consideration of the fact that the American offer complied with the specifications and was the cheaper by the freight and insurance.

The consensus of opinion of well informed Americans has been ascertained and is that the sound founda-

tions for a future market in China for American manufactured goods has been destroyed by President Wilson's change of policy and the consequent withdrawal from China of the powerful American banking group, whose efforts were tending towards the ultimate establishment of American enterprise in China upon a footing of equality with the other Powers.

Americans here feel much disheartened and humiliated to see America's share now falling into other hands, especially as regards the railways already projected through the richest parts of the country, and they believe that from diplomacy of this kind nothing practical is to be expected as a substitute for the excellent position now abandoned.

America's effective influence in China has received a staggering setback.

ALBERTA TO FOLLOW UP ALLEGED LAND FRAUDS

EDMONTON, Alta., May 20.—In the case of Richard Isaacs charged with the forgery of land titles certificates in respect to lands near Edmonton, Alberta, and also in regard to Saskatchewan lands, several new alleged frauds have been brought to light. The latest to be charged against Isaacs were committed in New York and he is now awaiting trial for selling land on forged title certificates in Boston and St. John, N. B. It is believed that many people in the eastern cities who have not discovered the fraud have in their possession worthless certificates for land in Western Canada which Isaacs has been purporting to sell.

The Attorney General's Department of Alberta is determined to follow up the charges against Isaacs with the idea of protecting Eastern investors in Alberta lands and to safeguard the land titles system in vogue in this province.

SEVERES BIG CABLE SOUNDS FIRE ALARM

City Employes Chop Down Over Head Wires.

NEW YORK, May 22 (Special) Acting under orders of Commissioner Thompson, of the Department of Gas Water and Electricity, men in charge of Inspector Cameron yesterday began to disconnect all overhead wires in Fourteenth street, it having been decided by the Bureau of Encumbrances that they must be put underground. The squad worked west through Fourteenth street, cutting telephone, telegraph, cable, trolley and fire alarm wires until they reached the Fourteenth street Theatre, just west of Sixth avenue.

Inspector Cameron mounted to the roof of the theatre and found a large cable connecting the building with the Salvation Army headquarters across the street. The inspector chopped through the cable which connected the two buildings with the Manhattan Fire Alarm Telegraph Company's box at Fourteenth street and Sixth avenue. In a few minutes a complete set of fire apparatus clanged up to the theatre, the usual crowd assembled and for several minutes traffic was halted as the firemen searched for the blaze.

It was only after Inspector Cameron explained he had cut the alarm cable that the crowd scattered and the firemen drove away.

PEERESS CALLS THE NEW DANCES NEGROID ORGIES

More Young Men at Parties Than Needed.

LONDON, May 22nd (Special) A peeress who does not reveal her name makes a strong protest in the Times against modern dancing. She says she is one of many matrons upon whom devolves the task of guiding girls through the maze of the London season and is face to face with the same state of affairs in most, but not all, ballrooms. Calling for the immediate attention of those who are in a similar position, she writes:—"My grandmother often has told me of the shock she experienced on first beholding the polka, but I wonder what she would have said had she been asked to introduce a well brought up girl of eighteen to the scandalous travesties on dancing which are for the first time in my recollection bringing more young men to parties than are needed."

"I need not describe the various horrors of the American and South American negroid orgies, but I would only ask that hostesses let one know what houses to avoid by indicating in some way on their invitation cards whether the turkey trot, the Boston (the beginner of the evil) and the tango will be permitted."

The Tea Caddy

What's the reason for it? Why does any woman keep her tea in a Caddy, a closed box or jar? To keep it pure and good of course, to keep in the quality. Red Rose Tea is put up in 1 lb. and 1-2 lb.

Sealed Air-tight Lead Packages

for exactly the same reasons and the "Crimson Label" quality is sold at 30c. a lb. Like all Red Rose Tea, "Crimson Label" is a blend of the best Indian and Ceylon Teas. The former assures generous strength, the latter rare flavor for both of which all Red Rose blends are famed.

No loose Tea at or near 30c. a lb. is comparable with Red Rose—nor is it so cheap:

Because, retaining all its richness and flavor until you are ready to use it, it goes farther in the pot—makes more cups of tea.

Ask your grocer for Red Rose Tea. Should he be out of it at the moment he'll gladly get it for any good customer.

Sold only in sealed packages.
