It will be good news to all to know that shortly after the Coronation on August 9th, the Coronation Choir Glee and Concert party will sail for Canada under the direction of Mr. Edward Branscombe who organized the previous most successful visit of the Westminster Abbey Choir Glee and Concert party. The concert party on this occasion will be composed of leading adult singers and the principal boy sopranos who have taken part in the historic service. The number of boy sopranos for the tour has been increased to eight. Mr. Edward Branscombe tenor and Ma'ame Marie Hoston contralto will also be among the soloists. The Coronation Choir singers will appear at Op. ra House Tuesday evening 26 August 1902. Remember the date.

ONE of the features of Mount Allison Ladies' College to which special attention should be directed is the life enjoyed by the students during their college days. There is no feature of the college to which the faculty feel they can refer with more confidence than that which relates to the internal management and government of the school. While discipline is enforced rigidly enough to ensure conformity to the rules which govern the institution, yet this is done with so much kindness, and fairness that even the students themselves are made to feel that their greatest gain is what is constantly aimed at by Prof. Burwash, of Victoria college, Toronto, one of the leading educationalists in Canada said some time ago in speaking of this institution that it was the best all round educational institution of the kind in Canada. There is nothing in the maritime provinces to approach it. While there are institutions which furnish a literary education or a musical education to young ladies, there is not one that possesses the facilities to impart a literary, a musical or an art education equal to Mt. Allison. Nor can such an institution be found in Canada. In the upper provinces there are schools of art, but they have at their head no better teachers than Prof. Hammond, whose reputation as a painter has become national; and then these schools are not in a position to furnish their students with either a musical or a literary education. Mt. Allison easily stands at the head of the institutions in Canada for the education of females.

NEW DRESS MATERIALS AND TRIMMINGS.

For present needs there are shown the most attractive silk and wool novelties, with a mesh so cheer and soft as to suggest mousselines; the use of a changeable silk lining enhances their beauty. Shot velvings are the latest developments in thin wool fabrics, and some of the samples shown, having an almost invisible two-toned effect, are extremely handsome. Especially smart are the rather severely designed dresses of checked silk showing green and blue, and little if any trimming is employed. A distinctly new silk for Autumn is termed ratte taffeta, which will be much used for entire costumes. No Autumn outfit is complete without one or more light-weight cloth and cheviot or tweed costumes. Foulard shirt-waist dresses will be worn until late in the Autumn, and those of light delicate shades may even be worn indoors during the Winter on semi-formal occasions. Buttons will form an important decoration on modified tailor costumes. Loose coats of taffeta and pongee and even those of light weight cloth often bear buckles of steel or enamel in combination with strap trimmings. In laces, Irish crochet, point Venise and flit are most favored for combining with rich fabrics. Many of the dress trims are made of fibre and may be adapted to any desired method of disposition, and in solid colors and mixtures are procurable. Embroidery of all kinds reigns supreme in trimming.—From The Delineator for September.
