C. OF E. SYNOD DEFER RESOLUTION

OTTAWA, Sept. 26.—The General Synod of the Church of England in Canada today, after a long and interesting debate defeated a resolution providing for adoption of a prayer to be used by clergymen in administration of unction to the sick.

The debate was of peculiar interest on account of many references to the Christian Science movement. More than one of the speakers declared that the Church was losing and Christian Science was gaining followers because the Church had abandoned the practice of granting unction of oil and prayer when called upon by persons in extreme physical distress.

The Synod during the debate showed a distinct cleavage between the advocates of high Church and of broad church practices. The high Church adherents favored the unction resolution which was proposed by Canon Scott, of Quebec. On a vote this was supported by a majority of clerical delegates present, but was declared lost because a majority of the lay delegates who cast their votes against it.

Canon Scotts resolution provided for authorization by the Synod of the use of a prayer for the administration of unction printed in the first prayer book of King Edward Sixth. The Church, he said, had a mission for the body as well as for the soul, and there was no reason to suppose that the healing powers of the first ages had died out.

EPOCH IN HISTOOY OF THE FISHERIES

WASHINGTON, September 26—That the conclusion of a conventian between the United States and Great Britain, by which the regulation of the fisheries of the contiguous waters of this country and Canada will be assumed by the two governments, marks a distant epoch in the history of American fisheries, was the declaration of the American Fisheries Society in a resolution adopted here today at its thirty-seventh annual meeting. FIRE, AGRICULTURAL COLLEGE FARM

TRURO, Sept. 26.—At twelve o'clock to-night fire broke out at the Agricultural College farm. The buildings burned were, the Dairy, valued at $1000, with contents at $1500; vehicle sheds, piggery and chicken fattening houses bringing the loss up to $4,500 with insurance totalling $2100. The horse stable was saved almost intact, also a dwelling house in the rear of the dairy and the poultry houses adjoining the piggery. No stock was lost.

The burned buildings though not of great value were quite pretentious and were in the midst of a larger bunch. The latter, Principal Cumming states were saved solely through the strenuous efforts of Chief Stewart and his men of the Truro Fire Trigade who with their chemical engine and lines of hose kept the larger buildings safely protected.

On the grounds was a reserve tank containing five thousand gallons of water. The burned area will not be built on again. This fire emphasizes the agitation Principal Cumming has beebeen making for the extension to the farm of Truro's fine water supply. The fire resulted from an overheated furnace in the dairy.

ST. JOHN LIQUOR DEALERS FINED

Decision Given Saturday. Had Shipped Liquor Into Scott Act Counties. John Oregan Was Asked What He Thought of it.

ST. JOHN, N. B., Sept. 26—(Special)—In connection with the decisioncase for appeal on technical grounds given at Woodstock on Saturday by which two St. John liquor dealers were fined for shipping gaods in a Scott Act county, John Oregan was last evening asked what effect this would have on the liquor trade in general in Scott Act counties.

Well he said of course this present case will be appealed. I don't know much about it. ...

The law it appears to me was made for lawyers and Mr. Baxter, who is representing us says there is a good you may say that I, and I believe all other wholesale men in St. John have stopped shipping liquor into Scott Act counties, but from my business experience I have no hesitation in saying that this action on our part will not stop the sale of liquor in these counties. We are not frightened by Carleton County case, but had taken our present stand as soon as we understood the provisions of the new law.

The different offices presented very favorable reports, throwing the strong position on whish the Brotherhood stands financially and otherwise. The following are the officers for the ensuing year.

Master, G. W. C.—Henderson.
Vice Master,—R, A. McDonald.
Past Master, J. H. Hughes.

Inside Guard,—J. J. C. Reilly.
Outside Guard,—T. A. Steeves.

The Brotherhood has just celebrated its 25th anniversary having been 25 years in existence on the 23rd inst. PHOTOGRAPHONE PRODUCES SOUND

STOCKHOLM, September 26 -A Swedish engineer named Sven Berglund has constructed an apparatus called the photographone through which the problem of reproducing the human voice perfectly, clearly, without the grating sound of the ordinary talking machine, is said to be solved.

The chief point about the new apparatus is that light and photographic plates are used, instead of the usual gramophone records and pins. This invention is particularly adaptable for a combination of speech and cinematographic pictures as the pictures as well as music or speech can be photographed simultaneously.

POLITICAL PURITY IN THE ELECTION

The Moral and Social Reform League of Charlottetown have decided to engage in the work of Moral Reform, and to that end have decided upon the following lines of work.

1. We shall conduct a campaign of education by having addresses made at public meetings, sermons preached and distributing phamphlets on the duties of citizenship.

2. We shall prosecuteany violators of the law and will employ a force of detectives to work throughout the country.

3. We have decided to raise a fund of $1500.00 to carry on the above work.

We call upon all citizens to believe in our earnestness in this matter and to suuport us in our efforts to cure this cancerous condition of our politics. We uge all electors to treat this matter seriously and not allow themselves to come within the penal cause of the Dominion election act. Other constituencies have been able to free themselves from this great evil and we mean to adopt the methods which have been successful elsewhere. It is no light matter when our citizenship is made a matter of barter and is thus dishonored. It is no light evil when the honest voters are defrauded of their due influence on the Government of the country. When the political managers use funds and liquor to debauch the electorate.

4. It is the object of the League to secure pledges against all forms of bribery and corruption on the part of the candidates, party workers and as many as possible of the electorate through the Province.

SYNOD DISCUSSES INDIAN MISSIONS

OTTAWA, Sept. 26—The General Synod of the Church of England in Canada today gave its whole session to a discussion of Indian missions. The policy of the government respecting aid to church schools was both criticised and praised. It closed with a general feeling of satisfaction as to the position of the government when Hon. Mr. Blake read a letter announcing a new policy of aid to these schools by the government which will make them more effective.

The Archbishop of Ruperts Land agreed with a principle advocated by Hon. H. S. Blake of reducing the number but of improving the quality of industrial Indian schools. However, he thought Mr. Blake had conducted his campaign unfairly. Only three schools had yet been closed.

Hon. H. S. Blake defended the position of the government, and the Indian department for declining to continue a school which had a bare fifty pupils which ran behind $15,000 in three years or another which cost $5,000 a year and was attened by less than a score of pupils. It was unfair to the government to say that the Anglican church was being discriminated against in the cutting off of residential schools.

The debate concluded with the passage of a resolution that the primate of the archbishop of Ruperts Land should appoint a committee to report on Indian policy.

Tomorrow there will be a debate on the hymnal.

The Bishop of Fredericton protested against an enlargement of the appropriation proposed to be required from his dioese this year. The dioese had last year fallen $400 short of the amount required from it and the proposed $600 increase would leave the diocese facing the disheartening prospect of a thousand dollar deficit.

Judge Hanington opposed this. The diocese had last year raised a large sum for the St. Paul's offering which it would not be required to raise this year. He would undertake to see that the dioese raised the extra amount required of it and would contribute a substantial portion himself.

The Bishop of Fredericton was promised an opportunity to bring the matter up again.
