St. John's N. J. Electric Railway.

E. G. Siggers' Washington correspondence under date of June 8 says:

U. S. Consul M. J. Carter, at St. Johns, Newfoundland, writes to the State Department that that city has an electric railway, which has created a good deal of interest, it being the first in the Island. He says: "The current which provides the power, as well as that for lighting, is generated 9 miles from St. John's. The physical characteristics of the region lend themselves admirably to the success of this enterprise. There is a chain of four connecting lakes, and from the outlet of the last runs a flume, which is built along a steep hillside for 3,300 feet, until it disappears into a tunnel cut 320 feet through a bluff of solid rock. At the tunnel is erected a huge sluice box of timber, to the bottom of which is fixed a steel tube 6 feet in diameter. Through this, the water drops 185 feet on a large water wheel in the power house, which sets the machinery in motion.

Had Piles For 9 Years

Dominion Inspector of Steamboats Cured by Dr. Chase's Ointment.

False modesty and fear of the surgeon's knife prevent most people from appealing to their physicians for a cure for piles.

Many people suffer on year after year, robbed of their rest and sleep by the terrible itching, when they could be entirely cured by a single box of Dr. Chase's Ointment.

Mr. O. P. St. John, Dominion inspector of steamboats, living at 246 Shaw street, Toronto, states:—"I suffered for nine years from itching piles, at times being unable to rest on account of the annoyance caused by them. After trying almost all remedies in vain I began the use of Dr. Chase's Ointment, which entirely cured me. I cannot speak too highly of it. I have recommended it to several friends, all of whom have been cured by its use."

Dr. Chase's Ointment is recognized by physicians, druggists, and the public in general as the only absolute cure for piles; 60 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto.

PRINCE EDWARD ISLAND

And Its Attractions to Tourists.

Prince Edward Island's summer climate is delightful, and the scenery is beautiful and quietly picturesque. Surrounded by the Gulf of St. Lawrence, it enjoys all the coolness of the sea breeze, and the advantages that can only be derived from sea bathing, at about 65 degrees.

Charlottetown has over 12,000 inhabitants, and is the capital. It has many great retail stores, besides a large wholesale trade. It has a Gas Light and Power Company, two Electric light plants, and a street railway is in embryo. It has a first class water works and sewerage system. It is famed for its wide and shaded streets, its many pleasant drives, the principal of which is the new Park Boulevard, its attractive surroundings, pure water, and clear, cool and bracing air. It is widely known as one of the healthiest cities in Canada. It has two hospitals, many churches and a large and elegant new Opera house. It also has several fine public buildings and a market which is one of the chief sources of the citizens' pride. It has one of the largest and best equipped pork-packing establishments in the Dominion. On its west side is Victoria Park—a favorite summer resort—while on the east are the magnificent new Exhibition Buildings and Driving Park. Chief among its public squares s Queen Square in the centre of the city, beautifully laid out with blooming plants of every description, fountains, and well arranged walks, and enlivened with a band of music during the summer evenings. The rural scenery in the vicinity of Charlottetown is charming, and horses for driving are abundant at very low prices. Boats can also be hired, and steamers run regularly on the bays and rivers, affording most pleasant excursions. The principal hotels are Davies, Queen, and Revere.

Summerside has about 4000 inhabitants. It is situated on beautiful Bedeque Bay. It has the largest and finest departmental store in the Maritime Provinces, besides having other large retail stores. It has an Electric Light Plant, and a water works system and swerage are being agitated for. The hotels are—Clifton, Russ and Campbell.

Georgetown and Souris have a population of about 1,000 each. In the former are the Aitken, and Tapper hotels and in Souris the Sea View.

At Cape Traverse, a very pleasant summer resort, is the Landsdowne hotel; in Alberton, the Albion Terrace and Wisner; in Tignish the Railway; in Kensington, Clark's and Commercial; in Montague,

In addition to those already mentioned there are other towns and villages in the Province with hotel accommodation, while many farm houses prepare for the reception of tourists. The rivers and streams teem with trout, the bays with mackerel, while game of every description abounds

How a Shrewd Negro worked the Eclipse.

A Tyler despatch says:—Before the recent eclipse Sunday night, while negroes from several large plantations to the eastern part of the county were at church, a strange negro appeared and told them that he had been told in a dream that early the next morning a small black spot would appear on the sun which would grow larger and larger until finally the sun would become almost obscure. This he explained, would be a sign of God's displeasure at their sinful ways and of their miserly gifts to the church and the poor, and in case liberal donations were not made to appease God's wrath awful things would happen. He furnished a member of each family with a darkened glass, with instructions how to use it, and warned them in case the spot appeared to lose no time in getting to church and to come prepared to make liberal gifts and to pray.

The game, it is said, worked like a charm, and as soon as the spot on the sun was observed the negroes hastened to church with whatever small change they had, which was turned over to the strange negro. Shortly after the eclipse the negro left on his errand to distribute the gifts to the needy and has not been seen since in that section.

AT THE

BEE HIVE

Almost daily we are receiving additions to our stock. Already we have landed three cargoes made up of almost every size of dimension lumber in Hemlock and Spruce.

TO THE BUYERS' INTERESTS

We have made our season's purchase. The quality is always first and uppermost—and we never forget that there must be a combination of quality and price that will be appreciated by Bee Hive Patrons. It will be impossible to enumerate addition after addition to our stock as it arrives but lumber hunters will find at the Bee Hive a general supply for every day usefulness.

The spring trade left our stock in a low state before the opening of navigation but we fully expect to be up to the requirements of the trade from this forward. PHONE 181.
