MASS AIR RAID ON PARIS

Allies Range Far And Wide To Hit Enemy

Air Activity Believed Pre-lude To Intensive Action By Land And Sea.

CLAMOR FOR ACTION IN ITALY RISING

Meeting of Cabinet Today May End the World Suspense on War Aims.

ROME, Italy, June 3—(AP)—With clamor for action against the Axis rising, the Italian cabinet prepared to meet at 10 a. m. tomorrow, (6 a. m. A.D.T.) perhaps to end the world's suspense as to Italy's intentions about entering the war.

The Fascist grand council, as the nation's highest policy-forming body, generally is called upon to approve any major step Premier Mussolini intends taking, no meeting of that group is scheduled at present.

War—25 Years Ago Today

JUNE 4, 1915—Allied forces launched third attack at Krithia, Gallipoli, but failed to pierce Turkish positions. Airships raised English east and southeast coasts of Russia. Russian forces withdrew from Przemyel.

LONDON, June 3—(CP)—Allied warplanes, ranging along the far-flung front of the war, brought down planes as far north as Narvik and as far south as Paris today as the war in the skies entered a new phase with bombardment of the French capital.

Unofficial estimates tonight placed German plane losses at 2,500 since total war began May 10. Of this number it is believed 2,069 have been shot down in action. The remainder probably were put out of action.

Allied losses, officially said to be the ratio of three to one, would therefore be somewhere between 700 and 1,000 planes.

Much of today's activity was directed by both Nazi and Allied fliers to extensive reconnaissance, inevitable prelude to the intensive action on land and sea likely to follow the present lull in land and sea operations.

Although the blackout made everyone feel that cities would be attacked at night the Nazis struck in broad daylight with stumpy axes with more than 200 craft over the capital.

Germans Married

The Air Ministry announced that Royal Air Force squadrons during the night of June 3-4 were the Germans besieging the entrenched camp of Dunkerque, attacking gun emplacements, communication hubs and other concentrations with no loss to themselves.

The statement said that six enemy machines were shot down in Narvik Saturday and Sunday, in-

Four Dead In N. B. Fire

EDMUNSTON, N. B., June 3—(CP)—Four men were dead tonight and four were in a serious condition when they fell 50 feet from a wood conveyor at the Fraser Companies plant here. They had climbed up the conveyor in an effort to extinguish a fire but became trapped and fell amid a mass of debris when a steel cable snapped.

Willie Nadreau, St. Jacques, and Theophile Michaud, Edmundston, died a few minutes after the plunge. Archie Mignault succumbed a few hours later and Remi Couturier died tonight.

Japs Claim Vital Concern In East Indies

TOKYO, June 3—(AP)—Japan has the same vital concern over developments in the Netherlands East Indies that the United States has in events in Mexico and Cuba. America and cannot remain unconcerned at any developments which might change the status quo in those rich islands, foreign minister Hachiro Arita declared today.

The minister addressed a meeting of the House of Representatives, an organization composed of numerous highly-placed military and government officials.

He emphasized the economic importance of the East Indies to Japan and told the institute that "it is but natural that Japan should entertain the most serious concern over the maintenance of the economic status quo there as well as the political."

Although the Indies belong to a European nation, they are intimately linked with the destiny of East Asia, Arita said.

Commander Douglas King, above, one of the co-pilots who flew Britain's then Prime Minister Chamberlain to Munich for the famed 'appeasement' pact, has been killed in action, according to notification received by his American-born wife. The other co-pilot died in a plane crash in England last November.

N. Y. Papers Clamor For U. S. Action

NEW YORK, June 4—(CP)—The New York Herald Tribune called today for a "rend" to the United States position of neutrality in the war. It urged the sale of army planes and other military material to the Allies, saying "forceful action is urgently needed."

"In the judgment of this newspaper, the time has come for the United States to stand up before the nations of the world and declare that while asserting its non-belligerence, its neutrality in respect to the European war has come to an end," said the Herald Tribune in its leading editorial.

"This country cannot, in our opinion, longer remain bound by the rigid fetters of formal neutrality. Let us be specific. We have several hundreds of pursuit planes of late design ready for action. We believe that these last planes should be put in the hands of the Allies at the earliest possible moment to help save Paris and London from wanton destruction."

"If this kind of fiasco continues, if Paris and London are to become shambles of ruined buildings and murdered civilians, the fires of hate will not be quenched in our time. The anger of civilized peoples will burn so fiercely that it will consume the hateful German system which has loosed these horrors upon the world."

Remanded To Jail After Stabbing Affair

HALIFAX, June 3—(CP)—A man who used his name Charles Ingalls, of Winnipeg, Man., was remanded to jail until June 6 by Magistrate R. J. Flynn today, after pleading not guilty to a charge of committing grievous bodily harm. Adjudgment was made to enable the crown to summon witnesses.

Ingalls was arrested last night after a fight in a Halifax restaurant, Lance Corporal Cahill Chever, of the Prince Edward Island Highlanders, suffered two deep knife wounds in his thigh and was removed to military hospital. Also injured was Lance Corporal McInnis, of the P. E. I. H.

Police said they were informed the wounds were inflicted by a knife in the hands of a civilian after the latter had started an argument with a group of soldiers.

British Launch Drive To Speed Arms Production

VAST ARMADA TOOK B. E. F. FROM FLANDERS

Loss in Magnificent Military-Naval Move Was Six Destroyers—24 Minor Craft.

LONDON, June 3—(CP)—A vast armada of nearly 900 British naval and private craft brought home the Expeditionary Force with thousands of French and Belgian allies, the Admiralty revealed tonight in announcing that the cost to the Royal Navy was 30 ships—six destroyers and 24 minor vessels.

The Admiralty in a long statement called the withdrawal from Dunkerque "the most extensive and difficult combined operation in naval history. It said the constant ferrying of men across the channel in defiance of the German air force operating constantly from nearby bases was carried out in the face of "intense and almost continuous air attack and increasing artillery and machine-gun fire."

It listed these losses in the week-long operation which now is

By Sam Robertson Canadian Press Staff Writer

LONDON, June 3—(CP CABLE) The Government today launched a national survey of a grand assortment of industries with a view to further speeding up of production or armaments for Tommy Atkins who upon arriving from Flanders bloody and weary promised: "Give us the same equipment and we'll wipe the Huns off the face of the earth."

The survey is expected to reveal that a large amount of machinery and skilled manpower can be diverted to the production of munitions and other war equipment. It will embrace factories turning out products as widely diversified as corded and fishhooks, chemicals and gold lace.

A census is already being taken of the machine-tool, aircraft and a few other vital industries.

As a means of accelerating production, it was announced that garages working part time due to the war-time curbs on motoring will be stripped of their lathes and other machinery for the establishment of more shops. The United Kingdom has been divided into 17 areas and idle machinery will be set up in central plants of each area.

Britain came closer and closer to the conviction that before long the Allies will have a second option in the way—Italy. Foreign Office sources, who until lately refused comment on the Italian question, now view war with Italy as a "distinct possibility." It was apparent that Britain faces that issue with equanimity.

Foreign Office circles emphasized that "even at this late hour we are ready to discuss any real or imaginary Italian grievances."

Man Dies In Starving Condition

HALIFAX, June 3—(CP)—Body of Ernest F. Nickerson, 31-year-old native of Halifax, who died Saturday, was forwarded to Glouce Bay, N.S., tonight for burial.

"Last Ditchers" Return With Spirit Undaunted

British Nation Heartened By Epic Exploits Of Land And Sea Forces In Evacuating Dunkirk.

(By GREGORY CLARK) (Copyright 1940, Star Newspaper Service)

SOMEWHERE IN ENGLAND, June 3—In past months I have seen stranger as well as the most terrible sights of my life, but today two trains side by side in the railway station of a Channel port gave me a grand finale of all the experiences of this surreal war.

Quality Gives Flavour "SALINA" TEA

TO OTTAWA

MR. W. J. MONAGHAN

From Ottawa comes the announcement that Mr. W. J. Monaghan, of the local branch of the I.C.M.P., has been transferred to head-structural staff at the training depot at Rockcliffe, Ont.

For the past eight years he has served with the local unit, having been formerly engaged in the P.E.I. Provincial Police. Mr. Monaghan was born at Hazelbrook, P.E.I., and is the son of Mr. James Monaghan, a teacher for some time in the province of Saskatchewan before becoming a member of the police force here.

In his home, Charlottetown, he will lose an active worker in community service. He is a member of the local branch, and secretary-treasurer of Gyo International, District 6. He has also been engaged in helping the P.E.I. Tuberculosis League.

Mr. Monaghan and family expect to leave next week for Ottawa. The P.E.I. branch will follow them in their new sphere of life.

King George Praises Three Armed Services

LONDON, June 3—(CP)—The King in a message to Prime Minister Winston Churchill tonight praised "the bravery shown by the three services (navy, army and air force) and the merchant navy, in the Dunkerque evacuation and declared it had "turned disaster into triumph."

The message follows: "I wish to express my admiration of the outstanding skill and bravery shown by the three services and the merchant navy in the evacuation of the British Expeditionary Force from northern France."

So difficult an operation was only made possible by brilliant leadership and an indomitable spirit among all ranks of the force. The measure of its success—greater than we had dared to hope—was due to the unflinching support of the Royal Air Force and in the final stages the tireless efforts of naval units of every kind.

While we acclaim this great feat, which our French Allies, too, have played so noble a part, we think with heartfelt sympathy of the loss and sufferings of those brave men whose self-sacrifice has turned disaster into triumph.

Beer For War In Australia

CANBERRA, June 3—(CP)—Australian demand for beer is helping the southern Commonwealth fight the war. Despite a 13 per cent rise in the excise tax on beer at the start of the war, revenue from this source shows a 30 per cent increase in the last six months. It totals about \$4,000,000 annually—or about one-tenth of Australia's war budget for the first year.

Nazi Bombers Rain Death On French Capital

Raiding Enemy Planes Meet Hot Reception With 17 Downed—45 Killed, 149 Wounded—Schools Included In Objectives.

PARIS, June 3—(AP)—French fliers and anti-aircraft batteries downed at least 17 of the hundreds of German planes that rained more than 1,000 bombs on Paris and its outskirts today, killing at least 45 and firing and blasting many buildings.

The wounded totalled 149. The Air Ministry gave a hint that the terrifying Nazi raid may have come as retaliation for a plane bombardment made last night by French fliers on numerous German airports.

Its announcement, coming only after the French capital area was attacked in the early afternoon today, said more than 30 tons of explosives were dropped on Germany Sunday night.

The Allied High Command, in announcing that 17 of the 250 to 300 attacking German planes were blasted out of the sunny June skies around Paris, emphasized that the count was still incomplete.

French fliers engaged the Nazi air invaders in numerous dog-fights over the capital and its environs. The Air Ministry described the attackers as advancing in a "strong column" which was engaged by quickly-rising French planes in "furious combat."

New Air Trippers For All Weather

KANSAS CITY, June 3—(CP)—The American air traveller will be able to walk aboard a new type of airliner after June 15 and be carried as high as four miles in an altitude-conditioned cabin for "over-weather" trips at more than 200 miles an hour. The new transports will accommodate 33 day passengers and 25 night passengers with a top speed of 242 miles an hour. The four-engined planes are intended as an answer to one of the airlines' most critical problems—the cancellation of flights in bad weather.

Having To Hang On Straps In Streetcars Is A Complaint of Long Standing

Meteorological service, Toronto June 3—(CP)—Minimum and maximum temperatures: Dawson 43 74, Vancouver 51 73, Edmonton 57 69, Regina 46 75, Winnipeg 37 69, Toronto 58 80, Ottawa 58 80, Montreal 61 82, Quebec 51 76, Saint John 49 73, Halifax 49 76, Charlottetown 43 77.

Egypt Takes 700 Suspects Into Camp

ALEXANDRIA, June 3—(CP)—The Egyptian government created a special counter-espionage bureau tonight as 700 "fifth column" suspects, seized in a weekend roundup in interment camps.

King Farouk and members of his court, originally scheduled to arrive here today to spend the summer at his Palace Ras-El-Tin, delayed their departure from Cairo. An official announcement said it had not been decided whether the King would come to Alexandria. Egyptian interest centred on Italy as the key to any change in the Mediterranean situation. It was noted that the sailing of the liner Egeo for Italy today, taking 200 Italian ships, cleared Egyptian harbors of Italian ships. Italian airlines, however, are reported continuing operations "for at least the next two days."
