

PREMIER DELIVERS BUDGET SPEECH

(Continued from page 5)

It ever there has been a virtual, for the present, government, it was the fox hunter and the fox hunt; it was a nice day when his hon. friend from Timiskaming conceived the idea of raising these little animals in captivity.

THE FEDERAL SUBSIDY.

Mr. RICHARDS: Yes, he was a man of considerable foresight, and had it not been for these little foxes the Government, through their extravagance, would have been in a deeper hole than one of those foxes could dig in a month so far as the finances of the country are concerned.

Mr. RICHARDS: If Mr. White had been enthusiastic he would have given us \$200,000. (Laughter.)

Mr. RICHARDS: Mr. Speaker, it is my opinion that we would have got the \$200,000 if our friends had not gone further than the whist.

Mr. RICHARDS: That is a very simple question. The time did not come. (Laughter.) Manitoba received \$1.25 per head on account of having no public lands.

Mr. RICHARDS: I think I have accounted for the subsidy of \$100,000 from Ottawa, which we are all very glad to have obtained and which our representatives up there worked as hard to obtain, as the delegation that went up.

Local every afternoon in the island.

THE PREMIER: It is as true as the stars above that you have said - but it is not true.

Continuing, Mr. Richards said that he thought Mr. Shaw one of the most capable men in Canada; but he wanted to say for the information of his friends that there were really no dead beds in Richmond Bay - not one. It was the opinion of oyster dealers that if the Government were to undertake to restock the natural beds until they were brought up to their full bearing capacity, they would glut the market of Canada for the next twenty years.

THE PREMIER: Is that a crime? Might these men not just as well sell to the planters as sell to the people in Montreal? What did you do when you had beds of your own?

Mr. RICHARDS: I never took any. Concluding, Mr. Richards said that unless some more stringent measures were taken, the public beds would very soon be depleted which would be nothing short of a calamity.

THE PREMIER: You have been reading the "Patriot"?

Mr. RICHARDS: The people are only awaiting an opportunity to remedy the grave mistake they made some three years ago.

THE PREMIER: When do you expect you and Mr. Williams are coming into power?

Mr. RICHARDS: As soon as you give us a chance.

THE PREMIER: We will never give you a chance. (Laughter.)

SPEECH BY MR. MYERS.

Mr. J. H. MYERS was the next speaker. He said it was not his intention to take up very much of the time of the House, but he felt that he could not allow the occasion to pass without his saying a few words in answer to the criticisms of the Leader of the Opposition.

AROUND THE FOX EXCHANGES

Mr. E. H. Rayner, of Summerside, Secretary-Treasurer of the Rayner International Company, is in the city, and reports that Rayner stock is selling at the rate of six thousand dollars a day.

An exciting fox hunt that was attended with a fine run over good country, followed by a "good kill" took place on Wednesday afternoon, the hunt being carried out by the members of the Canada Fox Exchange and Investment Hunt Club and their celebrated pack of foxhounds. The fox was unharmed by Mr. George Lewis, keeper of the General Fur Farms Limited, Brighton, who telephoned in the good news, stating that the fox had been seen on the Brighton shore. This was thought to be the fox which had given the members of this Hunt Club a fine run but had escaped some weeks ago. Consequently, the party were keen to take up the chase for a second time. With the pack of hounds, the hunt which was immediately formed set out for the spot where the fox had been located.

Among those prominent huntsmen observed were Mr. W. B. Purdy, M.F.H., the members of the Fox Exchange Messrs. D. A. McKinnon, F. R. Newson, J. S. Wedlock, F. G. Jordan, and Messrs. Gordon Webb and Ernest McTague. It was half-past six in the evening when they arrived at the spot where the fox had been reported. Mr. F. H. Purdy marshalled his hounds in excellent order, and Huntmaster McTague with the hounds was soon beating up the wind near Kermerman. It was not long before they caused the fox to break cover, and he made fast time along the snow-covered ice. "Yoicks!" "Forward!" "Tally-ho!" and with the pack in full cry after the chase, the hunt commenced briskly. The fox displayed again all the speed, cunning and daring qualities he had shown in the previous hunt. He left the woods and took to the ice, where he could be plainly seen for some time. Shortly afterwards when hid to view, however, wily Reynard made a complete circle and jumped to one side, succeeding in throwing the hounds completely off the scent for a short while. This delay gave the fox a long lead, but the chase was soon in full cry again, and pell mell along the ice towards Lewis's Point went fox, hounds and hunters. The fox ran into the woods at this place and took refuge there. A game of hide and seek then ensued between him and the hounds when the latter got too warm on the scent to please Reynard, and the fox broke cover again, taking once more to the ice and going off in the direction of North River, with the hunt, pack and hunters in hot chase after him. The chase had been so warm and the fox had kept up such a killing pace that by now several members of the party began to show signs of being in vulgar language, a good deal "blown." Messrs. Webb and McTague, who were splendidly equipped, and fitted for the chase, however, still maintained their place in the front rank. The fox made straight for a bank of snow on the North River and tried to scramble up and over, but lost his footing and fell backwards, and the next instant the hounds were upon him, and the kill was successfully brought off. The huntsman was in close attendance to prevent the fox from being harmed by the dogs, which just pinned him down. It was then found out that the animal was indeed the same which had escaped at the meet of the Canada Fox Exchange and Investment Company's Hunt Club several weeks ago. Darkness had fallen by the time the jubilant members of the party began to wend their weary way home, but the crossing of the ice on the North River was safely navigated, with one slight mishap, one of the hunters falling into a spring hole and escaping with a good wetting. It was found necessary for one of the party to go ahead and sound the ice. The return took nearly two hours to be accomplished, testimony to the tried status of the huntsmen. Their elation at their success, however, more than offset their fatigue. Much credit is due to Mr. Purdy for the manner in which he discharged the duties of Master of the Hounds. It is to be mentioned that there was a reward on this fox's head which was promptly distributed among the delighted huntsmen.

HELPING THE SEALERS FAMILIES

C. J. REILY RESIGNS FROM Y. M. C. A.

The Board of Directors of the Y. M. C. A. on Tuesday night accepted with deep regret the resignation of their General Secretary, C. J. Reily, which had been placed in the hands of the Executive several days before.

Mr. Reily has served the Local Association for three years and a half. The progress made during that time has been very marked. When Mr. Reily came to Charlottetown the building and equipment was in a bad state of repair. The bowling alleys have taken the place of dusty, dirty rooms in the basement, although part of the money for this improvement was secured by Mr. Archibald. The main floor was dirty and dingy, and the furniture broken and worn out. During the last three years all this has been changed. The building has been painted, parts of it papered, a new floor laid in the mens' social room, walls covered with beaver board, and boys' department rooms partitioned off and equipped. In place of the old tattered, home-made parlor croquet table, and bagatelle board, there are now two new pocket billiard tables, the best in the city. The boys' rooms have been equipped with cue rugs and other new games. Offices have been fitted up for the Assistant Secretary and Physical Director.

The gymnasium had been repaired, painted and better lighted. It has been equipped with new apparatus in place of the old, which had been in use for about twenty-five years.

The separate men's reading room has been established, and equipped with modern magazine and newspaper racks, and is now a very attractive room. The outside of the building has been resingled and repainted.

While these material changes have been going on, the real work of the Association has also gone steadily forward. As a result of the work a number of young men have been led into Church membership. Nearly two young men are now studying for the ministry, while many more will become missionaries, doctors, lawyers, or enter other professions.

Some very strong educational features have been put on during Mr. Reily's regime. One of the largest audiences ever seen in the Province turned out to hear Hon. Wm. J. Bryan two years ago.

The establishment of the Automobile School has met with splendid success. Over sixty students have taken the course and about one-third of these were farmers' sons from the country.

Mr. Reily has been a strong advocate of better social conditions in the country, and has delivered many addresses on this subject.

The recent splendid Boys' Work Conference was his suggestion in his dual capacity of Y. M. C. A. Secretary and Superintendent of the Provincial Sunday School Association.

Mr. Reily is Secretary of the Provincial Scout Association, Secretary of the Provincial branch of the Lord's Day Alliance, a member of the executive of the Temperance Alliance and was the first to advocate and work for the securing of a Bird Sanctuary for the temperance work. He is the earnest champion of supervised play for our city, and has been largely instrumental in the success which has thus far been attained.

Mr. Reily will temporarily enter business life, and while he will be away from the Province, his family will remain in Charlottetown for some time. His resignation will take effect May first. Until a successor is chosen, Assistant Secretary, W. McMillan, will be in charge of the Association. Mr. McMillan has been associated with Mr. Reily for a little over three years, and has made good progress in the work.

A progressive programme of athletic and outdoor sports is proposed during the summer months.

Mr. F. W. Skene has been engaged by the Association since October last as Boy and Students' Secretary and has made a creditable record in this important department. It was largely through his personal effort that the large number of boys and young men met recently in this city to attend the first Boys' Work Conference held on P. E. Island. The value of the work done is so highly regarded that an effort is being made to re-

HORRIBLE FATALITY NEAR HALIFAX, N.S.

(Canadian Press.)

HALIFAX, April 9. - One of the most horrible fatalities occurring in Rockingham took place last night when Miss Lillian Bayer was instantly killed by a train after she alighted from the car on its arrival at the station. Her head was entirely severed from her body. A sad feature is that the body was discovered by her

ant at an early hour this morning. When the young lady failed to return home her aunt started with a lantern in search.

Miss Bayer was 22 years of age and for the past four years a student in Dalhousie University. She was noted as a most clever pupil. How the accident occurred is not exactly known. She was a daughter of Frank Bayer, Sydney.

PARLIAMENT TO DISSOLVE IN JUNE

(Canadian Press.)

LONDON, April 9. - That the Government has definitely decided to dissolve parliament toward the end of June with a general election in July is announced by the Standard. The plan is already suggested in other quarters since the government expect, unless the unexpected happens to be able to place the Home Rule Bill on the Statute books at the end of June Sir Edward Carson will spend a short Easter recess inspecting the various regiments in north-east Ireland.

CIVIC ELECTION IN MONTREAL

(Canadian Press.)

MONTREAL, April 7. - Returns from the whole of the thirty-one wards of the city, with thirteen polls to near from today, show that only half-hearted support in yesterday's civic elections was given to the "slate" backed by the citizens association, which helped largely to clean up Montreal after the Judge Cannon graft inquiry some years ago. Major George W. Stephens was badly beaten by the French voters, his opponent Mederic Martin, M. P. who was named in Judge Cannon's report, having a majority around five thousand over the ex-chairman of the harbor board. The figures for the board of control follow:

Thomas Cote 28,614
E. N. Herbert 27,404
Jos. Ainey 26,568
A. V. Roy 18,899

The latter two were endorsed by the citizens association together with the runner-up, Duncan McDonald, who was "knocked" in his campaign by the Graham papers, who put up the sixth man on the list, P. W. St. George, who had 16,544 votes.

STEAMER SEAL FAST IN ICE

(Canadian Press.)

HALIFAX, N. S., April 7. - The Halifax steamer Seal is jammed in the ice in the Gulf of St. Lawrence five hundred miles from Entry Island, according to a wireless message received by her owners tonight. The message said that the steamer with six thousand seal skins on board had been held fast for a week and that there was no immediate prospect of her release.

The owners of the Seal suggested that this intimation of the ice conditions in the waters about Newfoundland might warrant some slight hope that the missing sealer Southern Cross had not been wrecked but was caught in the ice. The Southern Cross, however, had left the Gulf of St. Lawrence and was off the southern coast of Newfoundland when last sighted.

HOME RULE IN IRELAND

(Canadian Press.)

CHICAGO, April 9. - The sentimental and moral support of Americans was a chief factor in bringing Home Rule within sight in Ireland, according to Count Michael Karolyi, leader of the government party in Hungary who addressed a meeting of his countrymen here tonight.

PANAMA TOLLS

EXPLOSION OF GASOLINE TANK

(Canadian Press.)

HARRISTON, Ont., April 5. - While an eight thousand gallon tank of gasoline was being unloaded yesterday afternoon into barrels at the works of the Harriston Oil Company, an explosion occurred. The buildings were wrecked and set on fire by the explosion. They contained fifty barrels of coal oil and fifteen barrels of gasoline, and the large gasoline tank was close by. The car on which the tank rested caught fire from the burning buildings, the gasoline became a-laze, and great flames shot up in the air. The loss is estimated at about \$5,000; insurance, \$2,000.

BIGGEST CANADIAN SHIP LAUNCHED

(Canadian Press.)

WPORT ARTHUR, Ont., April 7. - One of the most important events in the history of shipbuilding in Canada occurred at Port Arthur when the Canada Steamship Line's new giant steamer, The W. Grant Morden, was successfully launched at the yards of the Western Dry Dock & Shipbuilding Company. The twin cities of Port Arthur and Port William celebrated the occasion by a grand holiday and thousands from both cities journeyed out by motor and train to the ship yards to witness the event. The christening ceremony was performed by Lady Williams-Taylor, the wife of the new manager of the Bank of Montreal, assisted by Lady Allan, wife of Sir Montagu Allan, chairman of the finance committee of the board of directors of the Canada Steamship Lines, Limited, for which the new boat was built, Miss Brenda Taylor and Mrs. Henshaw. As the signal was given and the giant steamer moved over towards the water, Lady Williams-Taylor broke a bottle of champagne over the bow and christened the boat the W. Grant Morden.

OPENS BIG FUED

(Canadian Press.)

ST. JOHNS, April 9. - Premier Morris of Newfoundland cables from London that King George and Queen Mary headed a subscription list in the London Times for the sealing disaster fund with \$750. Generous donations have been received from other sources. The acting Premier at St. Johns received a subscription of \$2,000 each from the Dominion and Nova Scotia, St. John's. The local relief committee appointed to organize tomorrow. The steamer Kyte sent a wireless from 240 miles off Cape Race that she has seen nothing of the Steamer Southern Cross.
