Your reading this article because it is an unbiased review of Facts concerning the business of a Company with which you should be doing business, originally written and published by the "Mercantile and Financial Times," without request or payment.

Now Reprinted by Request. An Answer to Inquiries.

Numerous inquiries have recently been received at the New York and Philadelphia offices of the "Mercantile and Financial Times" asking for information as to the methods and business of the Storey Cotton Company, whose general offices are located in the Bourse Building, Philadelphia, as well as to the desirability and value of an investment made with this company.

Justice to a worthy corporation requires that we should extend the editorial endorsement of this paper to this company at the present time, and to say that it has more than fulfilled every claim originally advanced in its behalf. It is only simply truth and justice to say that the management of the company is to-day entitled to the highest praise and commendation for the conscientious and straightforward manner in which they have carried out all of their obligations to those who have become identified with the enterprise as investors, and we are full warranted in making the assertion that no financial or investment institution in the country can show a cleaner, more satisfactory or honorable record in its liberal treatment of investors and the public at large than the Storey Cotton Company.

We are much gratified, of course, that the later development of the company's business and its fair and equitable methods have justified the early predictions of our Philadelphia correspondent, and it is equally a pleasure to add that the company are to-day stronger and better able to carry out their obligations than at any time in the past. We have the utmost confidence in the judgment and discretion of our Philadelphia correspondent, who has been the regular representative of this paper in that City for more than a quarter of a century past, and as he has been thoroughly conversant with the business of the Storey Cotton Company from its inception, as well as its plans and methods, its financial stability and the high character of its management, his qualified endorsement of the same naturally carries great weight.

The record of the Storey Cotton Company is one that can be assailed in no particular whatever; its treatment of its clients has always been eminently fair and just, and it has never made a promise that has not been fulfilled to the letter. We can only emphasize the fact that an investment made with this company possesses every essential element of security and remuneration, and we are confident that those who make such investments will place their money in an enterprise where every possible safeguard is thrown around the principal and where large earnings are assured, beyond any reasonable doubt.

The fullest particulars sent Free to readers of this paper on application.

### DAINTY EFFECTS.

Immense Amount of Work Required on Hats and Gowns.

Many of the new blouses show the most intricate hand work, and such garments are undoubtedly costly. On all sides dressmakers are complaining of the extra work demanded of them and of the illogical behavior of their clients who grumble at having to pay higher prices when at least two yards extra material are demanded than formerly, not to speak of at least one-third of the face even the bandeau must be

The same applies to millinery, for the most effective headgear is that which shows a great amount of expert hand labor. Truly this is a bad time for the amateur milliner. Every detail concerning hats must be perfect, and now that they are worn right off the face even the bandeau must be

skillfully manipulated, to say nothing of the knots of ribbon resting on the hair.

Hats entirely composed of rich foliage are trimmed simply with a bow of pale colored ribbon. This idea is particularly effective when carried out in sunset foliage, with a pale blue bow.

A little handkerchief sleeve of lace set on a crisscross band of velvet caught through tiny paste buckles is a fancy to be noted, and it forms a charming evening effect.

A fancy for floral decoration survives with the spring. Fuchsias, geraniums, clematis and silver grapes are prominent among the decorations not only of headgear, but of evening gowns.

### FOR WARMER DAYS.

Smart Toques of Tulle - Unlined Wraps of Moire.

Cape collars are charming and will take the place of stoles, which in many cases have been very unbecoming. They look most effective over blouses or on tailor made coats. In fact, they

White serge and brown velvet gowns are adaptable to nearly every costume of the day and will be as much a feature of the early spring fashions as the wide, pointed belt.

A smart toque of folded plain gray net was seen recently at an afternoon tea. It was trimmed with a large gray ostrich feather paling to white and at the very farthest tip touched with black.

Unlined coats of moire will be both picturesque and useful spring garments made with the three shoulder capes and a stole effect down the front.

Homespun in pale shades is smart for spring walking suits. White serge and all white wool goods will have a greater vogue than ever this season.

The picture shows a gown of white serge piped with brown velvet.

### GYPSY KING'S FUNERAL.

BOSTON, April 23.—James Stanley, known as "King of the Gypsies" who died in a travelling wigwam near Haverhill Monday was buried from a tent in West Roxbury to-day. His will leaves \$25,000 in cash and a house in West Roxbury assessed at \$15,000 to his widow Isabella and his eight children.

### CURED ONCE AND FOR ALL

Dodd's Kidney Pills Banished Chas. Ingram's Bright's Disease.

And there have been no Signs of its Return in Five Years—He Keeps Dodd's Kidney Pills on Hand However.

TORONTO, April 27.—(Special).—Charles Ingram of 58 Humbert-street, a stone-mason well-known among the working classes of the building trade, furnishes one more proof that Dodd's Kidney Pills will cure Bright's Disease, will drive it out of the system so that it will never return.

Five years ago an interview with Mr. Ingram was published, in which he said:

"For ten years I have been troubled with the first stages of Bright's Disease. I tried several medicines, but could not get cured. A friend of mine advised me to use Dodd's Kidney Pills. I have used four boxes and am now cured of the first stages of pain."

Speaking recently Mr. Ingram said: "The cure was satisfactory, but I keep Dodd's Kidney Pills on hand in case the trouble may come back."

Dodd's Kidney Pills always cure Bright's Disease, the most advanced stage of Kidney Disease. How sure, then, is it they can cure the earlier stages of Kidney Complaint.

She—What an extraordinary picture And why on earth do you call it "Home?" He—Can't imagine, unless it is because there is no place like it.

It's not the weather that's at fault. It's your system, clogged with poisonous material, that makes you feel dull, drowsy, weak and miserable. Let Burdock Blood Bitters clear away all the poisons, purify and enrich your blood, make you feel bright and vigorous.

Mother—When you play marbles, why in the world do you get down on your knees and drag yourself over the ground? Little Son—'Cause I-I don't want to wear out my shoes.

Subscriptions for 10,000 Shares of \$100 each of the 7 per cent Preferred Stock of the CANADIAN STEEL AND COAL COMPANY, Limited, will now be received at par, that is, \$100 for each \$100 share as follows:

- \$ 5.00 on application
- \$15.00 on allotment
- \$20.00 on first January, 1903.
- \$20.00 on first Feb., 1903.
- \$20.00 on first March, 1903.
- \$20.00 on first April, 1903.

The whole of the instalments remaining unpaid at any time may be prepaid in full. A discount of per cent will be allowed upon the par of each share if prepaid at time of allotment. Forms of application and copies of Prospectus may be obtained on request. Notice of allotment will be sent promptly by ordinary letter. It is intended to apply to the Stock Exchanges in New York, Boston, Montreal and Toronto for the listing of the Stock of the Company.

THE CANADIAN STEEL AND COAL COMPANY Limited, was organized to mine and manufacture iron and coal coke and steel in Canada, at Atlantic tide water. The raw materials for these manufacturers are:

1. COAL.
2. IRON.
3. LIMESTONE.

All these materials we have at hand.

### 2-Iron.

The Company has acquired by purchase, immense iron deposits on the North Shore of the Gulf of St. Lawrence, about 350 miles from Sydney. The deposits are estimated to contain 20,000,000 tons of ore above sea level with probably as much more below that line. The iron can be handled for \$1.00 per ton or less. Quantities of this ore have been shipped to Great Britain and United States where it has given great satisfaction, and we can sell large quantities i. o. b. at the properties, netting us a profit of \$2.00 per ton. This ore makes the finest steel.

### Output.

When in full operation the output is expected to be about as follows:

1. IRON.—200,000 tons iron ore shipped direct from property, showing net profit of \$2.00 per ton, total \$400,000.00
- 200,000 tons fine iron ore shipped in briquettes, showing net profit of \$4.00 per ton, total \$800,000.00
- 100,000 tons steel blooms showing net profit of \$3.00 per ton, total \$300,000.00

3. COAL.—600,000 tons coal, showing net profit, at least, \$1.00 per ton, total \$600,000.00

3. AIDS.—Government bounties (averaged) added to above per year for 6 years \$1,000,000.00

Total year revenue \$2,200,000.00

### Net Revenue.

Total net annual profits	\$ 200,000.00
Less FIXED CHARGES:	
5 per cent interest on bonds	\$37,500.00
7 " " " on preferred stock	70,000.00
Sinking Fund	67,500.00
Incidentals	25,000.00
	200,000.00
Net yearly profits	\$ 200,000.00

Equivalent to yearly dividends of 30 per cent, or 15 per cent, half-yearly on total capitalization.

If the capitalization was increased to this estimate would still show a dividend-earning capacity of 10 per cent per annum.

The capitalization of the Dominion Coal Co. is \$20,000,000.00

The capitalization of the Dominion Iron and Steel Company is \$28,000,000.00

on which it is believed 6 per cent dividends will be earned, and the Dominion Iron and Steel Company is only \$6,000,000.00

controlling, it is believed, equally valuable properties, and it is reasonable to expect much larger dividends.

Within the last few months Dominion Coal shares common rose in market value from \$40 to \$144 per share, and Dominion Iron and Steel Company's shares common rose over \$30 per share in market value.

With such low capitalization the Canadian Steel and Coal Co's shares would show tremendous profits; and it is confidently believed they will.
