NO HOUSES TO LET.—Mr. and Mrs. Grosvenor O. Wadman who arrived from Cambridge, Mass., in June to make their permanent home in Charlottetown, Mr. Wadman's native city, from which he had been absent from early boyhood, left a few days ago on return to the United States. Owing to being unable to rent a house in Charlottetown they were obliged to return to Cambridge. Mr. Wadman is a sign-painter by trade and had no difficulty in securing all the work he could handle, but as the furnished house which he occupied for the summer was wanted by the owner and no other was in sight he found himself obliged to take his departure. What is Charlottetown going to do about its housing problem? This is a question which many citizens are asking today.

A PLEASANT SOCIAL.—The home of Dr. J. T. Collins, Vernon River, was the scene of an enjoyable social a few evenings ago, the occasion being a complimentary gathering in honor of his two daughters, the Misses Mary and Margaret, who are leaving shortly, the former to take up the study of nursing in Water Street Hospital, Ottawa, and the latter to continue her studies at Carney, South Boston. A goodly number of their young friends gathered and spent the evening in music, games and general merriment. Towards the close of the evening Miss Mary was presented with a handsome travelling bag to the accompaniment of a number of speeches by some of the gentlemen present, all of whom referred feelingly to the loss about to be sustained by the community in her departure. Miss Collins is a talented musician and vocalist and has generously given time and talent for the benefit of everybody calculated to benefit the community. She is a social favorite and will be greatly missed. Miss Margaret has been studying in Boston for the past year. The best company both to their destination.

Minard's Liniment Co. Limited, Gentlemen.—Ever since coming home from the Boer war I have been bothered with running fever sores on my legs. I tried many salves and liniments; also doctoring continually for the blood, but got no permanent relief, till last winter when my mother got me to try MINARD'S LINIMENT. The effect of which was almost magical. After two bottles the sores completely disappeared and I have worked every working day since. Yours gratefully, JOHN WALSH.

CHILD INJURED.—The six year old son of Mr. Neil Ferguson of Highfield while crossing Queen Street opposite the market house on Tuesday was struck by an automobile which was going slowly at the time. He was with his parents and two other children at the time. The child was shoved along the street by the front wheel and had one side of his face badly lacerated and an ear badly torn. He was taken to a physician where the ear was stitched and the other injuries attended to.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH OF THE EAR, NESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrh of the Ear, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages toward the lungs which is equally as dangerous.

The following formula which is used extensively in the English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Permin (Double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one teaspoonful four times a day, this will often bring quick relief from distressing head noises. Closed nostrils may be opened, breathing become easy and hearing improve as the inflammation in the eustachian tube is reduced. Permin used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.
