MOST DREADFUL OF SKIN DISEASES

A Chronic Case of Eczema of 30 Years Standing Cured by

DR. CHASE'S OINTMENT.

The demand for Dr. Chase's Ointment during the summer months is enormous. It is during the warm weather especially that there is such suffering from Eczema and similar skin diseases. That Dr. Chase's Ointment is a thorough cure for this torturing disease is proven in hundreds of cases similar to the following:

Mr. G. H. McConnell, engineer in Fleury's Foundry, Aurora, Ont., states: I believe that Dr. Chase's Ointment is worth its weight in gold. For about thirty years I was troubled with eczema, and could not obtain any cure. I was so unfortunate as to have blood poison, and this developed into eczema, the most dreadful of skin diseases.

I was so bad that I would get up at night and scratch myself until flesh was raw and flaming. The torture I endure is almost beyond description, and now I cannot say anything too good for Dr. Chase's Ointment. It has cured me, and I recommend it because I know there is nothing so good for itching skin.

Few people realize the suffering caused by eczema and other itching skin diseases. This is an example of what Dr. Chase's Ointment is doing in the way of relieving suffering mankind. Many of the cures it brings about are more like miracles than anything else; 60 cents a box at all dealers or Edmanson Bates & Co., Toronto.

For the benefit of some people who don't know the difference between Bokhara, Astrakan and Persian Lamb.

FURS

These is as much difference between Astrakan and Bokhara Jackets as there is between Bokhara and Persian Lamb.

Astrakan which is situated in the South East of Russia on the Caspian Sea is noted for the immense quantity of Astrakan Lambs that are raised for their Furs. The color of the Astrakan is mostly cream with brown, greyish or red spots in them. The Lambs are killed when quite young and the best pelts are sent to Lipsig, Germany to be dressed and dyed while the poorer pelts are dyed in Canada and other places. They require to be dyed and redied to give them a good gloss and finish, which injures the pelts to a certain extent.

Bokhara is a different breed of lamb altogether. The Bokhara Lamb is always Black and is a native of Bokhara, which lies between Turkestan and Afghanistan in Asia away south of Astrakhan in Russia.

The Fur is much closer and finer curl than the Astrakan and the pelt is also thicker and stronger. The fur being naturally black has only to be dipped in dye to give them a gloss.

Persian Lamb is a native of Persia which lies a little south of Bokhara. Persian Skins have a still finer curl than Bokhara. So you will notice the further you go north the coarser and longer the fur, the further you go south the finer the Fur and curl.

Persian Lamb and Bokhara are animals that are born back, Astrakan is born, white or cream, sometimes spotted, but never Black. Now if you take the trouble to drop into the Leading Fur Store of P. E. Island, we can show you the difference and the difference is so great you won't need to take your glasses with you.

We handle the Famous Coristine Astrakan Jackets the best in the world, every pelt in it is dyed in Germany, and every jacket has a linen lining stitched to the pelt to give the strength. It is impossible to tear them. Our Bokhara Jackets are done in the same way.

Our guaranteed Astrakhan Jackets at \$23.00 is the best to be had in all Canada. We have them every price up to \$49.00. Our guaranteed Bokhara is hard to tell from a Persian Lamb the curl is a little larger but the quality is just as good prices from \$55.00 to \$65.00.

Persian Lamb from \$98.00 to \$200.00.
Grey Lamb from \$50.00 to \$65.00.
Russian Lamb from \$50.00 to \$75.00.
Other guaranteed Jackets from \$12.50 to \$200.00.
