**New Lamp Burns 94 Per Cent. Air Beats Electric or Gas**

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).

The inventor, G. A. Johnson, 246 Craig St., W. Montreal, is offering to send a lamp on 10 days' FREE trial or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without expenditure of money make \$250 to \$500 per month.

**An Appeal To the Electors**

Respected fellow citizens in my capacity as a member of the Board of Prohibition, Commissioners I would ask you to consider very seriously the importance of the issue before you on the 22nd inst. The real issue is a moral one and the best interests of the country at heart it becomes us to embrace the opportunity afforded us of recording our vote against the importation of liquors into our province.

Your commission has great difficulty in the enforcement of our local prohibition act under present conditions and I am convinced that a strong pronouncement of the people in favor of adopting Part 4 of the Canada Temperance Act which will result in closing up our whole sale liquor houses will greatly assist us in our work.

I am sure that each commissioner will appreciate the good-will and co-operation of every temperance man and woman in the province. The plebiscite will be taken on the 22nd inst. will provide an opportunity for all to co-operate in a practical way by rolling up a splendid majority for prohibition.
