The death occurred suddenly last night of Robert Waddell of Summerside. He had been working all day and was apparently as well as usual when, while eating his supper he was taken suddenly ill and before medical assistance reached him, he was extinct. Heart failure was the cause. He was a much respected citizen and his death will be a loss to all. He was about 60 years of age.

An unknown drunken man entered the hall of Mr. McCready's dwelling Thursday night and after trying the inner door, which was locked, went out, leaving the street door after him. He took with him two umbrellas and a metal cigarette. These articles he took with him to the Queen Hotel, leaving the Queen he called at the Victoria, where the police was taken from him as evidently having been stolen. It was restored to the owner.

Last night at the Opera House the Parkins Company brought to a close their most successful engagement which began on Monday last, by producing a comedy play—The Usurper. This is a comedy drama founded on the familiar plot contrived out of an American millionaire purchasing an English estate and retaining the family of the house as vassals. The new owner discovers a villain paying attention to a young lady related to the owners of the ancestral home. As he loves the maid himself, and generally gets what he wants, his adventures along the rough road which mark true love's course furnish many interesting situations, which were well handled. There was lots of healthy laughter in the piece and some bright dialogue. The performance was relished by a large audience. Mr. Harkins and his company plan a return to Charlottetown next spring.

THE ROYAL MONTH AND THE ROYAL DISEASE.

Sudden changes of weather are especially trying, and probably to none more so than to the scrupulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its banches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many suffering from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative, consumption.
