The story I have in mind concerns Henry Labouchere and a well-known cleric of the time, who drove down to Epson to witness the race together.

In his usual manner Labouchere began to lay down the law regarding the form and chances of the various horses. He went so far as to offer to lay his 'soul to a six pence' against the chances of one particular horse.

The cheryman leaned forward with an impassive face and crushed La bouchere in a sentence by asking him if he did not think he was offering rather short odds.

TO REMOVE BLUING To remove bluing stains from fabrics soak in strong ammonia water or in kerosene and wash with napha soap in lukewarm water.

Football players on the Fiji Islands do not wear shoes or any other football protective paraphernalia.

MINARD'S KING OF PAIN LINIMENT

Central Guardian

CALEDONIAN CLUB PARADE starts from the Club rooms shortly after 6 o'clock today and will proceed to the Exhibition Grounds where a fine program of sports, horse-racing, and dancing, will be carried out.

TONIGHTS PARADE.—Citizens should bear in mind that the auto and float parade tonight will be judged in classes; one class for convenient floats, the three others for the most original, the most artistic, and the finest, respectively.

BLUEJACKETS IN SCOTTISH PARADE.—The Captain of the H. M. C. S. "Patriot" has kindly consented to allow forty of his men to take part in the parade of the Scotchmen to the Exhibition Grounds tomorrow afternoon.

PERSONALS Mrs. G. H. Beaman and children of Moncton, N. B. are visiting friends and relatives in P. E. I.

Mrs. Wm. H. Singleton with her young son William Jr., of Wakefield Mass. arrived by Monday night's train on a holiday visit to her parents Mr. and Mrs. L. P. Tanton and her other many friends

Mr. Theodore Monaghan arrived in the City Tuesday night from Regina, where he was engaged on the teaching staff of Campion College.

Miss Dorothy Saunders of Charlottetown, is spending a few days at Winsloe with her cousin Miss Doris Seiler.

Miss Jennie Kiely, Charlottetown and Miss Gladys McNutt, Malpeque Registered Nurses at the Royal Victoria Hospital, Montreal arrived home this week for their summer holidays.

Mr. and Mrs. Dill (formerly Miss Bessie Alward, Summers) and their little son Billie of Winsloe, N. S., are spending a few days in Charlottetown guests at The Russ.

Mrs. Leslie Bryenton, Wineloe, has returned from a visit to Rev. George and Mrs. Elliot of Buctoche, N. B.

Since 1901 Canada has increased its export trade by 400 per cent. and now ranks fourth among the world's trading countries.

The manufacture of automobiles and accessories involves employment to more than 15,000 people in Canada directly, and indirectly to as many more engaged in the production of raw materials for automobiles; in transportation of this raw material and the finished product; in the construction and maintenance of improved highways, and in countless other activities wholly or partially affected by the general use of automobiles.

Those who wonder at the continued increase in the sale of automobiles must realize that the big increases are in cars selling for less than \$1,000. These constitute more than 80 per cent. of the present market.

The smaller percentage of cars selling for more than \$1,000 go into the hands of those who can afford those refinements and special features which, while not essential to maximum utility, lend distinction and social prestige in keeping with the financial status of their owners.

The automobile industry could never have attained its present tremendous totals over a period of 23 years had not its product more than justified itself economically.

Its proper use lengthens life, increases efficiency, stimulates general business and promotes the wealth and stability of the country.

The most geologically unsettled part of the earth's surface is the western shore of the Pacific ocean.

Forty per cent of the soot falling in Salt Lake City was found to be combustible, and therefore waste fuel.

MASSED BANDS, DECORATED FLOATS, EXCITEMENT GALORE

In the Grand Decorated Parade of Royal Marines, Firemen and Floats Which Will Take Place To-night at 7.30 Sharp.

The finishing touches have been put on the many floats which will appear in the big parade tonight.

Citizens are requested not to park their cars too near the street corners, as some of the floats are very long and require all the space possible to get around the corners.

No float will be entitled to more than one prize.

The Committee in charge wish to impress on the citizens of Charlottetown the opportunity afforded them of decorating their privately owned cars or carriages and help to swell the parade which promises to be one of the best and largest ever held in the city.

Fifty marines from H. M. C. S. Patriot will take part in the parade to give citizens and spectators

per cent. increase. Think of that! Between 1901 and 1921 the value of field crops increased from \$194,953,420 to \$331,863,670; of live stock from \$28,651,157 to \$76,720,000; of the fisheries from \$25,737,154 to \$49,241,339, and of mines and minerals from \$65,797,911 to \$172,327,580.

The products of manufacturers increased in value from \$481,053,376 to \$3,458,036,976; the wages paid from \$113,249,550 to \$629,790,674, and the number of employees in manufacturing alone from 339,173 to 678,337.

The chartered bank deposits increased from \$349,480,000 to \$1,778,179,000, the total of fire insurance from \$1,023,827,413 to \$5,987,358,057 and of life insurance from \$463,769,034 to \$2,934,844,288.

Thus the value of farm and animal products has increased nearly fivefold; of live stock threefold; of mining products threefold; of manufactures fourfold; of wages fivefold; of bank deposits sixfold; of fire insurance sixfold; and of life insurance sixfold.

Since 1901 Canada has increased its export trade by 400 per cent. and now ranks fourth among the world's trading countries.

It has to be remembered also, that for nine years, the progress of the Dominion was vitally affected by the war and the period of readjustment which followed.

Surely these facts should give us hope and confidence for the future and surely there is no soil more unfavorable for pessimists than that which is embraced within the boundaries of Canada.

The manufacture of automobiles and accessories involves employment to more than 15,000 people in Canada directly, and indirectly to as many more engaged in the production of raw materials for automobiles; in transportation of this raw material and the finished product; in the construction and maintenance of improved highways, and in countless other activities wholly or partially affected by the general use of automobiles.

Those who wonder at the continued increase in the sale of automobiles must realize that the big increases are in cars selling for less than \$1,000.

These constitute more than 80 per cent. of the present market. Such cars are sought for their money-earning power. They earn their cost and keep.

The smaller percentage of cars selling for more than \$1,000 go into the hands of those who can afford those refinements and special features which, while not essential to maximum utility, lend distinction and social prestige in keeping with the financial status of their owners.

The automobile industry could never have attained its present tremendous totals over a period of 23 years had not its product more than justified itself economically.

Its proper use lengthens life, increases efficiency, stimulates general business and promotes the wealth and stability of the country.

The most geologically unsettled part of the earth's surface is the western shore of the Pacific ocean.

Forty per cent of the soot falling in Salt Lake City was found to be combustible, and therefore waste fuel.

Interesting Experiments

(Continued on Page 3.)

shell mud in 1918. There was one permanent check plot that has not received any fertilizer or manure since the property was acquired in 1913.

The lowest at 1,000 pounds per acre, was reasonably uniform. In 1922 the fertilizers for potatoes, according to the various formulae as mentioned above, were applied. Using the prices paid for fertilizers in 1924, the most expensive application, namely one ton to the acre of a 6-6 mixture cost \$34.35.

The place of starting will be the City Hall. The parade will be headed by the Royal Marines, City Fire Dept., decorated floats.

The parade will form up at 7.15 in order to move off at 7.30 sharp. All those who are on time and thus avoid confusion.

The Judges are without exception picked from other provinces.

Is the Auto?

Funeral of the Late Dr. Geo. Carruthers

Seldom has Charlottetown witnessed so large a funeral gathering or one in which the sense of personal bereavement and sorrow was so manifest, as that which assembled yesterday to pay the last tribute of respect to the late Dr. Carruthers.

The impressive funeral service was conducted at the home assisted by Rev. D. K. Ross, North Bedeque and Rev. Wm. Orr Mulligan, the musical part of the service being conducted by the Choir of Zion Church.

Members of the Loyal Orange Association, the Medical Association of Prince Edward Island, the Nursing Staff and Graduate Nurses, in uniform and representatives of the Trustee Board of the P. E. I. Hospital attended in a body, while very many friends from different parts of the Province were also present.

An exceptionally large collection of tributes gave eloquent testimony of the love and sympathy of distant and near friends.

The pall bearers were Mr. Justice Haszard, Messrs. H. R. Hill, C. R. Smallwood, E. H. Beer, Chas. Ross and J. A. Robertson.

At the grave in the People's Cemetery the burial service was conducted by the Rev. G. C. Taylor and Rev. Theodore Ross.

The funeral was under the direction of Undertaker N. D. MacLean.

Pacing Title To Be Decided on July 22

KALAMAZOO, Mich., July 16.—The pacing championship of America will go to the winner of the \$25,000 American Derby, to be paced by the best Grand Circuit talent Tuesday, July 22nd.

The race also will earn the winner's owner \$17,000.

As yet there has been no indication of the number of entries. Forty-three are eligible, only two having been declared definitely out of the event.

Grand Circuit officials believe that at least 50 will take the word, and it may be necessary to race a preliminary heat to thin the field.

The amazing effect of Blue-jay on a corn

BLUE-JAY is the new way, safe, scientific, quick, to treat a corn. Stops the pain instantly you apply it. Then the corn loosens and comes off. A noted scientist discovered it—different from any other corn remedy. Does away with dangerous paring. Gives quick and lasting relief. Use it tonight. Walk in comfort tomorrow.

Afternoon Tea and Festival At Govt. House

A delightful Afternoon Tea was held yesterday in the reception hall at old Government House, Mrs. Chas. Lyon and Mrs. W. K. Rogers pouring tea. In conjunction with the Tea, there was a Strawberry and Ice-cream Festival on the verandah and grounds, at which cold lemonade and ginger ale could also be procured. The affair provided entertainment and refreshment to large crowds both afternoon and evening and is due to the efforts of Mrs. S. R. Jenkins and Mrs. H. H. Horne, the presidents of the Orphanages, which it will aid. The Tea and Festival, which will be carried on to day and to-morrow has been made possible by the hearty work and support of co-workers from the various city churches and we bespeak for it a large and generous patronage in the next two days.

BIRTHS

MCPHEE—At Fairview, to Mr. and Mrs. John MacPhee on July 5, 1924, 6 boys and a girl.

SIMS—On June 30, 1924, at Birmingham, Ala., to Mr. and Mrs. Edw. Sims, (nee Margaret MacNeill) a daughter, 8 lbs.

BRINGING UP FATHER

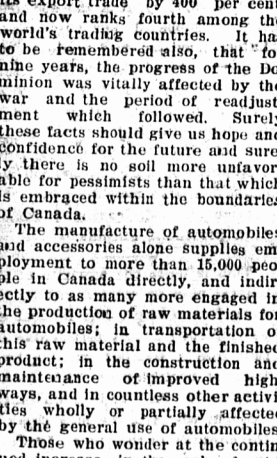

CABINET POSSIBILITIES?

There is little doubt that Messrs. Fielding, Murphy and Low will retire from the Government owing to continued ill-health. Names most mentioned in connection with the appointment of their successors include Hon. A. B. Hudson, of Winnipeg (top), Hon. W. S. Fielding (centre), and Hon. T. A. Low (bottom). Mr. Low has only been occasionally in attendance.

TO LEAVE CABINET

It is rumored that some new faces will appear in the Dominion Cabinet possibly before long. The continued ill-health of Hon. Charles Murphy (top), Hon. W. S. Fielding (centre), and Hon. T. A. Low (bottom) will sooner or later result in a reorganization of the cabinet.
