

BE SURE TO VISIT MOORE & McLEOD Limited FRIDAY, JAN. 31

In the Ladies' Ready-to-Wear Department there are reductions of prices that you'll agree are sensational. In many other departments you will find new merchandise that has been in short supply for a considerable time. Our buyers have been fortunate in securing new goods that you will want to see.

Your visit will be appreciated by

MOORE & McLEOD Limited
CHARLOTTETOWN, P. E. I.

Mr. Edmond F. Pineau Addresses Rustico Community Club

A special meeting of the Rustico Community Club was held at the Parish Hall on January 28. The meeting opened by the singing of "O Canada" after which Rev. Father Pitre extended in very sincere words a heartiest welcome to a former Parishioner Mr. E. F. Pineau. He also welcomed Rev. Father Francis of the St. Dunstan Extension Department, M. W. J. Arsenault professor at P. W. C. and M. E. Arsenault from the Experimental Farm.

Mr. E. F. Pineau recalled in a few words the organization meeting held last October and remarked that considerable work has been done although there is much yet to do. He warmly congratulated the two young ladies who went to the Toronto Fair and had good success there in spite of the fact that they had received little training.

Mr. Pineau said that through the organization of this club a partnership had been established between

the members of the Department of Agriculture and the members of this Community club. They are there ready to help and their help is needed now more than ever perhaps as methods of farming have to be improved to meet with the circumstances. The youth are therefore those whom must be assisted as they will be the farmers and wives of tomorrow.

The speaker told the audience that there are now on the Island four types of clubs officially recognized, poultry, calf, swine and clothing clubs. All of these should be organized in any farming locality but they may start with less and grow. He also stressed the importance of good local leaders who must be greatly interested in educating both themselves and their members by studying the literature sent them and by doing the work asked of them.

It might be said in passing that Mr. Pineau always draws his speech to a close with very practical conclusions and Sunday evening he left this thought: "Every man should organize his life in such a way that his being a member of a community betters it."

A moving picture machine recently installed in the hall gave members the opportunity of seeing two films, one "Sing Song" and the other "The Life of a Salmon" furnished by the National Film Board

and a third taken by Mr. Pineau himself during his travels. This latter one showed the great work accomplished by different clubs in all parts of Canada and United States.

Reverend Father Francis of the St. Dunstan Extension Department brought broad smiles on all faces with his great sense of humour and then gave his audience a very interesting talk on the part Credit Union members could play in this Community club. The Credit Union should serve as a base for cooperation in all other fields. The speaker also said a few words on Family Allowance stressing the fact that this was given the families to better their conditions in as much as this was necessary for the clothing, nourishment and education of the children and certainly not the luxury of the parents.

He also spoke on the great need of local industries and mentioned in particular canning as there is here on the Island all that is good to eat and yet all canned goods come from outside.

Mr. Edmond Arsenault, who is also greatly interested in club work and who was the main pillar in starting the chicken club last year, promised to do his best to have a group of men come out to Rustico and hold a two or three day course on agriculture. This desire was expressed by the farmers through their pastor who knows that they will attend in great numbers these lectures. Mr. Arsenault also appealed to the farmers of this section to attend the Farmers Week and take notice of what is going on outside of their little circle.

Mr. Wilfred Arsenault did not think it necessary to make many remarks but those he did make were well pondered and very much to the point. He stressed the great need of processing more farm products stating that it was to the interest of the producer to see what brought up by him is worth noting. "When something is worth doing, it is worth trying to do it well." It might be said that he puts this in practice for his short speech was greatly appreciated by everybody present.

Mr. Pineau again took the floor to pass a few remarks on the film he had shown and to endorse remarks made by the other speakers. He mentioned in a special way the help that could be given these clubs by the Credit Union.

Reverend Father Pitre, the pastor takes a very active part in this Community Club and unless very unusual obstacles come up it will certainly be a success. As president of the Community Club he presided at this meeting and very ably fulfilled his task. Before closing the meeting he expressed in well chosen words the heartfelt thanks of the Parish to Mr. Pineau who shows so much interest in the welfare of his renown native parish.

TAKE TO-NIGHT MIDNIGHT ALL-VISITABLE LAXATIVE

The Life Underwriters Association of Canada held its fortieth annual meeting in Toronto recently at which 88 of the Association's 96 local organizations across Canada were represented. The official delegate from the Life Underwriters Association of P. E. Island was Mr. R. J. Rupert, C.L.U., Confederation Life Association.

Mr. Fernand de Haerne, C.L.U., manager at Montreal for La Sauvegarde Life Assurance Company, was elected National President of the Association. One of the 14 Regional Vice-Presidents, Mr. H. C. Bobaker, Sun Life Assurance Company of Charlottetown, P.E.I., was elected Regional Vice-President for Prince Edward Island, which territory includes Charlottetown. Mr. Roris Smith, C.L.U., of Toronto, was re-elected chairman of the National Board of Directors.

Mr. Rupert in an interview stated that one of the main items discussed at the meeting was the selection and training of new men coming into the life insurance selling field. Information presented to the meeting disclosed that the life insurance companies were doing a much better job in the selection of new men. While commending the companies on this trend, the meeting expressed the hope that all companies would continue to raise their selection standards so as to assure that only the highest type of men should be selected to represent the life insurance business to the public.

The meeting also went on record as strongly recommending that the companies enjoy the same selection standards when engaging part-time agents in rural territory as they do when selecting full-time representatives.

The question of the passing of an examination by an applicant for a license to act as a life insurance agent was discussed at some length. It was agreed that this matter should be given further study and again discussed at the next annual meeting.

Whereas the probationary period for several years has been 12 months, the meeting was advised that this period has recently been reduced to 6 months. The meeting was also advised that in 1946 the amount of business which a full-time underwriter was required to produce in a year in order to secure a renewal of his license had been increased.

Mr. Rupert reported that the Life Underwriters Association had enjoyed the best year in its history in 1946, that the annual meeting was the best attended of any in the history of the Association, that great interest was taken in all matters under discussion, and that there was evident a keen desire on the part of the delegates to do all possible to assure that the public were given the best possible service in connection with their life insurance.

Will Fly Crash Victims To U. S. Hospitals

(By The Canadian Press)
HALIFAX, Jan. 30 — Eastern Air Command headquarters here today quoted the commanding officer of an American naval air transport squadron as saying that the injured crew members of the American Dakota which crashed near the R.C.A.F. Eastern Passage base Friday would be flown to American hospitals tomorrow if their condition and weather permitted.

The seven crew members are in the Royal Canadian Naval hospital here, two of them, pilot Lt. J. Smith, Oakland, Calif., and co-pilot Lt. D. A. Swanson, Jacksonville, Fla., still described as seriously ill.

The other five, including the lone woman on board, 26-year-old C.N.S. Blanche Oldrich, Portland, Me., were less seriously injured.

The American officer did not say whether all or only several of the injured would be flown to American bases in the Skymaster hospital plane now waiting at the Eastern Passage base.

He did say, however, that some would be taken to hospital at Philadelphia and the others to Patuxent, Md. Meanwhile, American officials continued their probe of the crash but declined to give any statement until they made their report.

PRESTON, England — (CP) — Although blind and without hands, 26-year-old Bill Griffiths, ex-R.A.F. truck driver, has started in business as a haulage contractor.

PREFER WARMTH
Bats inhabit all parts of the globe except the coldest regions, but abound chiefly in the tropics.

ASIATIC SPORT
Badminton was played in India before it became popular in England in the 19th century.
