FOUR-POWER AGREEMENT SIGNED AT MUNICH CONFERENCE

War Tension Relaxes In London

Map Indicates Proposed Settlement

Hitler drew a map from which this was copied to show Premier Chamberlain on his visit to Godesberg. It shows the areas to be ceded to Germany. The black fringe on the boundary of Czechoslovakia is to be ceded outright by Oct. 1. Hitler proposes. The areas shaded are those in which he demands that plebiscites be held before Nov. 25. The effect of the plan is to strangle the Czechs economically and militarily dividing their industries from raw material and robbing them of natural defences. This map was obtained from Czech sources and radiated across the Atlantic.

Hysterical Scenes Greet 'Good News'

Relief Expressed On All Sides As Crowds Acclaim Premier Chamberlain.

(By Guy Rhodes, Canadian Press Staff Writer)
LONDON, Sept. 30—(Friday)—Britons, joyfully greeting an assured peace, today faced the task of undoing war preparations that cost many millions of pounds—but they did not care about the money. As tension sagged it was realized that millions of persons had worked frantically to prepare for a tragedy that had been averted, that the strain had made many people ill, that some had committed suicide and that others had worked grimly without admitting until it was all over how frightened they had been.
Last night a theatre crowd of 3,000 leaped to their feet and yelled for five minutes when the management announced news from Munich that an agreement among the four statesmen assembled there might be expected momentarily.
During the evening people gathered in front of 10 Downing Street and shouted praise at the fair-haired man who had made up his mind to risk his hat and umbrella when he is home.
Less than a week ago huge crowds shouted "Chamberlain must go" before the same door.
Almost Mobbed
Mrs. Chamberlain was almost mobbed when she left St. Michael's Church where she attended to the Archbishop of Canterbury address an overflow congregation on the subject of simple friendships, loves and homes.
A large crowd applauded her for several minutes while she waited on the steps of the church. As she entered her car shouting women, tears streaming down their faces, grasped her hand and clambered on the running board.
The Prime Minister's wife, almost speechless and near tears, was herself managed to say: "Thank you, Oh thank you."
The women freely admitted they had been afraid war was a certainty. One told The Canadian Press: "I had made up my mind I probably had about a month to live, then I would be bombed."
A read-haired barmaid cried: "Everyone should lift up their hands and thank Almighty God. A sour-faced older woman apparently shocked by the emotion display, growled: "What for? We don't know we won't have to fight yet."
Despite the relief, however, digging of bomb shelters continued.

P.E.I. PREMIER GIVES ADDRESS ON DEMOCRACY

SEIGNIORY CLUB, Que., Sept. 29—(CP)—Democracy could not be saved by the Communist and Fascist in the abstract, nor yet by rescinding platitudes in praise of democracy. Premier Thane A. Campbell of Prince Edward Island said at a luncheon of the Canadian Chamber of Commerce today.
The only means of combating Fascism was to forestall it, by infusing into democratic institutions greater practical efficiency and more business-like methods, by curbing the present trend toward paternalism and by stimulating individual initiative.
Similarly, the effective way of combating Communism was to forestall it by developing within democracy, in social, political and industrial fields, an increased measure of voluntary co-operation, security and opportunity.
"The propaganda of the '30s' is a long way toward the achievement of these objects," he added. "Democracy must be a dynamic and progressive form of government and not a static or abstract concept."
With a broad smile, the Premier referred to his own entirely-Liberal Legislature, and remarked "It seems strange that the head of such an autocratic dictatorship should be asked to speak to you in defence of democracy."
Present democratic countries were in necessity less democratic than the old Greek city states, the only examples of thorough going democracy, in that the sovereign voice of the people could not be voiced in public meetings in the market place. Events at home and abroad caused disappearance of

COMING EVENTS

Sends Message Of Appreciation From Canada

OTTAWA, Sept. 29—(CP)—Prime Minister MacKenzie King tonight sent messages of appreciation and gratitude on behalf of the people of Canada to Prime Minister Chamberlain of Britain and President Roosevelt of the United States for their efforts in assisting the solution of the European crisis.
"The heart of Canada is rejoicing tonight at the success which has crowned your unrelenting efforts for peace," the Prime Minister said in his message to Mr. Chamberlain. "My colleagues in the Government join with me in unbounded admiration at the service you have rendered."

Japanese Invade Yunnan Province

SHANGHAI, Sept. 29—(CP)—Japanese reported today their initial aerial foray into Yunnan Province, in southwest China bordering on Burma and French Indo-China.
Japanese naval bombers were reported to have invaded the province on Wednesday, bombing the airfield and other military establishments of its capital, Kunming, (Yunnanfu).

Raging Tornado Kills Over Score And Injures Hundreds

BY ALDERMAN DUNCAN
Associated Press Staff Writer
CHARLESTON, S. C., Sept. 29—(AP)—A raging tornado dipped furiously into Charleston early today, killing at least 25 persons, injuring between 200 and 300, and damaging hundreds of thousands of dollars worth of property.
Hours after the destructive twister passed on, searchers dug into the ruins of wrecked buildings, and it was feared additional bodies would be recovered.
Hospitals listed 53 victims as seriously hurt, requiring confinement to bed. Others were given first aid for comparatively minor injuries and were discharged.
This historic city was thrown into confusion as the storm, which lasted scarcely more than a minute, broke down power and communication facilities, and blocked streets with uprooted trees, poles

INTERFERENCE SAID PROBLEM OF FARMERS

(By H. E. FREEMAN
Canadian Press Staff Writer)
SEIGNIORY CLUB, Que., Sept. 29—(CP)—Assistance of the farmer of Canada generally must take the form of a return to the kind of farming, in the opinion of F. E. M. Robinson of Upper Melbourne, Que.
"We who remain upon the land are the victims of too much interference," he said.
The former president of the National Dairy Council of Canada told delegates to the 12th annual convention of the Canadian Chamber of Commerce during a discussion of marketing of Agriculture products here tonight.

Returns Too Low

"All will agree there is an agricultural problem, and boiled down to its essence it consists of the fact that average returns for labor and capital are too low in agriculture compared with returns obtainable over a period of time in other occupations." The low return was the result of "too much interference," he claimed.
Such a situation was of foremost concern to business men and urban workers, for "in the future as in the past, the economic well-being of society will depend very largely upon the skill with which we make the fundamental exchange of food for urban products."
The Dominion Government had done "a great work" in the granting of products and regulations for export. "But when it comes to an extension of governmental activity beyond this into the sphere of actual marketing, we are on more debatable ground."

Thousands Seek Refuge In Eire

DUBLIN, Sept. 29—(AP)—Thousands of men, women and children poured into Eire from Great Britain today despite widespread hopes the Munich Conference would avert a European war.
Extra steamships were pressed into service on the Irish Sea to accommodate them.
Among the arrivals were many United States citizens who crossed from England in hope of getting liner bookings home. All shipping lists were filled at the moment, however.

Pressure Lifted

In Ottawa tonight there was a feeling that the pressure would now be lifted and that Government would be free to follow its routine course.
Outstanding among the matters occupying the Government at the moment is the Canada-United States trade agreement revision. The existing pact expires at the end of this year unless extended but since early spring negotiations have been proceeding at Washington to revise it.
At the same time United Kingdom trade experts have been negotiating in Washington for an Anglo-American trade agreement which would bind the two English speaking democracies in a still closer union. Negotiations on the two agreements have been proceeding simultaneously and probably in close cooperation.
It is generally assumed Canada will not attempt to abandon some of her preferences in the British market in order to facilitate conclusion of the Anglo-American agreement.
All negotiations have proceeded with the utmost secrecy and little information has leaked out. It is believed here that cabinet this week passed upon a draft agreement with United States and that negotiators, who brought it here from Washington and returned yesterday, will now be prepared to formulate a final draft.
Mr. King will go to Washington to sign the agreement and the belief here is that it will be within the next three weeks.

Resigns Post With Japanese Cabinet

TOKYO, Sept. 29—(AP)—General Kazuhide Ugaki resigned tonight as foreign and overseas minister following a month's conflict over the extent the Army and Navy should control affairs in China in the future.
His special advisers, former Foreign Ministers Hachiro Arita and Naotake Sato, also resigned.
Government officials said there would be no change in Japan's foreign policy.
The cabinet will meet tomorrow when Premier Konoye was expected to take over the foreign affairs portfolio until a successor to General Ugaki could be named.

Airforce Planes Land At Halifax

HALIFAX, Sept. 29—Seven Royal Canadian Air Force planes landed here from Ottawa shortly before dusk tonight for what was termed an indefinite stay for exercises.
The flight was in command of Squadron Leader Lawrence who commanded the R.C.A.F. eastern passage airbase here in 1925.

CANADA-U. S. TRADE ACCORD AGAIN TO FORE

Ottawa Returns To Normal Routine With Peaceful Outlook In Europe.

(C. P. by Guardian's Special Wire)
OTTAWA, Sept. 29—News of the peaceful progress of negotiations in Munich today indicating the possibility that war may be averted brought relief to Prime Minister Mackenzie King and his colleagues in the Dominion Government who have been facing the possibility of having to call Parliament to decide Canada's part in a world conflict.
Pending final outcome of the four-power conference the Prime Minister refrained from any comment on the day's developments. No cabinet council was called and none is scheduled until the regular weekly session next Tuesday.
Since Tuesday cabinet ministers have held themselves ready to meet on the shortest notice should events take a course demanding immediate action in Canada.
Mr. Mackenzie King said Tuesday the Government was preparing to meet any emergency and to call Parliament at once should the peace efforts fail.

Occupation By Stages

Occupation by stages of the predominantly German territories by German troops will begin on Oct. 1. The four territories marked on the attached map will be occupied by German troops in the following order:
Territory marked number one on the first and second of October; territory marked number two on the second and third of October; territory marked number three on the third, fourth and fifth of October; territory marked number four on the sixth and seventh of October.
The remaining territory of preponderantly German character will be ascertained by the commission of international plebiscites. The same commission will fix the conditions in which the plebiscite is to be held, taking as a basis the conditions of the Saar plebiscite. The commission will also fix a date, not later than the end of

Scores Taxation

Inflexible wage scales set by government control worked hard on farmers because it tended to fix the price of things the farmers had to buy even when prices for their own produce dropped. He classed high taxation as another interference with farmers.
Transportation charges, also, should be lowered, he continued.

Thousands Seek Refuge In Eire

DUBLIN, Sept. 29—(AP)—Thousands of men, women and children poured into Eire from Great Britain today despite widespread hopes the Munich Conference would avert a European war.
Extra steamships were pressed into service on the Irish Sea to accommodate them.
Among the arrivals were many United States citizens who crossed from England in hope of getting liner bookings home. All shipping lists were filled at the moment, however.

Peaceful Plan For Ceding Of Sudeten Territory Gives World Reprieve From War

Four - Power Conference Communique

MUNICH, Sept. 30—(Friday)—(AP)—The official communique issued at the end of the Four-Power Conference follows:
The United Kingdom, France and Italy, taking into consideration the agreement which has already been reached in principle for cession to Germany of the Sudeten German territory, have agreed on the following terms and conditions governing the said cession and the measures consequent thereon and by this agreement they each hold themselves responsible for the steps necessary to secure its fulfillment:
First—The evacuation will begin on Oct. 1.
Second—The United Kingdom, France and Italy agree that the evacuation of the territory shall be completed by Oct. 10 without any existing installations having been destroyed and that the Czechoslovak Government will be held responsible for carrying out the evacuation without damage to the said installations.
The conditions governing the evacuation will be laid down in detail by an international commission composed of representatives of France, Italy and Czechoslovakia.

Conditional Guarantee By Germany And Italy For New Czechoslovakia Frontier Contained In Agreement.

(By J. F. Sanderson)
(Canadian Press Staff Writer)
MUNICH, Sept. 30—(Friday)—(CP Cable)—An agreement was signed here early today by Great Britain, France, Italy and Germany designed to end the Czechoslovak-German crisis and give the world reprieve from war.
In general terms this agreement provided for occupation by Germany of the Sudeten areas of Czechoslovakia, starting tomorrow, and final determination of the republic's new boundaries by a commission representing the four powers and Czechoslovakia.
In addition to the areas to be occupied immediately, plebiscites to determine future sovereignty will be held in other areas under conditions set by the international commission.
At 2 a. m. (9 a. m. AST Thursday) the agreement was handed over to two representatives of the Czechoslovak government by Prime Minister Chamberlain of Great Britain and Premier Daladier of France who indicated it must be accepted for the sake of general peace.

Now Up To Prague

Naturally, it would not come into operation if the Prague Government turned it down. But there seemed to be every hope here it would be approved by President Benes and Premier General Srovy, thus removing the last threat to the immediate peace of Europe.
This hope was based on the fact the new agreement follows in general lines the Anglo-French plan which Czechoslovakia already accepted, but is in an accelerated form.
The agreement was signed at the end of 10 hours of conference between Chamberlain, Daladier, Premier Mussolini of Italy and Reichsfuehrer Hitler in this Bavarian City, birthplace of National Socialism, the scene of the 1923 beer cellar putsch and the University City where Hitler became the seventh man to join the infant Nazi Party.

Chamberlain Cheered

When Mr. Chamberlain returned to his hotel at 1:30 a. m. through long rows of black-shirted Storm Troopers he was given a tremendous ovation. He was cheered, hailed and given the Nazi outstretched arm salute. He smiled broadly, lifted his hat and waved his greeting.

Outline Of Accord

Included in the agreement was a map on which were marked four areas to be occupied by German troops before the end of the month.

Record, Forecast Of Weather

TORONTO, Sept. 29—Minimum and maximum temperatures:—
