HELP FOR YOUNG WOMEN

Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles."

Letters like this establish the merits of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact. If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Mrs. Pinkham's private text-book and learn more about it.

Insidious Eye strain. We use this adjective advisedly. Sufferers from Eye strain may have perfect vision and therefore do not suspect the presence of any eye defect. The motive power of the entire human organism is Nerve Energy. Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye strain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.
